NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AS OF MARCH 31, 2017 (UNAUDITED)

NOTE 1 - GENERAL INFORMATION

LATAM Airlines Group S.A. (the "Company") is a public company registered with the Chilean Superintendency of Securities and Insurance (SVS), under No.306, whose shares are quoted in Chile on the Stock Brokers - Stock Exchange (Valparaíso) - the Chilean Electronic Stock Exchange and the Santiago Stock Exchange; it is also quoted in the United States of America on the New York Stock Exchange ("NYSE") in New York in the form of American Depositary Receipts ("ADRs").

Its principal business is passenger and cargo air transportation, both in the domestic markets of Chile, Peru, Argentina, Colombia, Ecuador and Brazil and in a developed series of regional and international routes in America, Europe and Oceania. These businesses are developed directly or by their subsidiaries in different countries. In addition, the Company has subsidiaries operating in the freight business in Mexico, Brazil and Colombia.

The Company is located in Santiago, Chile, at Avenida Américo Vespucio Sur No. 901, commune of Renca.

Corporate Governance practices of the Company are set in accordance with Securities Market Law the Corporations Law and its regulations, and the regulations of the SVS and the laws and regulations of the United States of America and the U.S. Securities and Exchange Commission ("SEC") of that country, with respect to the issuance of ADRs.

On July 18, 2016, LATAM received the approval by Comissão de Valores Mobiliários ("CVM") for a discontinuation of Brazilian LATAM depositary receipts-BDRS level III ("BDRs"), supported by common shares of the Company and, consequently, our registration of the foreign issuer. On May 24, 2016, the Company reported as an Essential Fact the maturity date May 23, 2016 deadline for holders of BDRs to express their option to keep the shares and the blockade by BM&FBOVESPA with the same date of the respective balances of shares of the holders of BDRs who chose to adhere to the procedure for sale of shares through the procedure called Sale Facility and assigned for this purpose a theoretical value of sales in the Santiago Stock Exchange. On June 9, 2016, the Company reported that BTG Pactual Chile S.A. Stockbrokers ("BTG Pactual Chile"), a chilean institution contracted by the Company, made the sale on the Santiago Stock Exchange of the shares of the respective holders who adhered to Sale Facility procedure.

At March 31, 2017, the Company's capital stock is represented by 608,374,525 shares, all common shares, without par value, which is divided into: (a) the 606,407,693 subscribed and paid shares mentioned above; And (b) 1,966,832 shares pending of subscription and payment, of which: (i) 1,500,000 shares are allocated to compensation stock option plan; And (ii) 466,832 correspond to the balance of shares pending of placement of the last capital increase.

The Board of the Company is composed of nine members who are elected every two years by the ordinary shareholders' meeting. The Board meets in regular monthly sessions and in extraordinary sessions as the corporate needs demand. Of the nine board members, three form part of its Directors' Committee which fulfills both the role foreseen in the Corporations Law and the functions of the Audit Committee required by the Sarbanes Oxley Law of the United States of America and the respective regulations of the SEC.

The majority shareholder of the Company is the Cueto Group, which through Costa Verde Aeronáutica S.A., Costa Verde Aeronáutica SpA, Costa Verde Aeronáutica Tres SpA, Inversiones Nueva Costa Verde Aeronáutica Limitada, Inversiones Priesca Dos y Cía. Ltda., Inversiones Caravia Dos y Cía. Ltda., Inversiones El Fano Dos y Cía. Ltda., Inversiones La Espasa Dos S.A., Inversiones, Inversiones La Espasa Dos y Cía. Ltda. and Inversiones Mineras del Cantábrico S.A. owns 28.27% of the shares issued by the Company, and therefore is the controlling shareholder of the Company in accordance with the provisions of the letter b) of Article 97 and Article 99 of the Securities Market Law, given that there is a decisive influence on its administration.

As of March 31, 2017, the Company had a total of 1,565 registered shareholders. At that date approximately 4.51% of the Company's share capital was in the form of ADRs.

For the period ended March 31, 2017, the Company had an average of 45,032 employees, ending this period with a total of 44,565 employees, spread over 7,620 Administrative employees, 4,809 in Maintenance, 15,543 in Operations, 8,856 in Cabin Crew, 3,827 in Controls Crew, and 3,910 in Sales.

The main subsidiaries included in these consolidated financial statements are as follows:

(*) In June 2016, Lantours Division of Terrestrial Services S.A. Changed its name to Latam Travel Chile S.A.

(**) The Equity reported corresponds to Equity attributable to owners of the parent, it does not include Non-controlling interest.

Additionally, we have proceeded to consolidate the following special purpose entities: 1. JOL (Japanese Operating Lease) created in order to finance the purchase of certain aircraft; 2. Chercán Leasing Limited created to finance the pre-delivery payments on aircraft; 3. Guanay Finance Limited created to issue a bond collateralized with future credit card receivables; 4. Private investment funds and 5. Avoceta Leasing Limited created to finance the pre-delivery payments on aircraft. These companies have been consolidated as required by IFRS 10.

All the entities controlled have been included in the consolidation.

Changes in the scope of consolidation between January 1, 2016 and March 31, 2017, are detailed below:

- (1) Incorporation or acquisition of companies
- On January 2016 it was registered at the Public Registry of Commerce, the Increase in Share Capital and statutory modification for the purpose of creating a new class of shares of Lan Argentina S.A., subsidiary of Lan Pax Group S.A., for a total of 90,000,000 Class "C" shares

registered non-endorsable and non-voting. Lan Pax Group S.A. participated in this capital increase, changing its ownership to 4.87%, consequently, the indirect participation of LATAM Airlines Group S.A. increases to 95.85660%

- On April 1, 2016, Multiplus Corretora de Seguros Ltda. was created, the ownership of which corresponds to 99.99% of Multiplus S.A. direct subsidiary of TAM S.A.
- As of March 31, 2017, Inversiones LAN S.A., subsidiary of LATAM Airlines Group S.A., acquired 4,951 shares of Aerovías de Integración Regional Aires S.A. a non-controlling shareholder, equivalent to 0.09498%, consequently, the indirect participation of LATAM Airlines Group S.A. increases to 99.19414%
- (2) Dissolution of companies
- During the period 2016, Lan Chile Investments Limited, subsidiary of LATAM Airlines S.A.; and Aircraft International Leasing Limited, subsidiary of Lan Cargo S.A., were dissolved.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following describes the principal accounting policies adopted in the preparation of these consolidated financial statements.

2.1. Basis of Preparation

The consolidated financial statements of LATAM Airlines Group S.A. for the period ended March 31, 2017, have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board ("IASB") incorporated therein and with the interpretations issued by the International Financial Reporting Standards Interpretations Committee (IFRIC).

The consolidated financial statements have been prepared under the historic-cost criterion, although modified by the valuation at fair value of certain financial instruments.

The preparation of the consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to use its judgment in applying the Company's accounting policies. Note 4 shows the areas that imply a greater degree of judgment or complexity or the areas where the assumptions and estimates are significant to the consolidated financial statements. These interim consolidated financial statements have been prepared under IAS 34.

During 2016 the Company recorded out of period adjustments resulting in an aggregate net decrease of US\$ 18.2 million to "Net income (loss) for the period" for the year ended December 31, 2016. These adjustments include US\$ 39.5 million (loss) resulting from an account reconciliation process initiated after the Company's afiliate TAM S.A. and its subsidiaries completed the implementation of the SAP system. A further US\$ 11.0 million (loss) reflect adjustments related to foreign exchange differences, also relating to the Company's subsidiaries in Brazil. The balance of US\$ 32.3 million (gain) includes principally the adjustment of unclaimed fees for expired tickets for the Company and its affiliates outside Brazil. Management of TAM S.A.

has concluded that the out of period adjustments that have been identified are material to the 2015 financial statements of TAM S.A., which should therefore require a restatement in Brazil. However, Management of LATAM has evaluated the impact of all out of period adjustments, both individually and in the aggregate, and concluded that due to their relative size and to qualitative factors they are not material to the annual consolidated financial statements for 2016 of Latam Airlines Group S.A. or to any previously reported consolidated financial statements, therefore no restatement or revision is necessary.

(a) Accounting pronouncements with implementation effective from January 1, 2017:

(i) Standards and amendments	Date of issue	Mandatory Application: Annual periods beginning on or after
Amendment to IAS 7: Statement of cash flows.	january 2016	01/01/2017
Amendment to IAS 12: Income tax	january 2016	01/01/2017 Mandatory
(ii) Improvements	Date of issue	Application: Annual periods beginning on or after
Improvements to International Financial Reporting Standards (2014-2016, cycle); IERS 12 Disclosure of interests in other	december 2016	01/01/2017

(2014-2016 cycle): IFRS 12 Disclosure of interests in other entities.

The application of standards, amendments, interpretations and improvements had no material impact on the consolidated financial statements of the Company.

(b) Accounting pronouncements not yet in force for financial years beginning on January 1, 2017 and which has not been effected early adoption

(i) Standards and amendments	Date of issue	Mandatory Application: Annual periods beginning on or after
IFRS 9: Financial instruments.	December 2009	01/01/2018
Amendment to IFRS 9: Financial instruments.	November 2013	01/01/2018
IFRS 15: Revenue from contracts with customers (1).	May 2014	01/01/2018
Amendment to IFRS 15: Revenue from contracts with customers.	April 2016	01/01/2018
Amendment to IFRS 2: Share-based payments	June 2016	01/01/2018
Amendment to IFRS 4: Insurance contracts.	September 2016	01/01/2018
Amendment to IAS 40: Investment property	December 2016	01/01/2018

IFRS 16: Leases (2).	January 2016	01/01/2019
Amendment to IFRS 10: Consolidated financial statements and IAS 28 Investments in associates and joint ventures.	September 2014	To be determined
(ii) Improvements	Date of issue	Mandatory Application: Annual periods beginning on or after
Improvements to International Financial Reporting Standards. (cycle 2014-2016) IFRS 1: First-time adoption of international financial reporting standards and IAS 28 investments in associates and joint ventures.	December 2016	01/01/2018
(iii) Interpretations		
IFRIC 22: Foreign currency transactions and advance consideration	December 2016	01/01/2018

The Company's management believes that the adoption of the standards, amendments and interpretations described above but not yet effective would not have a significant impact on the Company's consolidated financial statements in the year of their first application, except for IFRS 15 and IFRS 16:

(1) IFRS 15 Revenue from Contracts with Customers supersedes actual standard for revenue recognition that actually uses the Company, as IAS 18 Revenue and IFRIC 13 Customer Loyalty Programmes. The core principle of IFRS 15 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This standards supersedes IFRS 15 supersedes, IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers; and SIC-31 Revenue - Barter Transactions Involving Advertising Services.

We are currently evaluating how the adoption of the revenue recognition standard will impact our Consolidated Financial Statements. Interpretations are on-going and could have a significant impact on our implementation. We currently believe the adoption will not have a significant impact on passenger and cargo revenue recognition. However, the impact in revenue and liability for frequent flyer program are still being analyzed.

(2) The IFRS 16 Leases add important changes in the accounting for lessees by introducing a similar treatment to financial leases for all operating leases with a term of more than 12 months. This mean, in general terms, that an asset should be recognized for the right to use the underlying leased assets and a liability representing its present value of payments associate to the agreement. Monthly leases payments will be replace by the asset depreciation and a financial cost in the income statement.

We are currently evaluating how the adoption of the leases recognition standard will impact our Consolidated Financial Statements. Interpretations are on-going and could have a material impact on our implementation. Currently, we expect that the adoption of the new lease standard will have a material impact on our consolidated balance sheet due to the recognition of right-of-use assets and lease liabilities principally for certain leases currently accounted for as operating leases.

LATAM Airlines Group S.A. and subsidiaries are still assessing these standard to determinate the effect on their Financial Statements, covenants and other financial indicators.

- 2.2. Basis of Consolidation
- (a) Subsidiaries

Subsidiaries are all the entities (including special-purpose entities) over which the Company has the power to control the financial and operating policies, which are generally accompanied by a holding of more than half of the voting rights. In evaluating whether the Company controls another entity, the existence and effect of potential voting rights that are currently exercisable or convertible at the date of the consolidated financial statements are considered. The subsidiaries are consolidated from the date on which control is passed to the Company and they are excluded from the consolidation on the date they cease to be so controlled. The results and flows are incorporated from the date of acquisition.

Balances, transactions and unrealized gains on transactions between the Company's entities are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment loss of the asset transferred. When necessary in order to ensure uniformity with the policies adopted by the Company, the accounting policies of the subsidiaries are modified.

To account for and identify the financial information to be revealed when carrying out a business combination, such as the acquisition of an entity by the Company, shall apply the acquisition method provided for in IFRS 3: Business combination.

(b) Transactions with non-controlling interests

The Company applies the policy of considering transactions with non-controlling interests, when not related to loss of control, as equity transactions without an effect on income.

(c) Sales of subsidiaries

When a subsidiary is sold and a percentage of participation is not retained, the Company derecognizes assets and liabilities of the subsidiary, the non-controlling and other components of equity related to the subsidiary. Any gain or loss resulting from the loss of control is recognized in the consolidated income statement in Other gains (losses).

If LATAM Airlines Group S.A. and Subsidiaries retain an ownership of participation in the sold subsidiary, and does not represent control, this is recognized at fair value on the date that control is

lost, the amounts previously recognized in Other comprehensive income are accounted as if the Company had disposed directly from the assets and related liabilities, which can cause these amounts are reclassified to profit or loss. The percentage retained valued at fair value is subsequently accounted using the equity method.

(d) Investees or associates

Investees or associates are all entities over which LATAM Airlines Group S.A. and Subsidiaries have significant influence but have no control. This usually arises from holding between 20% and 50% of the voting rights. Investments in associates are booked using the equity method and are initially recognized at their cost.

- 2.3. Foreign currency transactions
- (a) Presentation and functional currencies

The items included in the financial statements of each of the entities of LATAM Airlines Group S.A. and Subsidiaries are valued using the currency of the main economic environment in which the entity operates (the functional currency). The functional currency of LATAM Airlines Group S.A. is the United States dollar which is also the presentation currency of the consolidated financial statements of LATAM Airlines Group S.A. and Subsidiaries.

(b) Transactions and balances

Foreign currency transactions are translated to the functional currency using the exchange rates on the transaction dates. Foreign currency gains and losses resulting from the liquidation of these transactions and from the translation at the closing exchange rates of the monetary assets and liabilities denominated in foreign currency are shown in the consolidated statement of income by function except when deferred in Other comprehensive income as qualifying cash flow hedges.

