REPORT OF INDEPENDENT AUDITORS (Free translation from the original in Spanish)

Santiago, March 9, 2023

To the Board of Directors and Shareholders Latam Airlines Group S.A.

We have audited the accompanying consolidated financial statements of Latam Airlines Group S.A. and subsidiaries, which comprise the consolidated statements of financial position as at December 31, 2022 and 2021 and the consolidated statements of income by function, comprehensive income, changes in equity and cash flows – direct method for the years then ended, and the corresponding notes to the consolidated financial statements.

#### Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the International Financial Reporting Standards. This responsibility includes the design, implementation and maintenance of a relevant internal control for the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Chilean Generally Accepted Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. As a consequence we do not express that kind of opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Latam Airlines Group S.A. and subsidiaries as at December 31, 2022 and 2021, and the results of its operations and cash flows for the years then ended in accordance with the International Financial Reporting Standards.

# Emphasis of matter – Substantial Doubt About the Company's Ability to Continue as a Going Concern Has Been Removed

In our audit of the consolidated financial statements as of December 31, 2021 and for the year then ended, management and we previously concluded there was substantial doubt about the Company's ability to continue as a going concern. As discussed in Note 2, management has subsequently taken certain actions, which management and we have concluded remove that substantial doubt. Our opinion is not modified as a result of this matter.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following describes the principal accounting policies adopted in the preparation of these consolidated financial statements.

2.1. Basis of Preparation

These consolidated financial statements of LATAM Airlines Group S.A. as of December 31, 2022 and 2021, for the three years ended December 31, 2022 and have been prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board ("IASB") and with the interpretations issued by the interpretations committee of the International Financial Reporting Standards (IFRIC).

The consolidated financial statements have been prepared under the historic-cost criterion, although modified by the valuation at fair value of certain financial instruments.

The preparation of the consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to use its judgment in applying the Company's accounting policies. Note 4 shows the areas that imply a greater degree of judgment or complexity or the areas where the assumptions and estimates are significant to the consolidated financial statements.

The consolidated financial statements have been prepared in accordance with the accounting policies used by the Company for the 2021 consolidated financial statements, except for the standards and interpretations adopted as of January 1, 2022.

The Company's management estimates that the adoption of the standards, amendments and interpretations described above will not have a significant impact on the Company's consolidated financial statements in the exercise of their first application.

#### (c) Chapter 11 Filing and Going Concern

i) Going Concern

These consolidated financial statements have been prepared on a going concern basis, which contemplates continuity of operations, realization of assets and satisfaction of liabilities in the ordinary course of business.

The Company previously disclosed that as of December 31, 2021, as a result of the Chapter 11 proceedings, the fulfillment of the Company's obligations and the financing of ongoing operations were subject to material uncertainty due to the COVID-19 pandemic and the impossibility of knowing as of that date, their duration and, consequently, those events or conditions indicated that a material uncertainty existed that created significant doubt or raised substantial doubt about the Company's ability to continue as a going concern.

On November 3, 2022, LATAM Parent and certain of its affiliates emerged from the Chapter 11 Proceedings. The emergence from the Chapter 11 proceedings and consummation of the Plan addressed liquidity concerns as it provided for new funds originated by the new financing and the capital restructuring. As a result, the Company expects that sufficient cash flows will be generated to finance the debts and the working capital requirements working capital for the next twelve months. Therefore, there is no longer a material uncertainty that may cast significant doubt or cast substantial doubt to continue as a going concern during the twelve months after the date of issuance of the financial statements.

ii) Chapter 11 Filing

Due to the effects on the operation of the restrictions established in the countries to control the effects of the COVID-19 pandemic, on May 25, 2020 the Board resolved unanimously that LATAM Parent and some subsidiaries of the group should initiate a reorganization process in the United States of America according to the rules established in the Bankruptcy Code title 11 by filing a voluntary petition for relief in accordance with the same, which was carried out on May 26, 2020. Subsequently, Piquero Leasing Limited (July 7, 2020) and TAM S.A. joined this process and its subsidiaries in Brazil (July 9, 2020) (the voluntary petitions, collectively, the "Bankruptcy Filing" and each LATAM entity that filed a petition, a "Debtor" and jointly, the "Debtors").