(c) Group entities

The results and financial position of all the Group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency other than the presentation currency are translated to the presentation currency as follows:

(i) Assets and liabilities of each consolidated statement of financial position presented are translated at the closing exchange rate on the consolidated statement of financial position date;

(ii) The revenues and expenses of each income statement account are translated at the exchange rates prevailing on the transaction dates, and

(iii) All the resultant exchange differences by conversion are shown as a separate component in other comprehensive income.

The exchange rates used correspond to those fixed in the country where the subsidiary is located, whose functional currency is different to the U.S. dollar.

Adjustments to the Goodwill and fair value arising from the acquisition of a foreign entity are

treated as assets and liabilities of the foreign entity and are translated at the closing exchange rate or period informed.

2.4. Property, plant and equipment

The land of LATAM Airlines Group S.A. and Subsidiaries is recognized at cost less any accumulated impairment loss. The rest of the Property, plant and equipment are registered, initially and subsequently, at historic cost less the corresponding depreciation and any impairment loss.

The amounts of advance payments to aircraft manufacturers are capitalized by the Company under Construction in progress until receipt of the aircraft.

Subsequent costs (replacement of components, improvements, extensions, etc.) are included in the value of the initial asset or shown as a separate asset only when it is probable that the future economic benefits associated with the elements of Property, plant and equipment are going to flow to the Company and the cost of the element can be determined reliably. The value of the component replaced is written off in the books at the time of replacement. The rest of the repairs and maintenance are charged to the results of the year in which they are incurred.

Depreciation of Property, plant and equipment is calculated using the straight-line method over their estimated technical useful lives; except in the case of certain technical components which are depreciated on the basis of cycles and hours flown.

The residual value and useful life of assets are reviewed, and adjusted if necessary, once per year.

When the carrying amount of an asset is higher than its estimated recoverable amount, its value is reduced immediately to its recoverable amount (Note 2.8).

Losses and gains on the sale of Property, plant and equipment are calculated by comparing the compensation with the book value and are included in the consolidated statement of income.

- 2.5. Intangible assets other than goodwill
- (a) Airport slots and Loyalty program

Airport slots and the Coalition and Loyalty program are intangible assets of indefinite useful life and are subject to impairment tests annually as an integral part of each CGU, in accordance with the premises that are applicable, included as follows:

Airport slots – Air transport CGU Loyalty program – Coalition and loyalty program Multiplus CGU (See Note 16)

The airport slots correspond to an administrative authorization to carry out operations of arrival and departure of aircraft at a specific airport, within a specified period.

The Loyalty program corresponds to the system of accumulation and redemption of points that has developed Multiplus S.A., subsidiary of TAM S.A.

The Brands, airport Slots and Loyalty program were recognized in fair values determined in accordance with IFRS 3, as a consequence of the business combination with TAM and Subsidiaries.

(b) Computer software

Licenses for computer software acquired are capitalized on the basis of the costs incurred in acquiring them and preparing them for using the specific software. These costs are amortized over their estimated useful lives, for which the Company has been defined useful lives between 3 and 10 years.

Expenses related to the development or maintenance of computer software which do not qualify for capitalization, are shown as an expense when incurred. The personnel costs and others costs directly related to the production of unique and identifiable computer software controlled by the Company, are shown as intangible Assets others than Goodwill when they have met all the criteria for capitalization.

(c) Brands

The Brands were acquired in the business combination with TAM S.A. And Subsidiaries and recognized at fair value under IFRS. During the year 2016, the estimated useful life of the brands change from an indefinite useful life to a five-year period, the period in which the value of the brands will be amortized (See Note 15).

2.6. Goodwill

Goodwill represents the excess of acquisition cost over the fair value of the Company's participation in the net identifiable assets of the subsidiary or associate on the acquisition date. Goodwill related to acquisition of subsidiaries is not amortized but tested for impairment annually or each time that there is evidence of impairment. Gains and losses on the sale of an entity include the book amount of the goodwill related to the entity sold.

2.7. Borrowing costs

Interest costs incurred for the construction of any qualified asset are capitalized over the time necessary for completing and preparing the asset for its intended use. Other interest costs are recognized in the consolidated income statement when they are accrued.

2.8. Losses for impairment of non-financial assets

Intangible assets that have an indefinite useful life, and developing IT projects, are not subject to amortization and are subject to annual testing for impairment. Assets subject to amortization are subjected to impairment tests whenever any event or change in circumstances indicates that the book value of the assets may not be recoverable. An impairment loss is recorded when the book value is greater than the recoverable amount. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. In evaluating the impairment, the assets are grouped at the lowest level for which cash flows are separately identifiable (CGUs). Non-financial assets other than goodwill that have suffered an impairment loss are reviewed if there are indicators of reverse losses at each reporting date.

2.9. Financial assets

The Company classifies its financial instruments in the following categories: financial assets at fair value through profit and loss and loans and receivables. The classification depends on the purpose for which the financial instruments were acquired. Management determines the classification of its financial instruments at the time of initial recognition, which occurs on the date of transaction.

(a) Financial assets at fair value through profit and loss

Financial assets at fair value through profit and loss are financial instruments held for trading and those which have been designated at fair value through profit or loss in their initial classification. A financial asset is classified in this category if acquired mainly for the purpose of being sold in the near future or when these assets are managed and measured using fair value. Derivatives are also classified as held for trading unless they are designated as hedges. The financial assets in this category and have been designated initial recognition through profit or loss, are classified as Cash and cash equivalents and Other current financial assets and those designated as instruments held for trading are classified as Other current and non-current financial assets.

(b) Loans and receivables

Loans and receivables are non-derivative financial instruments with fixed or determinable payments not traded on an active market. These items are classified in current assets except for those with maturity over 12 months from the date of the consolidated statement of financial position, which are classified as non-current assets. Loans and receivables are included in trade and other accounts receivable in the consolidated statement of financial position (Note 2.12).

The regular purchases and sales of financial assets are recognized on the trade date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognized at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or losses are initially recognized at fair value, and transaction costs are expensed in the income statement. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

The financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are subsequently carried at amortized cost using the effective interest rate method.

At the date of each consolidated statement of financial position, the Company assesses if there is objective evidence that a financial asset or group of financial assets may have suffered an impairment loss.

2.10. Derivative financial instruments and hedging activities

Derivatives are booked initially at fair value on the date the derivative contracts are signed and later they continue to be valued at their fair value. The method for booking the resultant loss or gain depends on whether the derivative has been designated as a hedging instrument and if so, the nature of the item hedged. The Company designates certain derivatives as:

- (a) Hedge of the fair value of recognized assets (fair value hedge);
- (b) Hedge of an identified risk associated with a recognized liability or an expected

highly- Probable transaction (cash-flow hedge), or

(c) Derivatives that do not qualify for hedge accounting.

The Company documents, at the inception of each transaction, the relationship between the hedging instrument and the hedged item, as well as its objectives for managing risk and the strategy for carrying out various hedging transactions. The Company also documents its assessment, both at the beginning and on an ongoing basis, as to whether the derivatives used in the hedging transactions are highly effective in offsetting the changes in the fair value or cash flows of the items being hedged.

The total fair value of the hedging derivatives is booked as Other non-current financial asset or liability if the remaining maturity of the item hedged is over 12 months, and as an other current financial asset or liability if the remaining term of the item hedged is less than 12 months. Derivatives not booked as hedges are classified as Other financial assets or liabilities.

(a) Fair value hedges

Changes in the fair value of designated derivatives that qualify as fair value hedges are shown in the consolidated statement of income, together with any change in the fair value of the asset or liability hedged that is attributable to the risk being hedged.

(b) Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is shown in the statement of other comprehensive income. The loss or gain relating to the ineffective portion is recognized immediately in the consolidated statement of income under other gains (losses). Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss.

In case of variable interest-rate hedges, the amounts recognized in the statement of other comprehensive income are reclassified to results within financial costs at the same time the associated debts accrue interest.

For fuel price hedges, the amounts shown in the statement of other comprehensive income are reclassified to results under the line item Cost of sales to the extent that the fuel subject to the hedge is used.

For foreign currency hedges, the amounts recognized in the statement of other comprehensive income are reclassified to income as deferred revenue resulting from the use of points, are recognized as Income.

When hedging instruments mature or are sold or when they do not meet the requirements to be accounted for as hedges, any gain or loss accumulated in the statement of Other comprehensive income until that moment remains in the statement of other comprehensive income and is reclassified to the consolidated statement of income when the hedged transaction is finally recognized. When it is expected that the hedged transaction is no longer going to occur, the gain or loss accumulated in the statement of other comprehensive income is taken immediately to the consolidated statement of income as "Other gains (losses)".

(c) Derivatives not booked as a hedge

The changes in fair value of any derivative instrument that is not booked as a hedge are shown immediately in the consolidated statement of income in "Other gains (losses)".

2.11. Inventories

Inventories, detailed in Note 10, are shown at the lower of cost and their net realizable value. The cost is determined on the basis of the weighted average cost method (WAC). The net realizable value is the estimated selling price in the normal course of business, less estimated costs necessary to make the sale.

2.12. Trade and other accounts receivable

Trade accounts receivable are shown initially at their fair value and later at their amortized cost in accordance with the effective interest rate method, less the allowance for impairment losses. An allowance for impairment loss of trade accounts receivable is made when there is objective evidence that the Company will not be able to recover all the amounts due according to the original terms of the accounts receivable.

The existence of significant financial difficulties on the part of the debtor, the probability that the debtor is entering bankruptcy or financial reorganization and the default or delay in making payments are considered indicators that the receivable has been impaired. The amount of the provision is the difference between the book value of the assets and the present value of the estimated future cash flows, discounted at the original effective interest rate. The book value of the asset is reduced by the amount of the allowance and the loss is shown in the consolidated statement of income in Cost of sales. When an account receivable is written off, it is charged to the allowance account for accounts receivable.

2.13. Cash and cash equivalents

Cash and cash equivalents include cash and bank balances, time deposits in financial institutions, and other short-term and highly liquid investments.

2.14. Capital

The common shares are classified as net equity.

Incremental costs directly attributable to the issuance of new shares or options are shown in net equity as a deduction from the proceeds received from the placement of shares.

2.15. Trade and other accounts payables

Trade payables and other accounts payable are initially recognized at fair value and subsequently at amortized cost.

2.16. Interest-bearing loans

Financial liabilities are shown initially at their fair value, net of the costs incurred in the transaction. Later, these financial liabilities are valued at their amortized cost; any difference between the proceeds obtained (net of the necessary arrangement| costs) and the repayment value, is shown in the consolidated statement of income during the term of the debt, according to the effective interest rate method.

Financial liabilities are classified in current and non-current liabilities according to the contractual payment dates of the nominal principal.

2.17. Current and deferred taxes

The expense by current tax is comprised of income and deferred taxes.

The charge for current tax is calculated based on tax laws in force on the date of statement of financial position, in the countries in which the subsidiaries and associates operate and generate taxable income.

Deferred taxes are calculated using the liability method, on the temporary differences arising between the tax bases of assets and liabilities and their book values. However, if the temporary differences arise from the initial recognition of a liability or an asset in a transaction different from a business combination that at the time of the transaction does not affect the accounting result or the tax gain or loss, they are not booked. The deferred tax is determined using the tax rates (and laws) that have been enacted or substantially enacted at the consolidated financial statements close, and are expected to apply when the related deferred tax asset is realized or the deferred tax liability discharged.

Deferred tax assets are recognized when it is probable that there will be sufficient future tax earnings with which to compensate the temporary differences.

The tax (current and deferred) is recognized in income by function, unless it relates to an item recognized in other comprehensive income, directly in equity or from business combination. In that case the tax is also recognized in other comprehensive income, directly in income by function or goodwill, respectively.

- 2.18. Employee benefits
- (a) Personnel vacations
- The Company recognizes the expense for personnel vacations on an accrual basis.
- (b) Share-based compensation

The compensation plans implemented based on the shares of the Company are recognized in the consolidated financial statements in accordance with IFRS 2: Share-based payments, for plans based on the granting of options, the effect of fair value is recorded in equity with a charge to remuneration in a linear manner between the date of grant of said options and the date on which they become irrevocable, for the plans considered as cash settled award the fair value, updated as of the closing date of each reporting period, is recorded as a liability with charge to remuneration.

(c) Post-employment and other long-term benefits

Provisions are made for these obligations by applying the method of the projected unit credit method, and taking into account estimates of future permanence, mortality rates and future wage increases determined on the basis of actuarial calculations. The discount rates are determined by reference to market interest-rate curves. Actuarial gains or losses are shown in other comprehensive income.

(d) Incentives

The Company has an annual incentives plan for its personnel for compliance with objectives and individual contribution to the results. The incentives eventually granted consist of a given number or portion of monthly remuneration and the provision is made on the basis of the amount estimated for distribution.

2.19. Provisions

Provisions are recognized when:

- (i) The Company has a present legal or implicit obligation as a result of past events;
- (ii) It is probable that payment is going to be necessary to settle an obligation; and
- (iii) The amount has been reliably estimated.
- 2.20. Revenue recognition

Revenues include the fair value of the proceeds received or to be received on sales of goods and rendering services in the ordinary course of the Company's business. Revenues are shown net of refunds, rebates and discounts.

- (a) Rendering of services
- (i) Passenger and cargo transport

The Company shows revenue from the transportation of passengers and cargo once the service has been provided.

Consistent with the foregoing, the Company presents the deferred revenues, generated by anticipated sale of flight tickets and freight services, in heading other non - financial liabilities in the Statement of Financial Position.

(ii) Frequent flyer program

The Company currently has a frequent flyer programs, whose objective is customer loyalty through the delivery of kilometers or points fly whenever the programs holders make certain flights, use the services of entities registered with the program or make purchases with an associated credit card. The kilometers or points earned can be exchanged for flight tickets or other services of associated entities.

The consolidated financial statements include liabilities for this concept (deferred income),

according to the estimate of the valuation established for the kilometers or points accumulated pending use at that date, in accordance with IFRIC 13: Customer loyalty programs.

(iii) Other revenues

The Company records revenues for other services when these have been provided.

(b) Dividend income

Dividend income is booked when the right to receive the payment is established.

2.21. Leases

(a) When the Company is the lessee – financial lease

The Company leases certain Property, plant and equipment in which it has substantially all the risk and benefits deriving from the ownership; they are therefore classified as financial leases. Financial leases are initially recorded at the lower of the fair value of the asset leased and the present value of the minimum lease payments.

Every lease payment is separated between the liability component and the financial expenses so as to obtain a constant interest rate over the outstanding amount of the debt. The corresponding leasing obligations, net of financial charges, are included in other financial liabilities. The element of interest in the financial cost is charged to the consolidated statement of income over the lease period so that it produces a constant periodic rate of interest on the remaining balance of the liability for each year. The asset acquired under a financial lease is depreciated over its useful life and is included in Property, plant and equipment.

(b) When the Company is the lessee – operating lease

Leases, in which the lessor retains an important part of the risks and benefits deriving from ownership, are classified as operating leases. Payments with respect to operating leases (net of any incentive received from the lessor) are charged in the consolidated statement of income on a straight-line basis over the term of the lease.

2.22. Non-current assets or disposal groups classified as held for sale

Non-current assets (or disposal groups) classified as assets held for sale are shown at the lesser of their book value and the fair value less costs to sell.

2.23. Maintenance

The costs incurred for scheduled heavy maintenance of the aircraft's fuselage and engines are capitalized and depreciated until the next maintenance. The depreciation rate is determined on technical grounds, according to the use of the aircraft expressed in terms of cycles and flight hours.

In case of own aircraft or under financial leases, these maintenance cost are capitalized as Property, plant and equipment, while in the case of aircraft under operating leases, a liability is accrued based on the use of the main components is recognized, since a contractual obligation with the lessor to

return the aircraft on agreed terms of maintenance levels exists. These are recognized as Cost of sales.

Additionally, some leases establish the obligation of the lessee to make deposits to the lessor as a guarantee of compliance with the maintenance and return conditions. These deposits, often called maintenance reserves, accumulate until a major maintenance is performed, once made, the recovery is requested to the lessor. At the end of the contract period, there is comparison between the reserves that have been paid and required return conditions, and compensation between the parties are made if applicable.

The unscheduled maintenance of aircraft and engines, as well as minor maintenance, are charged to results as incurred.

2.24. Environmental costs

Disbursements related to environmental protection are charged to results when incurred.

NOTE 3 - FINANCIAL RISK MANAGEMENT

3.1. Financial risk factors

The Company is exposed to different financial risks: (a) market risk, (b) credit risk, and (c) liquidity risk. The program overall risk management of the Company aims to minimize the adverse effects of financial risks affecting the company.

(a) Market risk

Due to the nature of its operations, the Company is exposed to market factors such as: (i) fuel-price risk, (ii) exchange -rate risk, and (iii) interest -rate risk.

The Company has developed policies and procedures for managing market risk, which aim to identify, quantify, monitor and mitigate the adverse effects of changes in market factors mentioned above.

For this, the Administration monitors the evolution of price levels and rates, and quantifies their risk exposures (Value at Risk), and develops and implements hedging strategies.

(i) Fuel-price risk:

Exposition:

For the execution of its operations the Company purchases a fuel called Jet Fuel grade 54 USGC, which is subject to the fluctuations of international fuel prices.

Mitigation:

To cover the risk exposure fuel, the Company operates with derivative instruments (swaps and options) whose underlying assets may be different from Jet Fuel, being possible use West Texas Intermediate ("WTI") crude, Brent ("BRENT") crude and distillate Heating Oil ("HO"), which have a high correlation with Jet Fuel and high liquidity.

Fuel Hedging Results:

During the period ended at March 31, 2017, the Company recognized losses of US\$ 2.4 million on fuel derivative. During the same period of 2016, the Company recognized gains of US\$ 28.8 million for the same reason.

At March 31, 2017, the market value of its fuel positions amounted to US\$ 0.1 million (negative). At December 31, 2016, this market value was US\$ 8.1 million (positive).

The following tables show the level of hedge for different periods:

Positions as of March 31, 2017 (Unaudited)(*)	Maturities			
	Q217	Q317	Total	
Percentage of the hedge of expected consumption value	45%	23%	34%	

(*) The volume shown in the table considers all the hedging instruments (swaps and options).

Positions as of December 31, 2016 (*)	Maturities				
	Q117	Q217	Total		
Percentage of the hedge of expected consumption value	21%	16%	18%		

(*) The volume shown in the table considers all the hedging instruments (swaps and options).

Sensitivity analysis

A drop in fuel price positively affects the Company through a reduction in costs. However, also negatively affects contracted positions as these are acquired to protect the Company against the risk of a rise in price. The policy therefore is to maintain a hedge-free percentage in order to be competitive in the event of a drop in price.

The current hedge positions they are booked as cash flow hedge contracts, so a variation in the fuel price has an impact on the Company's net equity.

The following table shows the sensitivity analysis of the financial instruments according to reasonable changes in the fuel price and their effect on equity. The term of the projection was defined until the end of the last current fuel hedge contract, being the last business day of the third quarter of 2017.

The calculations were made considering a parallel movement of US\$ 5 per barrel in the curve of the BRENT and JET crude futures benchmark price at the end of March 2017 and the end of December, 2016.

	Positions as of March 31, 2017	Positions as of December 31, 2016
Benchmark price	effect on equity	effect on equity
(US\$ per barrel)	(millions of US\$)	(millions of US\$)
	Unaudited	
+5	+12.81	+3.12
-5	- 11.88	-4.78

Given the fuel hedge structure during the first quarter of 2017, which considers a hedge-free portion, a vertical fall by 5 dollars in the JET benchmark price (the monthly daily average), would have meant an impact of approximately US\$ 25.8 million in the cost of total fuel consumption for the same period. The first quarter of 2017, a vertical rise by 5 dollars in the JET benchmark price (the monthly daily average) would have meant an impact of approximately US\$ 27.3 million of increased fuel costs.

(ii) Foreign exchange rate risk:

Exposition:

The functional and presentation currency of the Financial Statements of the Parent Company is the United States dollar, so the risk of Transactional exchange rate and Conversion arises mainly from its own operating activities of the business, strategic and accounting of the Company are denominated in a different currency than the functional currency.

LATAM Subsidiaries are also exposed to currency risk that impacts the consolidated results of the Company.

Most currency operational exposure of LATAM comes from the concentration of business in Brazil, which are mostly denominated in Brazilian Real (BRL), being actively managed by the company.

In lower concentrations the Company is therefore exposed to fluctuations in others currencies, such as: Euro, Pound Sterling, Australian Dollar, Colombian Peso, Chilean Peso, Argentine Peso, Paraguayan Guaraní, Mexican Peso, Peruvian Sol and New Zealand Dollar.

Mitigation:

The Company mitigates currency risk exposures by contracting derivative instruments or through natural hedges or execution of internal operations.

FX Hedging Results:

With the aim of reducing exposure to exchange rate risk on operating cash flows in 2016 and 2017, and secure the operating margin, LATAM and TAM conduct hedging through FX derivatives.

At March 31, 2017, the market value of its FX positions amounted to US\$ 2.0 million (negative). At end of December 2016 the market value was of US\$ 1.1 million (negative).

During the period ended at March 31, 2017 the Company recognized losses of US\$ 2.8 million on hedging FX. During the same period of 2016 the Company recognized lost of US\$ 1.1 million on hedging FX.

At March 31, 2017, the Company has contracted FX derivatives for US\$ 200 million to BRL. At end of December 2016, the Company had contracted FX for US\$ 60 million to BRL, and US\$ 10 million to GBP.

Sensitivity analysis:

A depreciation of exchange rate R\$/ US\$, affects negatively the Company for a rise of its costs in US\$, however, it also affects positively the value of contracted derivate positions.

The FX derivatives are registered for as hedges of cash flow, therefore, a variation in the exchange rate has an impact on the market value of derivatives, whose changes impact on the Company's net equity.

The following table presents the sensitivity of derivative FX Forward instruments agrees with reasonable changes to exchange rate and its effect on equity. The projection term was defined until the end of the last current contract hedge, being the last business day of the third quarter of 2017:

Appreciation (depreciation)*	Effect at March 31, 2017	Effect at December 31, 2016
of R\$ /GBP	Millions of US\$	Millions of US\$
	Unaudited	
-10%	-12.05	-1.02
+10%	+12.95	+3.44

In the case of TAM S.A. which operates with the Brazilian Real as its functional currency, a large proportion of the company's assets liabilities are expressed in United States Dollars. Therefore, this subsidiary's profit and loss varies when its financial assets and liabilities, and its accounts receivable listed in dollars are converted to Brazilian Reals. This impact on profit and loss is consolidated in the Company.

In order to reduce the volatility on the financial statements of the Company caused by rises and falls in the R\$/US\$ exchange rate, the Company has contracted hedging derivatives has conducted transactions for to reduce the net US\$ liabilities held by TAM S.A., whose accounting effects are recorded as economic and non-accounting coverage.

The following table shows the variation of financial performance to appreciate or depreciate 10% exchange rate R\$/US\$:

Appreciation (depreciation)*	Effect at March 31, 2017	Effect at December 31, 2016
of R\$/US\$	Millons of US\$	
	Unaudited	
-10%	+133.1	+119.2
+10%	-133.1	-119.2

(*) Appreciation (depreciation) of US\$ regard to the covered currencies.

Effects of exchange rate derivatives in the Financial Statements

The profit or losses caused by changes in the fair value of hedging instruments are segregated between intrinsic value and temporary value. The intrinsic value is the actual percentage of cash flow covered, initially shown in equity and later transferred to income, while the hedge transaction is recorded in income. The temporary value corresponds to the ineffective portion of cash flow hedge which is recognized in the financial results of the Company (Note 19).

Due to the functional currency of TAM S.A. and Subsidiaries is the Brazilian real, the Company presents the effects of the exchange rate fluctuations in Other comprehensive income by converting the Statement of financial position and Income statement of TAM S.A. and Subsidiaries from their functional currency to the U.S. dollar, which is the presentation currency of the consolidated financial statement of LATAM Airlines Group S.A. and Subsidiaries. The Goodwill generated in the Business combination is recognized as an asset of TAM S.A. and Subsidiaries in Brazilian real whose conversion to U.S. dollar also produces effects in other comprehensive income.

The following table shows the change in Other comprehensive income recognized in Total equity in the case of appreciate or depreciate 10% the exchange rate R\$/US\$:

Appreciation (depreciation)	Effect at March 31, 2017	Effect at December 31, 2016
of R\$/US\$	Millions of US\$	Millions of US\$
	Unaudited	
-10%	+365.16	+351.04
+10%	-298.77	-287.22

(iii) Interest -rate risk:

Exposition:

The Company is exposed to fluctuations in interest rates affecting the markets future cash flows of the assets, and current and future financial liabilities.

The Company is exposed in one portion to the variations of London Inter-Bank Offer Rate ("LIBOR") and other interest rates of less relevance are Brazilian Interbank Deposit Certificate ("ILC"), and the Interest Rate Term of Brazil ("TJLP").

Mitigation:

In order to reduce the risk of an eventual rise in interest rates, the Company has signed interest-rate swap and call option contracts. Currently a 62% (63% at December 31, 2016) of the debt is fixed to fluctuations in interest rate.

Rate Hedging Results:

At March 31, 2017, the market value of the positions of interest rate derivatives amounted to US\$ 13.0 million (negative). At end of December 2016 this market value was US\$ 17.2 million (negative).

Sensitivity analysis:

The following table shows the sensitivity of changes in financial obligations that are not hedged against interest-rate variations. These changes are considered reasonably possible, based on current market conditions each date.

Increase (decrease) futures curve	Positions as of March 31, 2017 effect on profit or loss before tax	Positions as of March 31, 2016 effect on profit or loss before tax
in libor 3 months	(millions of US\$)	(millions of US\$)
	Unaudited	Unaudited
+100 basis points	-31.92	-26.70
-100 basis points	+31.92	+26.70

Much of the current rate derivatives are registered for as hedges of cash flow, therefore, a variation in the exchange rate has an impact on the market value of derivatives, whose changes impact on the Company's net equity.

The calculations were made increasing (decreasing) vertically 100 basis points of the three-month Libor futures curve, being both reasonably possible scenarios according to historical market conditions.

Increase (decrease)	Positions as of March 31, 2017	Positions as of December 31, 2016
futures curve	effect on equity	effect on equity
in libor 3 months	(millions of US\$)	(millions of US\$)
	Unaudited	
+100 basis points	+3.03	+3.93
-100 basis points	-3.11	-4.03

The assumptions of sensitivity calculation must assume that forward curves of interest rates do not necessarily reflect the real value of the compensation flows. Moreover, the structure of interest rates is dynamic over time.

During the periods presented, the Company has no registered amounts by ineffectiveness in consolidated statement of income for this kind of hedging.

(b) Credit risk

Credit risk occurs when the counterparty to a financial agreement or instrument fails to discharge an obligation due or financial instrument, leading to a loss in market value of a financial instrument (only financial assets, not liabilities).

The Company is exposed to credit risk due to its operative and financial activities, including deposits with banks and financial institutions, investments in other kinds of instruments, exchange-rate transactions and the contracting of derivative instruments or options.

To reduce the credit risk associated with operational activities, the Company has established credit limits to abridge the exposure of their debtors which are monitored permanently (mainly in case of operational activities in Brazil with travel agents).

As a way to mitigate credit risk related to financial activities, the Company requires that the counterparty to the financial activities remain at least investment grade by major Risk Assessment Agencies. Additionally the company has established maximum limits for investments which are monitored regularly.

(i) Financial activities

Cash surpluses that remain after the financing of assets necessary for the operation are invested according to credit limits approved by the Company's Board, mainly in time deposits with different financial institutions, private investment funds, short-term mutual funds, and easily-liquidated corporate and sovereign bonds with short remaining maturities. These investments are booked as Cash and cash equivalents and other current financial assets.

In order to reduce counterparty risk and to ensure that the risk assumed is known and managed by the Company, investments are diversified among different banking institutions (both local and international). The Company evaluates the credit standing of each counterparty and the levels of investment, based on (i) their credit rating, (ii) the equity size of the counterparty, and (iii) investment limits according to the Company's level of liquidity. According to these three parameters, the Company chooses the most restrictive parameter of the previous three and based on this, establishes limits for operations with each counterparty.

The Company has no guarantees to mitigate this exposure.

(ii) **Operational** activities

The Company has four large sales "clusters": travel agencies, cargo agents, airlines and credit-card administrators. The first three are governed by International Air Transport Association, international ("IATA") organization comprising most of the airlines that represent over 90% of scheduled commercial traffic and one of its main objectives is to regulate the financial transactions between airlines and travel agents and cargo. When an agency or airline does not pay their debt, they are excluded from operating with IATA's member airlines. In the case of credit-card administrators, they are fully guaranteed by 100% by the issuing institutions.

The exposure consists of the term granted, which fluctuates between 1 and 45 days.

One of the tools the Company uses for reducing credit risk is to participate in global entities related to the industry, such as IATA, Business Sales Processing ("BSP"), Cargo Account Settlement Systems ("CASS"), IATA Clearing House ("ICH") and banks (credit cards). These institutions fulfill the role of collectors and distributors between airlines and travel and cargo agencies. In the case of the Clearing House, it acts as an offsetting entity between airlines for the services provided between them. A reduction in term and implementation of guarantees has been achieved through these entities. Currently the sales invoicing of TAM Linhas Aéreas S.A. related with travel agents and cargo agents for domestic transportation in Brazil is done directly by TAM Linhas Aéreas S.A.