The Bankruptcy Filing for each of the Debtors (each one, respectively, a "Petition Date") was jointly administered under the caption "In re LATAM Airlines Group S.A. et al." Case Number 20-Prior to November 3, 2022, the Debtors operated their businesses as "debtors-in-11254. possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. The Bankruptcy Filing permitted the Company to reorganize and improve liquidity, wind down unprofitable contracts and amend its capacity purchase agreements to enable sustainable profitability. As of November 3, 2022 (the "Effective Date"), the Plan (as defined below) was substantially consummated and the Debtors have each emerged from the Chapter 11 proceedings as the "Reorganized Debtors". However, according to the rules of the Bankruptcy Code, the Chapter 11 proceedings of the Reorganized Debtors continued to be ongoing after the Effective Date to resolve certain remaining matters. Later, on December 14, 2022, the Bankruptcy Court entered an order consolidating the administration of all remaining matters in the lead Chapter 11 case of LATAM Parent and closing the cases of its debtor-related person. Therefore, as of the date hereof the Chapter 11 proceeding has been closed with respect to LATAM Parent's subsidiaries that were part thereof, and continue ongoing solely with respect to LATAM Parent to resolve certain remaining matters. The Bankruptcy Court continues to administer the Chapter 11 proceedings for LATAM Parent in order to resolve the few remaining matters therein, including resolving remaining claims.

As part of their overall reorganization process, the Debtors also sought and received relief in certain non-U.S. jurisdictions. On May 27, 2020, the Grand Court of the Cayman Islands granted the applications of certain of the Debtors for the appointment of provisional liquidators ("JPLs")

pursuant to section 104(3) of the Companies Law (2020 Revision). On June 4, 2020, the 2nd Civil Court of Santiago, Chile issued an order recognizing the Chapter 11 proceedings with respect to LATAM Airlines Group S.A., Lan Cargo S.A., Fast Air Almacenes de Carga S.A., Latam Travel Chile II S.A., Lan Cargo Inversiones S.A., Transporte Aéreo S.A., Inversiones Lan S.A., Lan Pax Group S.A. and Technical Training LATAM S.A. All remedies filed against the order have been rejected and the decision has become final. Finally, on June 12, 2020, the Superintendence of Companies of Colombia granted recognition to the Chapter 11 proceedings. On July 10, 2020, the Grand Court of the Cayman Islands granted the Debtors' application for the appointment of JPLs to Piquero Leasing Limited. Bearing in mind that on November 3, 2022, the Effective Date of the Reorganization Plan approved and confirmed in the main proceedings occurred, on November 10, 2022, the representative of the foreign proceeding filed with the court his last monthly report under the Protocol on Cross-Border Communications

#### Operation and Implication of the Bankruptcy Filing

As of the Effective Date, the Plan was substantially consummated. Pursuant to the Plan, the Reorganized Debtors are permitted to operate their businesses and manage their properties without supervision of the Bankruptcy Court and free of the restrictions of the Bankruptcy Code.

#### Plan of Reorganization

On November 26, 2021, the Debtors filed a joint plan of reorganization (as amended or revised, the "Plan" or "Plan of Reorganization") and the related disclosure statement (as amended or revised, the "Disclosure Statement") with the Bankruptcy Court. As detailed in the Disclosure Statement, the Plan was supported by a restructuring support agreement executed among the Debtors, creditors holding more than 70% of the general unsecured claims asserted against LATAM Airlines Group S.A., and holders of more than 50% of LATAM Airlines Group S.A.'s existing equity (the "Restructuring Support Agreement" or "RSA"). From time to time in the Chapter 11 Cases, the Debtors filed revised versions of the Plan and associated Disclosure Statement. On February 10, 2022 the Debtors executed a joinder Agreement to the RSA (each joinder agreement a "W&C Creditor Group Joinder Agreement"), effective as of February 10, 2022 under which certain creditors agreed to commitments made by the Commitment Parties under the RSA.

On March 21, 2022, the Bankruptcy Court entered an order approving the adequacy of the Disclosure Statement and procedures for the solicitation with respect to the Plan (the "Disclosure Statement Order"). Pursuant to the Disclosure Statement Order, the Debtors distributed the solicitation version of the Plan, the Disclosure Statement (as approved), voting ballots and certain other solicitation materials to creditors.