Credit quality of financial assets

The external credit evaluation system used by the Company is provided by IATA. Internal systems are also used for particular evaluations or specific markets based on trade reports available on the local market. The internal classification system is complementary to the external one, i.e. for agencies or airlines not members of IATA, the internal demands are greater.

To reduce the credit risk associated with operational activities, the Company has established credit limits to abridge the exposure of their debtors which are monitored permanently (mainly in case of operational activities of TAM Linhas Aéreas S.A. with travel agents). The bad-debt rate in the principal countries where the Company has a presence is insignificant.

(c) Liquidity risk

Liquidity risk represents the risk that the Company has no sufficient funds to meet its obligations.

Because of the cyclical nature of the business, the operation, and its investment and financing needs related to the acquisition of new aircraft and renewal of its fleet, plus the financing needs, the Company requires liquid funds, defined as cash and cash equivalents plus other short term financial assets, to meet its payment obligations.

The liquid funds, the future cash generation and the capacity to obtain additional funding, through bond issuance and banking loans, will allow the Company to obtain sufficient alternatives to face its investment and financing future commitments.

At March 31, 2017 is US\$ 1,414 million (US\$ 1,486 million at December 31, 2016), invested in short term instruments through financial high credit rating levels entities.

In addition to the liquid funds, the Company has access to short term credit line. As of March 31, 2017, LATAM has working capital credit lines with multiple banks and additionally has a US\$ 325 million undrawn committed credit line (US\$ 325 million at December 31, 2016).

Class of liability for the analysis of liquidity risk ordered by date of maturity as of March 31, 2017 (Unaudited) Debtor: LATAM Airlines Group S.A. and Subsidiaries, Tax No. 89.862.200-2 Chile.

The Company has fuel, interest rate and exchange rate hedging strategies involving derivatives contracts with different financial institutions. The Company has margin facilities with each financial institution in order to regulate the mutual exposure produced by changes in the market valuation of the derivatives.

At the end of 2016, the Company provided US\$ 30.2 million in derivative margin guarantees, for cash and stand-by letters of credit. At March 31, 2017, the Company had provided US\$ 28.8 million in guarantees for Cash and cash equivalent and stand-by letters of credit. The decrease was due at: i) maturity of hedge contracts, ii) acquire of new fuel purchase contracts, and iii) changes in fuel prices, exchange rate and interest rates.

3.2. Capital risk management

The Company's objectives, with respect to the management of capital, are (i) to comply with the restrictions of minimum equity and (ii) to maintain an optimal capital structure.

The Company monitors its contractual obligations and the regulatory limitations in the different countries where the entities of the group are domiciled to assure they meet the limit of minimum net equity, where the most restrictive limitation is to maintain a positive net equity.

Additionally, the Company periodically monitors the short and long term cash flow projections to assure the Company has adequate sources of funding to generate the cash requirement to face its investment and funding future commitments.

The Company international credit rating is the consequence of the Company capacity to face its long terms financing commitments. As of March 31, 2017 the Company has an international long term credit rating of BB- with stable outlook by Standard & Poor's, a B+ rating with stable outlook by Fitch Ratings and a B1 rating with stable outlook by Moody's.

3.3. Estimates of fair value.

At March 31, 2017, the Company maintained financial instruments that should be recorded at fair value. These are grouped into two categories:

1. Hedge Instruments:

This category includes the following instruments:

- Interest rate derivative contracts,
- Fuel derivative contracts,
- Currency derivative contracts.

2. Financial Investments:

This category includes the following instruments:

- Investments in short-term Mutual Funds (cash equivalent),
- Private investment funds.

The Company has classified the fair value measurement using a hierarchy that reflects the level of information used in the assessment. This hierarchy consists of 3 levels (I) fair value based on quoted prices in active markets for identical assets or liabilities, (II) fair value calculated through valuation methods based on inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) and (III) fair value based on inputs for the asset or liability that are not based on observable market data.

The fair value of financial instruments traded in active markets, such as investments acquired for trading, is based on quoted market prices at the close of the period using the current price of the buyer. The fair value of financial assets not traded in active markets (derivative contracts) is determined using valuation techniques that maximize use of available market information. Valuation techniques generally used by the Company are quoted market prices of similar instruments and / or estimating the present value of future cash flows using forward price curves of the market at period end.

The following table shows the classification of financial instruments at fair value, depending on the level of information used in the assessment:

Additionally, at March 31, 2017, the Company has financial instruments which are not recorded at fair value. In order to meet the disclosure requirements of fair values, the Company has valued these instruments as shown in the table below:

	As of March	n 31, 2017	As of Decemb	per 31, 2016
	Book value	Fair value	Book value	Fair value
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
	Unaud	lited

Other financial assets, current	90,375	90,375	164,426	164,426
Other financial assets	90,375	90,375	164,426	164,426
Trade and other accounts receivable current	1,092,090	1,092,090	1,107,889	1,107,889
Accounts receivable from related entities	668	668	554	554
Other financial assets, non current	102,195	102,195	102,125	102,125
Accounts receivable	8,299	8,299	8,254	8,254
Other financial liabilities, current	1,802,384	1,976,646	1,814,647	2,022,290
Trade and other accounts payables	1,512,804	1,512,804	1,593,068	1,593,068
Accounts payable to related entities	255	255	269	269
Other financial liabilities, non current	6,622,969	6,769,324	6,790,273	6,970,375
Accounts payable, non-current	403,768	403,768	359,391	359,391
-				

The book values of accounts receivable and payable are assumed to approximate their fair values, due to their short-term nature. In the case of cash on hand, bank balances, overnight, time deposits and accounts payable, non-current, fair value approximates their carrying values.

The fair value of other financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate for similar financial instruments (Level II). In the case of Other financial assets, the valuation was performed according to market prices at period end.

NOTE 4 - ACCOUNTING ESTIMATES AND JUDGMENTS

The Company has used estimates to value and record certain assets, liabilities, revenue, expenditure, and commitments. Basically, these estimates relate to:

(a) Evaluation of possible losses through impairment of goodwill and intangible assets with an indefinite useful life.

As of March 31, 2017 goodwill amounted to ThUS\$ 2,787,022 (ThUS\$ 2,710,382 at December 31, 2016), while intangible assets with an indefinite useful life comprised airport slots for ThUS\$ 1,006,870 (ThUS\$ 978,849 at December 31, 2016), Loyalty Program for ThUS\$ 335,602 (ThUS\$ 326,262 at December 31, 2016).

At least once per year the Company verifies whether goodwill and intangible assets with an indefinite useful life have suffered any losses through impairment. For the purposes of this evaluation, the Company has identified two cash-generating units (CGUs): "Air transport" and "Multiplus loyalty and coalition program." The book value of goodwill assigned to each CGU as of March 31, 2017, amounted to ThUS\$ 2,237,994 and ThUS\$ 549,028 (ThUS\$ 2,176,634 and ThUS\$ 533,748 at December 31, 2016), which included intangible assets with undefined useful life:

		ransport IGU		and loyalty ultiplus CGU
	As of	As of	As of	As of
	March 31,	December 31,	March 31,	December 31,
	2017	2016	2017	2016
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
	Unaudited		Unaudited	
Airport Slots	1,006,870	978,849	-	-
Loyalty program	-	-	335,602	326,262

The recoverable value of these cash-generating units (CGUs) has been determined based on calculations of their value in use. The principal assumptions used by the management include: growth rate, exchange rate, discount rate, fuel prices, and other economic assumptions. The estimation of these assumptions requires significant judgment by the management, as these variables feature inherent uncertainty; however, the assumptions used are consistent with Company's internal planning. Therefore, management evaluates and updates the estimates on an annual basis, in light of conditions that affect these variables. The mainly assumptions used as well as, the corresponding sensitivity analyses are showed in Note 16.

(b) Useful life, residual value, and impairment of property, plant, and equipment

The depreciation of assets is calculated based on the linear model, except for certain technical components depreciated on cycles and hours flown. These useful lives are reviewed on an annual basis according with the Company's future economic benefits associated with them.

Changes in circumstances such as: technological advances, business model, planned use of assets or capital strategy may render the useful life different to the lifespan estimated. When it is determined that the useful life of property, plant, and equipment must be reduced, as may occur in line with changes in planned usage of assets, the difference between the net book value and estimated recoverable value is depreciated, in accordance with the revised remaining useful life.

Residual values are estimated in accordance with the market value that these assets will have at the end of their useful life. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, once a year. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2.8).

(c) Recoverability of deferred tax assets

Deferred taxes are calculated in accordance with the liability method, applied over temporary differences that arise between the fiscal based of assets and liabilities, and their book value. Deferred tax assets for tax losses are recognized to the extent that the realization of the related tax benefit through future taxable profits is probable. The Company makes tax and financial projections to evaluate the realization of deferred tax asset over the course of time. Additionally, ensures that these projections are consistent with those used to measure other long-lived assets. As of March 31, 2017, the Company recognized deferred tax assets ThUS\$ 403,262 (ThUS\$ 384,580 at December 31, 2016), and has ceased to recognize Deferred tax assets on tax losses to ThUS\$ 109,757 (ThUS\$ 115,801 at December 31, 2016) (Note 18).

(d) Air tickets sold that are not actually used.

The Company advance sales of tickets as deferred revenue. Revenue from ticket sales is recognized in the income statement when the service is provided or when the tickets expires unused, reducing the corresponding deferred revenue. The Company evaluates monthly the probability that tickets expiry unused, based on the history of used tickets. Changes in the exchange probability would have an impact our revenue in the year in which the change occurs and in future years. As of March 31, 2017, deferred revenue associated with air tickets sold amounted to ThUS\$ 1,374,671 (ThUS\$ 1,535,229 as of December 31, 2016). An hypothetical change of 1% in passenger behavior regarding to the ticket usage, - that is, if during the next six months after sells probability of used were 89% rather than 90%, as we consider, it would lead to a change in the expiry period from six to seven months, which, as of March 31, 2017, would have an impact of up to ThUS\$ 20,000.

(e) Valuation of loyalty points and kilometers granted to loyalty program members, pending usage.

As of March 31, 2017, the Company operated the following loyalty programs: LATAM Pass, LATAM Fidelidade and Multiplus, with the objective of enhancing customer loyalty by offering points or kilometers (see Note 22).

When kilometers and points are redeemed for products and services other than the services provided by the Company, revenue is recognized immediately; when they are redeemed for air tickets on airlines from to LATAM Airlines Group S.A. and subsidiaries, revenue is deferred until the transport service is provided or the corresponding tickets expired.

Deferred revenue from loyalty programs at the closing date corresponds to the valuation of points and kilometers granted to loyalty program members, pending of use, and the probability to be redeemed.

According to IFRIC-13, kilometers and points value that the Company estimate are not likely to be redeemed ("breakage"), they recognize the associated value proportionally during the period in which the remaining kilometers or points are expected to be redeemed. The Company uses statistical models to estimate the breakage, based on historical redemption patterns Changes in the breakage would have a significant impact on our revenue in the year in which the change occurs and in future years.

As of March 31, 2017, deferred revenue associated with the LATAM Pass loyalty program amounted to ThUS\$ 905,331 (ThUS\$ 896,190 at December 31, 2016). As of March 31, 2017 a hypothetical change of 1% in the probability of usage would result in an impact of approximately ThUS\$ 32,000 and ThUS\$ 30,000 at the same period of 2016. Meanwhile, deferred revenue associated with the LATAM Fidelidade and Multiplus loyalty programs amounted to ThUS\$ 444,114 (ThUS\$ 392,107 at December 31, 2016). As of March 31, 2017 a hypothetical change of 2% in the probability of usage would result in an impact of approximately ThUS\$ 4,486 and ThUS\$ 3,646 at the same period of 2016.

The fair value of kilometers is determined by the Company based in its best estimate of the price at which they have been sold in the past. As of March 31, 2017 a hypothetical change of 1% in the fair value of the unused kilometers would result in an impact of approximately ThUS\$ 8,500 and ThUS\$ 9,000 at the same period of 2016.

(f) Provisions needs, and their valuation when required

Known contingencies are recognized when: the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. The Company applies professional judgment, experience, and knowledge to use available information to determine these values, in light of the specific characteristics of known risks. This process facilitates the early assessment and valuation of potential risks in individual cases or in the development of contingent eventualities.

(g) Investment in subsidiary (TAM)

The management has applied its judgment in determining that LATAM Airlines Group S.A. controls TAM S.A. and Subsidiaries, for accounting purposes, and has therefore consolidated the financial statements.

The grounds for this decision are that LATAM issued ordinary shares in exchange for the majority of circulating ordinary and preferential shares in TAM, except for those TAM shareholders who did not accept the exchange, which were subject to a squeeze out, entitling LATAM to substantially all economic benefits generated by the LATAM Group, and thus exposing it to substantially all risks relating to the operations of TAM. This exchange aligns the economic interests of LATAM and all of its shareholders, including the controlling shareholders of TAM, thus insuring that the shareholders and directors of TAM shall have no incentive to exercise their rights in a manner that would be beneficial to TAM but detrimental to LATAM. Furthermore, all significant actions necessary of the operation of the airlines require votes in favor by the controlling shareholders of both LATAM and TAM.

Since the integration of LAN and TAM operations, the most critical airline operations in Brazil have been managed by the CEO of TAM while global activities have been managed by the CEO of LATAM, who is in charge of the operation of the LATAM Group as a whole and reports to the LATAM Board.

The CEO of LATAM also evaluates the performance of LATAM Group executives and, together with the LATAM Board, determines compensation. Although Brazilian law currently imposes restrictions on the percentages of voting rights that may be held by foreign investors, LATAM

believes that the economic basis of these agreements meets the requirements of accounting standards in force, and that the consolidation of the operations of LAN and LATAM is appropriate.

These estimates were made based on the best information available relating to the matters analyzed.

In any case, it is possible that events that may take place in the future could lead to their modification in future reporting periods, which would be made in a prospective manner.

NOTE 5 - SEGMENTAL INFORMATION

The Company has determined that it has two operating segments: the air transportation business and the coalition and loyalty program Multiplus.

The Air transport segment corresponds to the route network for air transport and it is based on the way that the business is run and managed, according to the centralized nature of its operations, the ability to open and close routes and reallocate resources (aircraft, crew, staff, etc..) within the network, which is a functional relationship between all of them, making them inseparable. This segment definition is the most common level used by the global airline industry.