In accordance with the Restructuring Support Agreement, on January 12, 2022 the Debtors filed a motion seeking approval to enter into a backstop commitment agreement with certain shareholders, and a backstop commitment agreement with certain creditors (the "Backstop Agreements"). On March 15, 2022, the Bankruptcy Court issued a memorandum decision approving the Debtors' entry into the Backstop Agreements and issued a corresponding order (the "Backstop Order") on March 22, 2022.

The Debtors received objections to the Plan from certain parties, including the United States Trustee, the Official Committee of Unsecured Creditors (the "Committee"), Banco del Estado de Chile in its capacity as indenture trustee under certain Chilean local bonds issued by LATAM Parent ("BancoEstado"), an ad hoc group of unsecured claimants and a group of holders of claims against LATAM affiliate TAM Linhas Aéreas S.A. Following the Plan objection deadline, the Debtors participated in a mediation with BancoEstado, the Committee and the parties to the RSA in an effort to resolve their objections to the Plan and related disputes, which proved successful. On May 11, 2022, the Debtors filed a revised version of the Plan reflecting the terms of a settlement with the parties.

At a hearing held on May 17, 18 and 20, 2022, the Bankruptcy Court considered the remaining objections that had not been resolved pursuant to the settlement. On June 18, 2022, the Bankruptcy Court issued a memorandum decision approving the Plan and overruling all remaining objections (the "Memorandum Decision") and entered an order confirming the Plan (the "Confirmation Order").

Certain parties in interest appealed the Bankruptcy Court's decisions. On June 21, 2022, the Ad Hoc Group of Unsecured Claimants filed a notice of appeal of the memorandum decision and order approving entry into the Backstop Agreements, as well as the Memorandum Decision approving the Plan and the Confirmation Order.

On June 27, 2022, the Ad Hoc Group of Unsecured Claimants filed a motion seeking to stay the Confirmation Order pending appeal. On July 16, 2022, the motion to stay was denied by the Bankruptcy Court. On June 23, 2022, the TLA Claimholders Group also filed a motion seeking to stay the Confirmation Order pending appeal or, in the alternative, an affirmative injunction requiring the Debtors to fund an escrow account in the amount of the outstanding post-petition interest. On July 8, 2022, the Bankruptcy Court issued a bench memorandum and order denying the TLA Claimholders Group's motion to stay. On June 28, 2022, Columbus Hill Capital Management ("Columbus Hill") filed a notice of appeal of the Memorandum Decision and the Confirmation Order, which it later withdrew on July 5, 2022. On July 13, 2022, the Bankruptcy Court on July 21, 2022, bringing full and final resolution to the Columbus Hill appeal and any other potential objections from this claimant.

On August 31, 2022, after briefing and oral argument by the parties, the District Court issued an opinion denying the appeals of both the Ad Hoc Group of Unsecured Claimants and the TLA Claimholders Group. The District Court rejected the Ad Hoc Group of Unsecured Claimants' arguments that the Plan and Backstop Agreement violated the Bankruptcy Code and held that the Backstop Agreement did not constitute impermissible vote buying. The Ad Hoc Group of Unsecured Claimants did not further appeal the District Court's decision.

With respect to the TLA Claimholders Group's appeal, the District Court denied its request for payment of post-petition interest on its claims and found that the Bankruptcy Court was not mistaken with respect to its factual finding that TLA was insolvent. The District Court also denied the TLA Claimholders Group's motion to stay the Confirmation Order.

On September 2, 2022 the TLA Claimholders Group filed a notice of appeal in the District Court (the "Second Circuit Appeal") further appealing the Confirmation Order to the United States Court of Appeals for the Second Circuit (the "Second Circuit"). Both parties filed briefs regarding the merits of the Second Circuit Appeal, oral argument occurred on October 12, 2022, and on December 14, 2022, the Second Circuit unanimously affirmed the District Court's decision rejecting the Second Circuit Appeal. No further appeals have been filed to date.