The segment of loyalty coalition called Multiplus, unlike LATAM Pass and LATAM Fidelidade, is a frequent flyer programs which operate as a unilateral system of loyalty that offers a flexible coalition system, interrelated among its members, with 17.1 million of members, along with being a regulated entity with a separately business and not directly related to air transport.

b) Liabilities

Liabilities information is detailed in the table within Note 3 Financial risk management.

	As of	As of
	March 31,	December 31,
	2017	2016
	ThUS\$	ThUS\$
	Unaudited	
Trade accounts receivable	1,059,194	1,022,933
Other accounts receivable	123,368	170,264
Total trade and other accounts receivable	1,182,562	1,193,197
Less: Allowance for impairment loss	(82,173)	(77,054)
Total net trade and accounts receivable	1,100,389	1,116,143
Less: non-current portion – accounts receivable	(8,299)	(8,254)
Trade and other accounts receivable, current	1,092,090	1,107,889

NOTE 8 - TRADE AND OTHER ACCOUNTS RECEIVABLE CURRENT, AND NON-CURRENT ACCOUNTS RECEIVABLE

The fair value of trade and other accounts receivable does not differ significantly from the book value.

The maturity of these accounts at the end of each period is as follows:

	As of	As of
	March 31,	December 31,
	2017	2016
	ThUS\$	ThUS\$
	Unaudited	
Fully performing	906,535	896,040
Matured accounts receivable, but not impaired		
Expired from 1 to 90 days	55,411	38,969
Expired from 91 to 180 days	8,261	9,303
More than 180 days overdue (*)	6,814	1,567
Total matured accounts receivable, but not impaired	70,486	49,839
Matured accounts receivable and impaired		
Judicial, pre-judicial collection and protested documents	36,922	34,909
Debtor under pre-judicial collection process and		
portfolio sensitization	45,251	42,145
Total matured accounts receivable and impaired	82,173	77,054
Total	1,059,194	1,022,933

(*) Value of this segment corresponds primarily to accounts receivable that were evaluated in their ability to recover, therefore not requiring a provision.

Currency	As of March 31, 2017	As of December 31, 2016
	ThUS\$	ThUS\$

Other currencies	27,215	10,938
Total	43,602	30,254

Currency balances that make up the Trade and other accounts receivable and non-current accounts receivable are the following:

The Company records allowances when there is evidence of impairment of trade receivables. The criteria used to determine that there is objective evidence of impairment losses are the maturity of the portfolio, specific acts of damage (default) and specific market signals.

Maturity	Impairment
Judicial and pre-judicial collection assets	100%
Over 1 year	100%
Between 6 and 12 months	50%

	Opening		(Increase)	Closing
	balance	Write-offs	Decrease	balance
Periods	ThUS\$	ThUS\$	ThUS\$	ThUS\$

From April 1 to December 31, 2016	(60,207)	10,002	(26,849)	(77,054)
From January 1 to March 31, 2017 (Unaudited)	(77,054)	676	(5,795)	(82,173)

Movement in the allowance for impairment loss of Trade and other accounts receivables are the following:

Once pre-judicial and judicial collection efforts are exhausted, the assets are written off against the allowance. The Company only uses the allowance method rather than direct write-off, to ensure control.

Historic and current re-negotiations are not relevant and the policy is to analyze case by case in order to classify them according to the existence of risk, determining whether it is appropriate to reclassify accounts to pre-judicial recovery. If such re-classification is justified, an allowance is made for the account, whether overdue or falling due.

The maximum credit-risk exposure at the date of presentation of the information is the fair value of each one of the categories of accounts receivable indicated above.

	As o	As of March 31, 2017			As of December 31, 2016		
	Gross exposure according to balance ThUS\$	Gross impaired exposure ThUS\$	Exposure net of risk concentrations ThUS\$	Gross exposure according to balance ThUS\$	Gross Impaired exposure ThUS\$	Exposure net of risk concentrations ThUS\$

(*) Aircraft maintenance reserves reflect prepayment deposits made by the group to lessors of certain aircraft under operating lease agreements in order to ensure that funds are available to support the scheduled heavy maintenance of the aircraft.

These amounts are calculated based on performance measures, such as flight hours or cycles, are paid periodically (usually monthly) and are contractually required to be repaid to the lessee upon the completion of the required maintenance of the leased aircraft. At the end of the lease term, any unused maintenance reserves are either returned to the Company in cash or used to offset amounts that we may owe the lessor as a maintenance adjustment.

In some cases (five lease agreements), if the maintenance cost incurred by LATAM is less than the corresponding maintenance reserves, the lessor is entitled to retain those excess amounts at the time the heavy maintenance is performed. The Company periodically reviews its maintenance reserves for each of its leased aircraft to ensure that they will be recovered, and recognizes an expense if any such amounts are less than probable of being returned. Since the association with TAM S.A., in June 2012, the cost of aircraft maintenance has been higher than the related maintenance reserves for all aircraft.

As of March 31, 2017, LATAM had ThUS\$ 136,327 in maintenance reserves (ThUS\$ 141,751 at December 31, 2016), corresponding to two aircraft with contracts that establish periodic payments and whose expiration date is in 2017 and 19 aircraft that maintains remaining balances, which will be liquidated in the next maintenance or return.

Aircraft maintenance reserves are classified as current or non-current depending on the dates when the related maintenance is expected to be performed (Note 2.23)

NOTE 13 - NON-CURRENT ASSETS AND DISPOSAL GROUP CLASSIFIED AS HELD FOR SALE

Non-current assets and in disposal groups held for sale at March 31, 2017 and December 31, 2016 are detailed below:

	As of	As of
	March 31,	December 31,
		2016
	ThUS\$	ThUS\$
Current assets	Unaudited	
Aircraft	290,622	281,158
Engines and rotables	30,692	29,083
Other assets	28,741	26,954
Total	350,055	337,195
Current liabilities		
Other liabilities	13,778	10,152
Total	13,778	10,152

The balances are presented at the lower of book value and fair value less cost to sell. The fair value of these assets were determined based on quoted prices in active markets for similar assets or liabilities. This is a level II measurement as per the fair value hierarchy set out in note 3.3 (2). There were no transfers between levels for recurring fair value measurements during the year.

(a) Assets reclassified from Property, plant and equipment to Non-current assets or groups of assets for disposal classified as held for sale

During the period ended 2016, two Airbus A319 aircraft, two Airbus A320 aircraft, six Airbus A330 aircraft, two Boeing 777 aircraft, eight A330 spare engines, A330 rotables and two buildings were reclassified from Property, plant and equipment to Non-current assets or groups of assets for disposal classified as held for sale.

As a result, as of December 31, 2016, an adjustment of US \$ 55 million was recorded to write down these assets to their net

During the period ended 2016, two Airbus A319 aircraft, one Airbus A320 aircraft and two Airbus A330 aircraft were sold. Additionally an A330 spare engine and D200 rotables were sold.

Additionally, in the first quarter of 2017, has been the sale an engine of Airbus A330.

The detail of fleet classified as non-current assets or groups of assets for disposal classified as held for sale is the following:

	As of	As of
	March 31,	December 31,
	2017	2016
Aircraft	Unaudited	
Boeing 777 Freighter	2 (*)	2 (*)
Airbus A330-200	4	4
Airbus A320-200	1	1
ATR42-300		
Total	8	8
	—	_

(*) One aircraft leased to DHL.

(b) Assets reclassified from Inventories to Non-current assets or groups of assets for disposal classified as held for sale

During in the first quarter of 2017, stocks of the fleet Airbus A330, were reclassified from Inventories to Non-current assets or groups of assets for disposal classified as held for sale.

NOTE 14 - INVESTMENTS IN SUBSIDIARIES

(a) Investments in subsidiaries

The Company has investments in companies recognized as investments in subsidiaries. All the companies defined as subsidiaries have been consolidated within the financial statements of LATAM Airlines Group S.A. and Subsidiaries. The consolidation also includes special-purpose entities.

Detail of significant subsidiaries and summarized financial information:

			Own	ership
			As of	As of
	Country of	Functional	March 31,	December 31,

(1) After the extensive integration work following the combination between LAN and TAM, during which there has been solid progress in the homologation of the optimization processes of its air connections, in addition to the restructuring and modernization of the fleet of aircraft,

the Company has resolved adopt a unique name and identity, and announce that the brand of the group will be LATAM ", which would unite all companies under a single image.

Given the above, we have proceeded to review the brands useful life, concluding that these should go from an indefinite to defined useful life. The estimated new useful life is 5 years, equivalent to the period for finishing all the image changes necessary.

(2) See Note 2.5

The amortization of the period is shown in the consolidated statement of income in administrative expenses. The accumulated amortization of computer programs and brands as of March 31, 2017, amounts to ThUS\$ 327,779 (ThUS\$ 270,041 at December 31, 2016).

NOTE 16 – GOODWILL

The Goodwill amount at March 31, 2017 is ThUS\$ 2,787,022 (ThUS\$ 2,710,382 at December 31, 2016). Movement of Goodwill separated by CGU it includes the following:

		Coalition	
Movement of Goodwill, separated by CGU:		and loyalty

Opening balance as of January 1, 2017	2,176,634	533,748	2,710,382
Increase (decrease) due to exchange rate differences	61,360	15,280	76,640
Closing balance as of March 31, 2017 (Unaudited)	2,237,994	549,028	2,787,022

The Company has two cash- generating units (CGUs), "Air transportation" and, "Coalition and loyalty program Multiplus". The CGU "Air transport" considers the transport of passengers and cargo, both in the domestic markets of Chile, Peru, Argentina, Colombia, Ecuador and Brazil, and in a developed series of regional and international routes in America, Europe and Oceania, while the CGU "Coalition and loyalty program Multiplus" works with an integrated network associated companies in Brazil.

The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of expected cash flows, 5 years after tax, which are based on the budget approved by the Board. Cash flows beyond the budget period are extrapolated using the estimated growth rates, which do not exceed the average rates of long-term growth.

Management establish rates for annual growth, discount, inflation and exchange for each cash generating, as well as fuel prices, based on their key assumptions. The annual growth rate is based

on past performance and management's expectations over market developments in each country where it operates. The discount rates used are in American Dollars for the CGU "Air transportation" and Brazilian Reals for CGU "Program coalition loyalty Multiplus", both after taxes and reflect specific risks related to each country where the Company operates. Inflation and exchange rates are based on available data for each country and the information provided by the Central Bank of each country, and the fuel price is determined based on estimated production levels, competitive environment market in which they operate and its business strategy.

As of December 31, 2016 the recoverable values were determined using the following assumptions presented below:

		Air transportation CGU	Coalition and loyalty program Multiplus CGU (2)
Annual growth rate (Terminal)	%	1.0 - 2.0	4.0 - 5.0
Exchange rate (1)	R\$/US\$	3.9 - 4.4	3.9 - 4.4
Discount rate based on the weighted average			
cost of capital (WACC)	%	8.27 - 9.27	-
Discount rate based on cost of equity (Ke)	%	-	12.3 - 13.3
Fuel Price from futures price curves			
commodities markets	US\$/barril	61-76	-

(1) In line with the expectations of the Central Bank of Brazil

(2) The flow, as well as annual growth rte and discount, are denominated in real.

The result of the impairment test, which includes a sensitivity analysis of the main variables, showed that the estimated recoverable amount is higher than carrying value of the book value of net assets allocated to the cash generating unit, and therefore impairment was not detected.

CGU's are sensitive to rates for annual growth, discount and exchanges rates. The sensitivity analysis included the individual impact of changes in estimates critical in determining the recoverable amounts, namely:

	Increase Maximum	Increase Maximum	Minimum terminal
	WACC	Ke	growth rate
	%	%	%
Air transportation CGU	9.27	-	1.0
Coalition and loyalty program Multiplus CGU	-	13.3	4.0

In none of the previous cases impairment in the cash- generating unit was presented.

As of March 31, 2017, no signs of deterioration have been identified for the CGU Multiplus Coalition and Loyalty Program and for the UGE Transporte Aéreo that require a deterioration test.

NOTE 17 - PROPERTY, PLANT AND EQUIPMENT

(2) Three aircraft leased to Salam Air

(3) Two aircraft leased to Qatar Air. One in operating leases and one in properties, plants and equipment.

(c) Method used for the depreciation of Property, plant and equipment:

	Method	Useful lit minimum	fe (years) <u>maximum</u>
Buildings	Straight line without residual value	20	50
Plant and equipment	Straight line with residual value of 20% in the		
	short-haul fleet and 36% in the long-haul fleet. (*)	5	23
Information technology			
equipment	Straight line without residual value	5	10
Fixed installations and accessories	Straight line without residual value	10	10
Motor vehicle	Straight line without residual value	10	10
Leasehold improvements	Straight line without residual value	5	5
Other property, plant			
and equipment	Straight line with residual value of 20% in the short-haul fleet and 36% in the long-haul fleet. (*)	10	23

(*) Except for the Boeing 767 300ER and Boeing 767 300F fleets which consider a lower residual value due to the extension of their useful life to 22 and 23 years respectively. Additionally certain technical components, which are depreciated based on the basis of cycles and flight hours.

The aircraft with remarketing clause (**) under modality of financial leasing, which are depreciated according to the duration of their contracts, between 12 and 18 years. Its residual values are estimated according to market value at the end of such contracts.

(**) Aircraft with remarketing clause are those that are required to sell at the end of the contract.

As of March 31, 2017, the depreciation charged to income in the period, which is included in the consolidated statement of income, amounts to ThUS\$ 190,947 (ThUS\$ 186,164 at March 31, 2016).

Depreciation charges for the year are recognized in Cost of sales and administrative expenses in the consolidated statement of income.

Financial leasing contracts where the Company acts as the lessee of aircrafts establish duration between 12 and 18 year terms and semi-annual, quarterly and monthly payments of obligations.

Additionally, the lessee will have the obligation to contract and maintain active the insurance coverage for the aircrafts, perform maintenance on the aircrafts and update the airworthiness certificates at their own cost.

Fixed assets acquired under financial leases are classified as other property, plant and equipment. As of March 31, 2017 the Company had fifty aircrafts (fifty aircraft as of December 31, 2016).

The book value of assets under financial leases as of March 31, 2017 amounts to ThUS\$ 1,733,904 (ThUS\$ 1,753,366 at December 31, 2016).

The minimum payments under financial leases are as follows:

	As of March 31, 2017			As of December 31, 2016		
	Gross		Present	Gross		Present

NOTE 18 - CURRENT AND DEFERRED TAXES

In the period ended March 31, 2017, the income tax provision was calculated for such period, applying the rate of 25.5% for the business year 2017, in accordance with the Law No. 20,780 published in the Official Journal of the Republic of Chile on September 29, 2014.

Among the main changes is the progressive increase of the First Category Tax which will reach 27% in 2018 if the "Partially Integrated Taxation System" is chosen. Alternatively, if the Company chooses the "Attributed Income Taxation System" the top rate would reach 25% in 2017.

As LATAM Airlines Group S.A. is a public company, by default it must choose the "Partially Integrated Taxation System"(*), unless a future Extraordinary Meeting of Shareholders of the Company agrees, by a minimum of 2/3 of the votes, to choose the "Attributed Income Taxation System"(*). This decision was taken in the last quarter of 2016.

On February 8, 2016, an amendment to the abovementioned Law was issued (as Law 20,899) stating, as its main amendments, that Companies such Latam Airlines Group S.A. had to mandatorily choose the "Partially Integrated Taxation System"(*) and could not elect to use the other system.

Assets and deferred tax liabilities are offset if there is a legal right to offset the assets and liabilities always correspond to the same entity and tax authority.

(*) The Partially Integrated Taxation System is based on the taxation by the perception of profits and the Attributed Income Taxation System is based on the taxation by the accrual of profits.

Tax expense using the effective rate	53,488	82,327	41.69	44.62		

(*) On September 29, 2014, Law No. 20,780 "Amendment to the system of income taxation and introduces various adjustments in the tax system." was published in the Official Journal of the Republic of Chile. Within major tax reforms that this law contains, the First- Category Tax rate is gradually modified from 2014 to 2018 and should be declared and paid in tax year 2015.

Thus, at March 31, 2017 the Company presents the reconciliation of income tax expense and legal tax rate considering the rate increase.

Total non-current	6,622,969	6,790,273
Total obligations with financial institutions	8,425,353	8,604,920

(1) On September 29, 2016 TAM Linhas Aéreas S.A. obtained financing for US \$ 200 million, guaranteed with 18% of the shares of Multiplus S.A., percentage adjustable depending on the shares price. Additionally, TAM obtained a Cross Currency Swap for the same amount and period, in order to convert the commitment currency from US\$ to BRL.

On March 30, 2017, TAM Linhas Aéreas S.A. restructured the financing mentioned in the previous paragraph, modifying the nominal amount of the transaction to US \$ 137 million.

All interest-bearing liabilities are recorded using the effective interest rate method. Under IFRS, the effective interest rate for loans with a fixed interest rate does not vary throughout the loan, while in the case of loans with variable interest rates, the effective rate changes on each date of reprising of the loan.

Currency balances that make the interest bearing loans:

Currency	As of March 31, <u>2017</u> ThUS\$ Unaudited	As of December 31, $\frac{2016}{\text{ThUS}}$
Brazilian real	1,222	1,253

The foreign currency derivatives correspond to options, forwards and swaps.

Hedging operation

The fair values of net assets/ (liabilities), by type of derivative, of the contracts held as hedging instruments are presented below:

	As of	As of
	March 31,	December 31,
	2017	2016
	ThUS\$	ThUS\$
	Unaudited	
Cross currency swaps (CCS) (1)	(5,751)	(12,286)
Interest rate swaps (2)	(12,970)	(16,926)
Fuel options (3)	(634)	10,088
Currency forward - options US\$/GBP\$ (4)	-	618
Currency forward - options US\$/EUR\$ (4)	-	109
Currency options R\$/US\$ (4)	(1,977)	(1,752)

(1) Covers the significant variations in cash flows associated with market risk implicit in the changes in the 3-month LIBOR interest rate and the exchange rate US\$/UF of bank loans. These contracts are recorded as cash flow hedges and fair value.

- (2) Covers the significant variations in cash flows associated with market risk implicit in the increases in the 3 months LIBOR interest rates for long-term loans incurred in the acquisition of aircraft and bank loans. These contracts are recorded as cash flow hedges.
- (3) Covers significant variations in cash flows associated with market risk implicit in the changes in the price of future fuel purchases. These contracts are recorded as cash flow hedges.
- (4) Covers the foreign exchange risk exposure of operating cash flows caused mainly by fluctuations in the exchange rate R\$/US\$, US\$/EUR and US\$/GBP. These contracts are recorded as cash flow hedges.

During the periods presented, the Company only maintains cash flow hedges and fair value (in the case of CCS). In the case of fuel hedges, the cash flows subject to such hedges will impact results in the next six months from the consolidated statement of financial position date, meanwhile in the case of interest rate hedging, the hedges will impact results over the life of the related loans, which are valid initially for 12 years. In the case of currency hedges through a CCS, are generated two types of hedge accounting, a cash flow component by US\$/UF, and other fair value by US\$ floating rate component.

During the periods presented, no hedging operations of future highly probable transaction that have not been realized have occurred.

Since none of the coverage resulted in the recognition of a non-financial asset, no portion of the result of the derivatives recognized in equity was transferred to the initial value of such assets.

The amounts recognized in comprehensive income during the period and transferred from net equity to income are as follows:

	For the period ended March 31,	
	2017	2016
	ThUS\$	ThUS\$
	Unaudi	ited
Debit (credit) recognized in comprehensive		
income during the period	(4,879)	27,974
Debit (credit) transferred from net equity to		
income during the period	(18,653)	(37,421)

(1) Provisions for contingencies:

The tax contingencies correspond to litigation and tax criteria related to the tax treatment applicable to direct and indirect taxes, which are found in both administrative and judicial stage.

The civil contingencies correspond to different demands of civil order filed against the company.

The labor contingencies correspond to different demands of labor order filed against the company.

The Provisions are recognized in the consolidated income statement in administrative expenses or tax expenses, as appropriate.

- (2) Provision made for proceedings brought by the European Commission for possible breaches of free competition in the freight market.
- (3) Total other provision at March 31, 2017, and at December 31, 2016, include the fair value correspond to those contingencies from the business combination with TAM S.A and subsidiaries, with a probability of loss under 50%, which are not provided for the normal application of IFRS enforcement and that only must be recognized in the context of a business combination in accordance with IFRS 3.

(1) The accumulated balance includes US\$ 110 million as judicial deposit granted as guarantee, related to the "Fundo Aeroviário" (FA). This deposit was made with the purpose of suspending the application of the tax credit. The company is discussing over the Tribunal the constitutionality about the requirement made by FA in a legal action. Initially it was covered by the effects of a precautionary measure, meaning that, the company was not the obligation to collect the tax as long as there no judicial decision in this regard. However, the decision taken by a judge in the first instance was publicized in an unfavorable published, reversing

the precautionary measure. As the legal claim is still in progress (TAM appealed this first decision), the company needed to make the judicial deposit for the suspension of the enforceability of the tax credit; it deposit was classified in this category deducting the existing provision for that purpose. Finally, if the final decision is favorable to the company, the deposit already made will return to TAM. On the other hand, if the tribunal confirms the first decision, such deposit will be converted in a definitive payment in favor of the Brazilian Government. The procedural stage at March 31, 2017 is disclosed in Note 31 in the case role N° 2001.51.01.012530-0.

(2) European Commission Provision:

This provision was established because of the investigation brought by the Directorate General for Competition of the European Commission against more than 25 cargo airlines, including Lan Cargo S.A., as part of a global investigation that began in December 2007 regarding possible unfair competition on the air cargo market. This was a joint investigation done by the European and U.S.A. authorities.

Regard to Europe, the General Direction of Competition it imposed fines totaling € 799,445,000 (seven hundred and ninety nine million four hundred and forty-five thousand Euros) for infringement of European Union regulations on free competition against eleven (11) airlines, among which you can find LATAM Airlines Group S.A. and Lan Cargo S.A. Jointly, LATAM Airlines Group S.A. and Lan Cargo S.A., have been fined in the amount of € 8,220,000 (eight million two hundred twenty thousand Euros) for said infractions, which was provisioned in the financial statements of LATAM Airlines Group S.A. On January 24, 2011, LATAM Airlines Group S.A. and Lan Cargo S.A. appealed the decision before the Court of Justice of the European Union. On December 16, 2015, the European Court upheld the appeal and annulled the Commission's decision. The European Commission did not appeal the judgment, but on 17 March 2017 the European Commission again adopted its original decision to impose on the eleven original areas lines, the same fine previously imposed, amounting to a total of 776,465,000 Euros. In the case of LAN Cargo and its parent company, LATAM Airlines Group S.A. imposed the same fine of 8.2 million Euros. The procedural stage as of March 31, 2017 is described in Note 31 in item (ii) judgments received by LATAM Airlines Group S.A. and Subsidiaries.

NOTE 22 - OTHER NON-FINANCIAL LIABILITIES

(*) Note 2.20.

The balance comprises, mainly, deferred income by services not yet rendered and programs such as: LATAM Pass, LATAM Fidelidade y Multiplus:

LATAM Pass is the frequent flyer program created by LAN to reward the preference and loyalty of its customers with many benefits and privileges, by the accumulation of kilometers that can be exchanged for free flying tickets or a wide range of products and services. Customers accumulate LATAM Pass kilometers every time they fly with LAN, TAM, in companies that are members of **one**world® and other airlines associated with the program, as well as when they buy on the stores or use the services of a vast network of companies that have an agreement with the program around the world.

Thinking on people who travel constantly, TAM created the program LATAM Fidelidade, in order to improve the passenger attention and give recognition to those who choose the company. By using this program, customers accumulate points in a variety of programs loyalty in a single account and can redeem them at all TAM destinations and related airline companies, and even more, participate in the Red Multiplus Fidelidade.

Multiplus is a coalition of loyalty programs, aiming to operate activities of accumulation and redemption of points. This program has an integrated network by associates including hotels, financial institutions, retail companies, supermarkets, vehicle rentals and magazines, among many other partners from different segments.

NOTE 23 - EMPLOYEE BENEFITS

	As of	As of
	March 31,	December 31,
	2017	2016
	ThUS\$	ThUS\$
	Unaudited	
Retirements payments	50,447	49,680
Resignation payments	8,938	10,097
Other obligations	24,641	22,545
Total liability for employee benefits	84,026	82,322

(a) The movement in retirements and resignation payments and other obligations:

	Opening balance ThUS\$	Increase (decrease) current service provision ThUS\$	Benefits paid ThUS\$	Actuarial (gains) losses ThUS\$	Closing balance ThUS\$
From January 1 to					
March 31, 2016 (Unaudited)	65,271	5,604	(972)	1,562	71,465
From April 1 to					
December 31, 2016	71,465	14,296	(3,564)	125	82,322
From January 1 to					
March 31, 2017 (Unaudited)	82,322	6,078	(1,638)	(2,736)	84,026

The principal assumptions used in the calculation to the provision in Chile are presented below:

	of		
	March 31,		
Assumptions	2017	2016	
	Unaudited		
Discount rate	4.22%	4.62%	
Expected rate of salary increase	4.50%	4.50%	
Rate of turnover	6.98%	6.16%	
Mortality rate	RV-2014	RV-2009	
Inflation rate	2.58%	2.93%	
Retirement age of women	60	60	
Retirement age of men	65	65	

The discount rate is determined by reference to free risk 20 years Central Bank of Chile BCP bond. Mortality table RV - 2009, established by Chilean Superintendency of Securities and Insurance and inflation rate performance curve of Central Bank of Chile instruments long term BCU and BCP.

The obligation is determined based on the actuarial value of the accrued cost of the benefit and it is sensibility to main actuarial assumptions used for the calculation. The Following is a sensitivity analysis based on increased (decreased) on the discount rate, increased wages, rotation and inflation.

	Effect on	the liability					
	As of	As of					
	March 31, 2017	December 31					
		2017	2017 20	2017 201	2017 20	2017 20	2017

NOTE 24 - ACCOUNTS PAYABLE, NON-CURRENT

NOTE 25 - EQUITY

(a) Capital

The Company's objective is to maintain an appropriate level of capitalization that enables it to ensure access to the financial markets for carrying out its medium and long-term objectives, optimizing the return for its shareholders and maintaining a solid financial position.

The paid capital of the Company at March 31, 2017 amounts to ThUS\$ 3,149,564 (*) divided into 606,407,693 common stock of a same series (ThUS\$ 3,149,564, divided into 606,407,693 shares as of December 31, 2016), a single series nominative, ordinary character with no par value. There are no special series of shares and no privileges. The form of its stock certificates and their issuance, exchange, disablement, loss, replacement and other similar circumstances, as well as the transfer of the shares, is governed by the provisions of Corporations Law and its regulations.

(*) Include a deduction for issuance costs ThUS\$ 4,793 and adjustment by 10,282 placement shares for ThUS\$ 156.

(b) Subscribed and paid shares

On August 18, 2016, the Company held an extraordinary meeting of shareholders in which it was approved to increase the capital by issuing 61,316,424 shares of payment, all ordinary shares, without par value. As of March 31, 2017, 60,849,592 shares had been placed against this increase, according to the following breakdown: (a) 30,499,685 shares subscribed and paid at the end of the preferred subscription period, which expired on, December 2016, raising the equivalent of US\$ 304,996,850; and (b) 30,349,907 additional shares subscribed on December 28, 2016, earning the equivalent of US \$ 303,499,070.

As a result of the last placement, as of March 31, 2017, the number Company shares subscribed and paid amounts to 606,407,693.

At March 31, 2017, the Company's capital stock is represented by 608,374,525 shares, all common shares, without no par value, which is divided into: (a) the 606,407,693 subscribed and paid shares

mentioned above; And (b) 1,966,832 shares pending subscription and payment, of which: (i) 1,500,000 shares are allocated to compensation stock option plans; And (ii) 466,832 correspond to the balance of shares pending placement of the last capital increase.

During 2016, the Company's capital stock was expressed in 613,164,243 shares, all ordinary shares, without nominal value, that is, 551,847,819 shares already authorized at the beginning of the year and 61,316,424 shares authorized in the last Capital increase dated August 18, 2016. However, on December 21, 2016, the deadline for the subscription and payment of 4,789,718 shares that were destined to compensation plans for workers expired, so that the Company's capital stock was reduced to 608,374,525 shares.

The following table shows the movement of the authorized and fully paid shares described above:

Movement of authorized shares	Nro. Of shares
Autorized shares as of January 1, 2016	551,847,819
Increase capital approved at Extraordinary Shareholders	
meeting dated August 18, 2016	61,316,424
Full capital decrease due to maturity of the subscription and payment period	
of the compensation plan 2011, December 21, 2016 (*)	(4,789,718)
Authorized shares as of December 31, 2016	608,374,525
Autorized shares as of January 1, 2017 There is no movement of authorized shares during the period 2017	608,374,525
Autorized shares as of March 1, 2017	608,374,525

(*) See Note 34 (a.1)

Movement fully paid shares

increase (decrease) through transfers	and other changes N° of shares	Movement value of shares (1) ThUS\$	Cost of issuance and placement of shares (2) ThUS\$	Paid- in Capital ThUS\$

Paid shares as of March 31, 2017 (Unaudited)	606,407,693 (3)	3,160,718	(11,154)	3,149,564

(1) Amounts reported represent only those arising from the payment of the shares subscribed.

(2) Decrease of capital by capitalization of reserves for cost of issuance and placement of shares established according to Extraordinary Shareholder's Meetings, where such decreases were authorized.

(3) At March 31, 2017, the difference |between authorized shares and fully paid shares are 1,966,832 shares, of which 1,500,000 correspond to compensation plans for executives of LATAM Airlines Group S.A. and subsidiaries (see Note 34(a.1)) and 466,832 correspond to the shares issued and unsubscribed from the capital increase approved at the Extraordinary Shareholders' Meeting held on August 18, 2016.

(4) These 10,282 shares were placed in January 2014 and charged to the Compensation plan 2011 (See Note 34 (a.1))

(c) Treasury stock

At March 31, 2017, the Company held no treasury stock, the remaining of ThUS\$ (178) corresponds to the difference between the amount paid for the shares and their book value, at the time of the full right decrease of the shares which held in its portfolio.

(d) Reserve of share- based payments

Movement of Reserves of share- based payments:

		Stock			
	Opening	option	Deferred	Net movement	Closing
Periods	balance	plan	tax	of the period	balance
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
From January 1 to March 31, 2016 (Unaudited)	35,647	1,233	(404)	829	36,476
From April 1 to December 31, 2016	36,476	2,465	(403)	2,062	38,538
From January 1 to March 31, 2017 (Unaudited)	38,538	545	-	545	39,083

These reserves are related to the "Share-based payments" explained in Note 34.

(e) Other sundry reserves

Movement of Other sundry reserves:

Periods	Opening balance	Legal reserves	Closing balance
	ThUS\$	ThUS\$	ThUS\$
From January 1 to March 31, 2016 (Unaudited)	2,634,679	340	2,635,019

(f.1) Currency translation reserve

These originate from exchange differences arising from the translation of any investment in foreign entities (or Chilean investment with a functional currency different to that of the parent), and from loans and other instruments in foreign currency designated as hedges for such investments. When the investment (all or part) is sold or disposed and loss of control occurs, these reserves are shown in the consolidated statement of income as part of the loss or gain on the sale or disposal. If the sale does not involve loss of control, these reserves are transferred to non-controlling interests.

(f.2) Cash flow hedging reserve

These originate from the fair value valuation at the end of each period of the outstanding derivative contracts that have been defined as cash flow hedges. When these contracts expire, these reserves should be adjusted and the corresponding results recognized.

(f.3) Reserves of actuarial gains or losses on defined benefit plans

Correspond to the increase or decrease in the obligation present value for defined benefit plan due to changes in actuarial assumptions, and experience adjustments, which is the effects of differences between the previous actuarial assumptions and what has actually occurred.

(g) Retained earnings

Movement of Retained earnings:

NOTE 27 - COSTS AND EXPENSES BY NATURE

(a) Costs and operating expenses

The main operating costs and administrative expenses are detailed below:

	For the periods ended		
	March 31,		
	2017 201		
	ThUS\$ T		
	Unaudited		
Aircraft fuel	595,031	461,433	
Other rentals and landing fees	278,219	261,051	
Aircraft rentals	150,396	133,603	
Aircraft maintenance	85,186	94,796	
Comissions	61,692	66,629	
Passenger services	74,316	77,452	
Other operating expenses	302,985	285,406	
Total	1,547,825	1,380,370	

(b) Depreciation and amortization

Depreciation and amortization are detailed below:

	For the period ended March 31,	
	2017	2016
	ThUS\$	
	Unaudited	
Depreciation (*)	238,387	229,891
Amortization	13,828	9,560
Total	252,215	239,451

(*) Include the depreciation of Property, plant and equipment and the maintenance cost of aircraft held under operating leases. The amount of maintenance cost included within the depreciation line item at March 31, 2017 is ThUS\$ 92,650 and ThUS\$ 88,815 for the same period of 2016.

(c) Personnel expenses

The costs for personnel expenses are disclosed in Note 23 liability for employee benefits.

(d) Financial costs

The detail of financial costs is as follows:

	For the period ended			
	March 31,			
	2017	2016		
	ThUS\$	ThUS\$		
	Unaudited			
Bank loan interest	82,925	84,204		
Financial leases	10,836	9,493		
Other financial instruments	2,027	9,352		
Total	95,788	103,049		

Costs and expenses by nature presented in this note plus the Employee expenses disclosed in Note 23, are equivalent to the sum of cost of sales, distribution costs, administrative expenses, other expenses and financing costs presented in the consolidated statement of income by function.

NOTE 28 - OTHER INCOME, BY FUNCTION

Other income by function is as follows:

	For the period ended	
	March 31,	
	2017 2016	
	ThUS\$ Thu	
	Unaudited	
Coalition and loyalty program Multiplus	56,400	34,051
Tours	26,532	23,962
Aircraft leasing	16,625	15,408
Customs and warehousing	5,434	5,216
Maintenance	1,633	2,121
Duty free	2,348	2,393
Other miscellaneous income	8,570	10,209
Total	117,542	93,360

NOTE 29 - FOREIGN CURRENCY AND EXCHANGE RATE DIFFERENCES

The functional currency of LATAM Airlines Group S.A. is the US dollar, also it has subsidiaries whose functional currency is different to the US dollar, such as the chilean peso, argentine peso, colombian peso, brazilian real and guaraní.

The functional currency is defined as the currency of the primary economic environment in which an entity operates and in each entity and all other currencies are defined as foreign currency.

Considering the above, the balances by currency mentioned in this note correspond to the sum of foreign currency of each of the entities that make LATAM Airlines Group S.A. and Subsidiaries.

(a) Foreign currency

NOTE 31 – CONTINGENCIES

I. Lawsuits

1) Lawsuits filed by LATAM Airlines Group S.A. and Subsidiaries

<u>Company</u>	<u>Court</u>	Case Number	Origin	Stage of trial	Amounts Committed (*) ThUS\$
Atlantic Aviation Investments LLC (AAI).	Supreme Court of the State of New York County of New York.	07-6022920	Atlantic Aviation Investments LLC. ("AAI"), an indirect subsidiary LATAM Airlines Group S.A., incorporated under the laws of the State of Delaware, sued in August 29 th , 2007 Varig Logistics S.A. ("Variglog") for non-payment of four documented loans in credit agreements governed by New York law. These contracts establish the acceleration of the loans in the event of sale of the original debtor, VRG Linhas Aéreas S.A.	The decision ordering Variglog to pay principal, interest and costs to AAI is in the enforcement stage in Switzerland. A settlement for CHF 24,541,781.45 was reached in Brazil for the Swiss funds, and it was agreed that it would be divided as follows: (i) 54.6% of Variglog's assets for the Swiss funds; and (ii) 45.4% to AAI, subject to approval of the Brazilian Bankruptcy Commission. Variglog also filed a petition in Switzerland for recognition of the decision declaring its condition of being in	10,976 Plus interests and costs

judicial recovery, and subsequently, of being declared in bankruptcy. The Brazilian courts approved the AAI settlement and Variglog's bankruptcy on April 11, 2016, which were confirmed by those courts on September 21, 2016. The final decision approving the agreement was certified September 23, 2016. US\$8.9 million have been recovered thus far to date, leaving a balance of US\$2.08 million

pending.

2) Lawsuits received by LATAM Airlines Group S.A. and Subsidiaries

<u>Company</u>	<u>Court</u>	Case Number	Origin	Stage of trial	<u>Amounts</u> <u>Committed (*)</u> ThUS\$
LATAM Airlines Group S.A. y Lan Cargo S.A.	European Commission.		Investigation of alleged infringements to free competition of cargo airlines, especially fuel surcharge. On December 26 th , 2007, the General Directorate for Competition of the European Commission notified Lan Cargo S.A. and LATAM Airlines Group S.A. the instruction process against twenty five cargo airlines, including Lan Cargo S.A., for alleged breaches of competition in the air cargo market in Europe, especially the alleged fixed fuel surcharge and freight.	On April 14 th , 2008, the notification of the European Commission was replied. The appeal was filed on January 24, 2011. On May 11, 2015, we attended a hearing at which we petitioned for the vacation of the Decision based on discrepancies in the Decision between the operating section, which mentions four infringements (depending on the routes involved) but refers to Lan in only one of those four routes; and the ruling section (which mentions one single conjoint infraction). On November 9 th , 2010, the General Directorate for Competition of the European Commission notified Lan Cargo S.A. and LATAM Airlines Group S.A. the imposition of a fine in the amount of THUS\$ 7,689. (8.220.000 Euros) This fine is being appealed by Lan Cargo S.A. and LATAM Airlines Group S.A. On December 16, 2015, the European Court of Justice revoked the Commission's decision because of discrepancies. The European Commission did not appeal the decision, but presented a new one on March 17, 2017 reiterating the imposition of the same fine on the eleven original airlines. The fine totals 776,465,000 Euros. It imposed the same fine as before on Lan Cargo and its parent, LATAM Airlines Group S.A., totaling 8.2 million Euros.	7,689

<u>Company</u>	<u>Court</u>	Case Number	Origin	Stage of trial	Amounts Committed (*) ThUS\$
Lan Cargo S.A. y LATAM Airlines Group S.A.	In the High Court of Justice Chancery División (England) Ovre Romerike District Court (Norway) y Directie Juridische Zaken Afdeling Ceveil Recht (Netherlands), Cologne Regional Court (Landgerich Köln Germany).	-	Lawsuits filed against European airlines by users of freight services in private lawsuits as a result of the investigation into alleged breaches of competition of cargo airlines, especially fuel surcharge. Lan Cargo S.A. and LATAM Airlines Group S.A., have been sued in court proceedings directly and/or in third party, based in England, Norway, the Netherlands and Germany.	Cases are in the uncovering evidence stage.	-0-
Aerolinhas Brasileiras S.A.	Federal Justice.	0008285- 53.2015.403.6105	An action seeking to quash a decision and petioning for early protection in order to obgain a revocation of the penalty imposed by the Brazilian Competition Authority (CADE) in the investigation of cargo airlines alleged fair trade violations, in particular the fuel surcharge.	This action was filed by presenting a guaranty – policy – in order to suspend the effects of the CADE's decision regarding the payment of the following fines: (i) ABSA: ThUS\$10,479; (ii) Norberto Jochmann: ThUS\$201; (iii) Hernan Merino: ThUS\$ 102; (iv) Felipe Meyer :ThUS\$ 102. The action also deals with the affirmative obligation required by the CADE consisting of the duty to publish the condemnation in a widely circulating newspaper. This obligation had also been stayed by the court of federal justice in this process. Awaiting CADE's statement. ABSA began a judicial review in search of an additional reduction in the fine amount. At this time we cannot predict the final amount of the fine as the judicial review by the Federal Court Judge is still pending.	15,822

<u>Company</u>	<u>Court</u>	Case Number	Origin	Stage of trial	<u>Amounts</u> <u>Committed (*)</u> ThUS\$
Aerolinhas Brasileiras S.A.	Federal Justice.	0001872- 58.2014.4.03.6105	An annulment action with a motion for preliminary injunction was filed on 28/02/2014, in order to cancel tax debts of PIS, CONFINS, IPI and II, connected with the administrative process 10831.005704/2006.43.	We have been waiting since August 21, 2015 for a statement by Serasa on TAM's letter of indemnity and a statement by the Union. The statement was authenticated on January 29, 2016. A petition on evidence and replications were filed on June 20, 2016. A new insurance policy was submitted on March 3, 2016 with the change to the guarantee requested by PGFN, which was declared on June 3, 2016. A decision is pending.	15,737

United States Court of 2013-20319 CA 01 The July 30th, 2012 LAN COLOMBIA AIRLINES initiated a legal process in Colombia against Regional One INC and Volvo Aero Services LLC, to declare that these companies are civilly liable for moral and material damages caused to LAN COLOMBIA AIRLINES arising from breach of contractual obligations of the

Aerovías de

Integración

Regional, AIRES S.A. Appeals for the

Florida, U.S.A.

Eleventh Circuit,

aircraft HK-4107. The June 20th , 2013 AIRES SA And / Or LAN AIRLINES COLOMBIA was notified of the lawsuit filed in U.S. for Regional One INC and Dash 224 LLC for damages caused by the aircraft HK-4107 arguing failure of LAN COLOMBIA AIRLINES customs duty to obtain import declaration when the aircraft in April 2010 entered Colombia for maintenance required by Regional One.

This case is being heard by the 45th Civil Court of the Bogota Circuit. In an interim decree issued August 16, 2016, the hearing under article 101 was set for February 2, 2017, when reconciliation will be attempted, facts of the case will be set, the parties will conduct depositions and evidence will be decreed.

12,443

The Federal Court of the State of Florida decided on March 26, 2016 to approve Lan Colombia Airlines's request to suspend the proceedings in the USA until the claim under way in Colombia is decided. The U.S. Court judge also closed the case administratively. The Federal Court of Appeal ratified the case closing in the U.S.A. on April 1, 2015. On October 13, 2015, Regional One petitioned that the U.S. court reopen the case. Lan Colombia Airlines presented its arguments and the Court sustained them on August 23, 2016, ratifying the closing of the case in the United States, so it continues to be closed.

LATAM Airlines Group S.A.	22° Civil Cour Santiago	t of	C-29.945-2016	The Company received notice of a civil liability claim by Inversiones Ranco Tres S.A. on January 18, 2017. It is represented by Mr. Jorge Enrique Said Yarur. It was filed against LATAM Airlines Group S.A. for an alleged contractual default by the Company and against Ramon Eblen Kadiz, Jorge Awad Mehech, Juan Jose Cueto Plaza, Enrique Cueto Plaza and Ignacio Cueto Plaza, directors and officers, for alleged breaches of their duties. In the case of Juan Jose Cueto Plaza, Enrique Cueto Plaza and Ignacio Cueto Plaza, it alleges a breach, as controllers of the Company, of their duties under the incorporation agreement. LATAM has retained legal counsel specializing in this area to defend it.	The claim was answered on March 22, 2017 and the plaintiff filed its replication on April 4, 2017. LATAM filed its rejoinder on April 13, 2017, which concluded the argument stage of the lawsuit. A reconciliation hearing was held on May 2, 2017, but the parties did not reach an agreement. Now pending is the issuance by the Court of the facts to be proven during the evidentiary stage.	19,965

- In order to deal with any financial obligations arising from legal proceedings in effect at March 31, 2017, whether civil, tax, or labor, LATAM Airlines Group S.A. and Subsidiaries, has made provisions, which are included in other non-current provisions that are disclosed in Note 21.
- The Company has not disclosed the individual probability of success for each contingency in order to not negatively affect its outcome.
- (*) The Company has reported the amounts involved only for the lawsuits for which a reliable estimation can be made of the financial impacts and of the possibility of any recovery, pursuant to Paragraph 86 of IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

II. Governmental Investigations.

1) On July 25, 2016, LATAM reached agreements with the U.S. Department of Justice ("DOJ") and the U.S. Securities and Exchange Commission ("SEC") regarding the investigation of payments for US\$1,150,000 by Lan Airlines S.A. in 2006-2007 to a consultant advising it in the resolution of labor matters in Argentina.

The purpose of the investigation was to determine whether these payments violated the U.S. Foreign Corrupt Practices Act ("FCPA") that: (i) forbids bribery of foreign government authorities in order to obtain a commercial advantage; and (ii) requires the companies that must abide by the FCPA to keep appropriate accounting records and implant an adequate internal control system. The FCPA is applicable to LATAM because of its ADR program in effect on the U.S. securities market.

After an exhaustive investigation, the DOJ and SEC concluded that there was no violation of the bribery provisions of the FCPA, which is consistent with the results of LATAM's internal investigation. However, the DOJ and SEC consider that LAN accounted for these payments incorrectly and, consequently, infringed the part of the FCPA requiring companies to keep accurate accounting records. These authorities also consider that LAN's internal controls in 2006-2007 were weak, so LAN would have also violated the provisions in the FCPA requiring it to maintain an adequate internal control system.

The agreements signed, included the following:

- (a) The agreement with the DOJ involves: (i) entering into a Deferred Prosecution Agreement ("DPA"), which is a public contract under which the DOJ files public charges alleging an infringement of the FCPA accounting regulations. LATAM is not obligated to answer these charges, the DOJ will not pursue them for a period of 3 years, and the DOJ will dismiss the charges after expiration of that 3-year period provided LATAM complies with all terms of the DPA. In exchange, LATAM must admit to the negotiated events described in the DPA and agree to pay the negotiated fine explained below and abide by other terms stipulated in the agreement; (ii) clauses in which LATAM admits that the payments to the consultant in Argentina were incorrectly accounted for and that at the time those payments were made (2006-2007), it did not have adequate internal controls in place; (iii) LATAM's agreement to have an outside consultant monitor, evaluate and report to the DOJ on the effectiveness of LATAM's compliance program for a period of 27 months; and LATAM's agreement to continue evaluating and reporting directly to the DOJ on the effectiveness of its compliance program for a period of 9 months after the consultant's work concludes; and (iv) paying a fine estimated to total approximately ThUS\$ 12,750.
- (b) The agreement with the SEC involves: (i) accepting a Cease and Desist Order, which is an administrative resolution of the SEC closing the investigation, in which LATAM will accept certain obligations and statements of fact that are described in the document; (ii) accepting the same obligations regarding the consultant mentioned above; and (iii) paying the sum of ThUS\$ 6,744, plus interest of ThUS\$ 2,694.

At March 31, 2017, a balance of ThUS\$ 4,719 was payable to the SEC, as reported in Note 20 - Trade payables and other payables.

LATAM continues to cooperate with the Chilean authorities on this matter. The investigation continues.

2) LATAM Airlines Ecuador was given notice on August 26, 2016 of an investigation of LATAM Airlines Ecuador and two other airlines begun, at its own initiative, by one of the Investigative Departments of the Ecuadoran Market Power Control Commission, limited to alleged signs of conscious parallelism in relation to specific fares on one domestic route in Ecuador from August 2012 to February 2013. The Investigative Prefecture has 180 days (through February 21, 2017) to issue a report on whether to quash the investigation or file charges against two or more of the parties

involved. That period can be extended for another 180 days. A proceeding would begin only if the decision is made to file charges. The Commission extended the term of the investigation for another 180 days (through August 18, 2017).

LATAM Airlines Ecuador is cooperating with the authority and has retained a law firm and economist expert in the subject to advise the company during this process.

3) LATAM received three Requests for Information from the Central-North Metropolitan Region Legal Division, one on October 25, 2016, another on November 11, 2016 and the last on March 8, 2017. It requested information related to the investigation of payments made by LAN Airlines in 2006 and 2007 to a consultant who advised it on the resolution of labor matters in Argentina. It also requested an explanation of information provided to the market. The three requests have already been answered and the requested information has been provided.

NOTE 32 – COMMITMENTS

(a) Loan covenants

With respect to various loans signed by the Company for the financing of Boeing 767, 767F, 777F and 787 aircraft, which carry the guarantee of the United States Export–Import Bank, limits have been set on some of the Company's financial indicators on a consolidated basis. Moreover, and related to these same contracts, restrictions are also in place on the Company's management in terms of its ownership and disposal of assets.

The Company and its subsidiaries do not maintain financial credit contracts with banks in Chile that indicate some limits on financial indicators of the Company or its subsidiaries.

On March 30, 2016, LATAM structured a Revolving Credit Facility granted by with aircraft, engines, spare parts and supplies for a total amount available of US\$ 325 million, this line includes restrictions minimum liquidity level as the consolidated company and individual level as for companies LATAM Airlines Group S.A. and TAM Linhas Aereas S.A.

At March 31, 2017, the Company is in compliance with all indicators detailed above.

NOTE 34 - SHARE-BASED PAYMENTS

(a) Compensation plan for increase of capital

Compensation plans implemented by providing options for the subscription and payment of shares that have been granted by LATAM Airlines Group S.A. to employees of the Company and its subsidiaries, are recognized in the financial statements in accordance with the provisions of IFRS 2 "Share-based Payment", showing the effect of the fair value of the options granted under compensation in linear between the date of grant of such options and the date on which these irrevocable.

(a.1) Compensation plan 2011

On December 21, 2016, the subscription and payment period of the 4,800,000 shares corresponding to the compensation plan approved at the Extraordinary Shareholders' Meeting held on December 21, 2011, expired.

Of the total shares allocated to the 2011 Compensation Plan, only 10,282 shares were subscribed and paid, having been placed on the market in January 2014. In view of the above, at the expiration date, the 2011 Compensation Plan had a balance of 4,789,718 shares pending of subscription and payment, which was deducted from the authorized capital of the Company.

	Number of share options
Share options in agreements of share- based payments,	
as of January 1, 2016	4,518,000
Without movements as of March 31, 2016	-
Share options in agreements of share- based payments, as of March 31, 2016 (Unaudited)	4,518,000
Share options in agreements of share- based payments,	
as of April 1, 2016	4,518,000
Executives resign options	(4,172,000)
Share options expired	(346,000)
Share options in agreements of share- based payments, as of December 31, 2016	
Share options in agreements of share- based payments,	
as of January 1, 2017	-
Without movements as of March 31, 2017	-
Share options in agreements of share- based payments, as of March 31, 2017 (Unaudited)	

These options was valued and recorded at fair value at the grant date, determined by the "Black-Scholes-Merton". No result has been recognized as of March 2017 (ThUS\$ 2,989 at December 31, 2016).

(a.2) Compensation plan 2013

At the Extraordinary Shareholders' Meeting held on June 11, 2013, the Company's shareholders approved motions including increasing corporate equity, of which 1,500,000 shares were allocated to compensation plans for employees of the Company and its subsidiaries, in conformity with the stipulations established in Article 24 of the Corporations Law. With regard to this compensation, a defined date for implementation does not exist.

(b) Compensation plan 2016-2018

The company implemented a retention plan long-term for executives, which lasts until December 2018, with a vesting period between October 2018 and March 2019, which consists of an extraordinary bonus whose calculation formula is based on the variation the value to experience the action of LATAM Airlines Group S.A. for a period of time.

This benefit is recognized in accordance with the provisions of IFRS 2 "Share-based Payments" and has been considered as cash settled award and therefore recorded at fair value as a liability, which is updated to the closing date of each financial statement with effect on profit or loss.

	Unit bases
	granted
Units bases,	
balance at March 31, 2017	4,719,720

The fair value has been determined on the basis of the best estimate of the future value of the Company share multiplied by the number of units granted bases.

At March 31, 2017, the carrying amount of ThUS\$ 3,608, is classified under "Administrative expenses" in the Consolidated Statement of Income by Function.

- (c) Subsidiaries compensation plans
- (c.1) Stock Options

Multiplus S.A., subsidiaries of TAM S.A., have outstanding stock options at March 31, 2017, which amounted to 326,173 shares (at December 31, 2016, the distribution of outstanding stock options amounted to 394,698 for Multiplus S.A.).

Multiplus S.A.

			4nd Extraordinary	
	3rd Grant	4th Grant	Grant	
Description	03-21-2012	04-03-2013	11-20-2013	Total
Outstanding option number as December 31, 2016	84,249	173,399	137,050	394,698
Outstanding option number as March 31, 2017 (Unaudited	84,249	173,399	68,525	326,173

For Multiplus S.A., the plan's terms provide that the options granted to the usual prizes are divided into three equal parts and employees may exercise one-third of their two, three and four, options respectively, as long as they keep being employees of the company. The agreed term of the options is seven years after the grant of the option. The first extraordinary granting was divided into two equal parts, and only half of the options may be exercised after three years and half after four years. The second extraordinary granting was also divided into two equal parts, which may be exercised after one and two years respectively.

The acquisition of the share's rights, in both companies is as follows:

		Number of shares Accrued options		of shares ed options
	As of March 31,	As of December 31,	As of March 31,	As of December 31,
Company	2017	2016	2017	2016
Multiplus S.A.			326,525	518,507

In accordance with IFRS 2 - Share-based payments, the fair value of the option must be recalculated and recorded as a liability of the Company once payment is made in cash (cash-settled). The fair value of these options was calculated using the "Black-Scholes-Merton" method, where the cases were updated with information LATAM Airlines Group S.A. There is no value recorded in liabilities and in income at March 31, 2017 (at December 31, 2016 not exist value recorded in liabilities and in incomes).

(c.2) Payments based on restricted stock

In May of 2014 the Management Council of Multiplus S.A. approved a plan to grant restricted stock, a total of 91,103 ordinary, registered book entry securities with no face value, issued by the Company to beneficiaries.

The quantity of restricted stock units was calculated based on employees' expected remunerations divided by the average price of shares in Multiplus S.A. traded on the BM&F Bovespa exchange in the month prior to issue, April of 2014. This benefits plan will only grant beneficiaries the right to the restricted stock when the following conditions have been met:

a. Compliance with the performance goal defined by this Council as return on Capital Invested.

b. The Beneficiary must remain as an administrator or employee of the Company for the period running from the date of issue to the following dates described, in order to obtain rights over the following fractions: (i) 1/3 (one third) after the 2nd year from the issue date; (ii) 1/3 (one third) after the 3rd year from the issue date; (iii) 1/3 (one third) after the 4th year from the issue date.

d) Reconciliation of liabilities arising from financing activities:

NOTE 36 - THE ENVIRONMENT

LATAM Airlines Group S.A. manages environmental issues at the corporate level, centralized in Environmental Management. There is a commitment to the highest level to monitor the company and minimize their impact on the environment, where continuous improvement and contribute to the solution of global climate change problems, generating added value to the company and the region, are the pillars of his administration.

One function of Environmental Management, in conjunction with the various areas of the Company, is to ensure environmental compliance, implementing a management system and environmental programs that meet the increasingly demanding requirements globally; well as continuous improvement programs in their internal processes that generate environmental and economic benefits and to join the currently completed.

The Environment Strategy LATAM Airlines Group S.A. is called Climate Change Strategy and it is based on the aim of being a world leader in Climate Change and Eco-efficiency, which is implemented under the following pillars:

- i. Carbon Footprint
- ii. Eco-Efficiency
- iii. Sustainable Alternative Energy
- iv. Standards and Certifications

For 2017, were established the following topics:

- 1. Advance in the implementation of an Environmental Management System;
- 2. Manage the Carbon Footprint of our emissions by ground operations;
- 3. Corporate Risk Management;
- 4. Corporate strategy to meet the global target of aviation to have a carbon neutral growth by 2020.

Thus, during 2017, we have worked in the following initiatives:

- Advance in the implementation of an Environmental Management System for main operations of the Company, with an emphasis on Santiago. It is highlighted that the company during 2016 has recertified a certified management system, under ISO 14.001 at its facility in Miami.
- Certification of stage 2 of IATA Environmental Assestment (IEnvA), the most advanced of this certification, been the third airline in the world to achieve this certification.
- Preparation of the environmental chapter for reporting sustainability of the Company, to measure progress on environmental issues.
- Answer to the Dow Jones Sustainability Index 2016 questionnaire, which the company responds annually.
- Measurement and external verification of the Corporate Carbon Footprint.

It is highlighted that in the 2016 LATAM Airlines Group maintained its selection in the index Dow Jones Sustainability in the global category, being the only two airlines that belong to this select group.

NOTE 37 - EVENTS SUBSEQUENT TO THE DATE OF THE FINANCIAL STATEMENTS

(1) On April 10, 2017, the Company has issued a private placement of debt securities ammounting US \$ 140,000,000 under the structure of Enhanced Equipment Trust Certificates ("EETC") issued and placed on 2015 to finance the acquisition of 11 Airbus A321-200, two Airbus A350-900 and four Boeing 787-9 with arrivals between July 2015 and April 2016. The offer is composed of class C Certificates, which are subordinated to the current class A Certificates and class B Certificates held by the Company.

(2) On April 11, 2017, LATAM Finance Limited, a company incorporated in the Cayman Islands and exclusively owned by LATAM Airlines Group SA, has issued and placed on the international market, pursuant to Rule 144 -A and Regulation S of the securities laws of the United States of America, an unsecured long-term bond in the amount of US \$ 700,000,000 due 2024, unless it will be redeemed in advance in accordance with Its agreed terms, at an annual interest rate of 6.875%. Funds from this placement will be used for general purposes of the Company.

(3) On April 25, 2017, was paid last cuote of the TAM 2017 Bond, which correspond to the principal amortization (bullet) for US \$ 300 million and semiannual interest for ThUS \$ 11,063, at an interest rate of 7.375% per annum.

(4) At the Ordinary Shareholders' Meeting held on April 27, 2017, the shareholders approved the distribution of the final dividend proposed by the Board in the last meeting held on April 4. Which proposed consists in distributing as dividend 30% of the Profit for the year 2016, equivalent to an amount of US \$ 20,766,119.39, which will be paid on May 18, 2017.

Subsequent at March 31, 2017 until the date of issuance of these financial statements, there is no knowledge of financial facts or otherwise, that could significantly affect the balances or interpretation thereof.

LATAM Airlines Group S.A. and Subsidiaries' consolidated financial statements as at March 31, 2017, have been approved by the Board of Director's in an extraordinary meeting held on May 15, 2017.