As of the Effective Date, the Plan was substantially consummated. Pursuant to the Plan, the Company received an infusion of approximately US\$ 8.19 billion through a mix of new equity, convertible notes and debt, which enabled the Company to exit Chapter 11 with appropriate capitalization to effectuate its business plan. Upon emergence, the Company had total debt of approximately US\$ 6.8 billion, cash and cash equivalents of approximately US\$1.1 billion and revolving undrawn facilities in the amount of US\$1.1 billion. Specifically, the Plan provided that:

- The Company conducted a US\$ 800 million common equity rights offering, open to all shareholders in accordance with their preemptive rights under applicable Chilean law, and fully backstopped by the parties participating in the RSA;
- Three distinct classes of convertible notes were issued by the Company, all of which were preemptively offered to shareholders. The preemptive rights offering period closed on October 12, 2022. For those securities not subscribed by the Company's shareholders during the respective preemptive rights period:
  - New Convertible Notes Class A, hereinafter Class G Convertible notes (by the denomination with which they were registered in the Registro de Valores of the CMF), were delivered to certain general unsecured creditors of the Company in settlement of their allowed claims under the Plan.

As soon as 50% of the holders of Class I Convertible Notes have opted to convert, then the remaining Class I Convertible Notes will be automatically converted. The allocated amounts of the unused Class I Convertible Notes were distributed to the supporting parties of the Class I Convertible Notes in accordance with the respective Support Agreement.

- The election period for the Convertible Notes Class G and Convertible Notes Class I by creditors ended on October 6, 2022.
- General unsecured creditors that elected to receive Convertible Notes Class G or Convertible Notes Class I were entitled to receive a one-time cash distribution in an aggregate amount of approximately US\$ 175 million, distributed among the general unsecured creditors that opted to receive Convertible Notes Class G and I. (see Note 36).
- The Convertible Notes Classes H and I were issued, totally or partially, in consideration of a new money contribution for the aggregate amount of approximately US\$ 4.64 billion fully backstopped by the parties to the RSA.
- In lieu of receiving Convertible Notes Class G or Convertible Notes Class I (and the aforementioned one-time cash distribution), general unsecured creditors were provided with the alternative of opting to receive New Local Notes issued by LATAM. As set forth in the Plan and based on the elections made by general unsecured creditors, such notes

were issued in the amount of UF 3,818,042 (equal to approximately US\$ 130 million as of the date of their issuance).

Pursuant to the Plan and Backstop Agreements, LATAM raised up to US\$ 500 million through a new revolving credit facility and approximately US\$ 2.25 billion in total new money debt financing through exit financing (new term loan and new notes).

On September 2, 2022, the Convertible Notes Classes G, H and I together with the shares contemplated in the Plan were registered with the Chilean Registro de Valores of the Financial Market Commission (the "CMF"). The CMF approved the New Local Notes on September 5, 2022. The Debtors established September 12, 2022 as the record date with respect to creditors entitled to participate in the Convertible Notes Class G and Convertible Notes Class I, and commenced the offering of the Convertible Notes to claimholders on the same day.

As of December 31, 2022, 94,14% of the Convertible Notes Class G, 99.997% of the Convertible Notes Class H and 99.999% of the Convertible Notes Class I had been converted to equity, respectively.

On November 17, 2022 the Reorganized Debtors filed a motion to consolidate the administration of certain remaining matters, including the reconciliation of claims that have not yet been allowed or disallowed, in the lead Chapter 11 case of LATAM Parent and for entry of a final decree closing the Chapter 11 cases of LATAM Parent's debtor-affiliates. The Bankruptcy Court entered an Order on December 14, 2022 granting the motion to consolidate the administration of remaining matters in the lead Chapter 11 case of LATAM Parent. As a result, the dockets for all 37 debtor-affiliates of LATAM Parent were marked "closed" on December 23, 2022.

Chapter 11 Milestones during the period covered by these consolidated financial statements

#### Assumption, Amendment & Rejection of Executory Contracts & Leases

Prior to the Effective Date, pursuant to the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure (the "Bankruptcy Rules"), the Debtors were authorized to assume, assign or reject certain executory contracts and unexpired leases. Absent certain exceptions, the Debtors' rejection of an executory contract or an unexpired lease is generally treated as prepetition breach, which entitles the contract counterparty to file a general unsecured claim against the Debtors and simultaneously relieves the Debtors from their future obligations under the contract or lease. Further, the Debtors' assumption of an executory contract or unexpired lease would generally require the Debtors to cure outstanding defaults under such contract or lease.

#### Other Key Filings

On June 16, 2021, the Committee filed two motions seeking standing to prosecute certain claims on behalf of the Debtors against Delta Airlines, Inc. (the "Delta Motion") and Qatar Airways O.C.S.C. (the "Qatar Motion", and together with the Delta Motion, (the "Standing Motions")), which were opposed by certain parties. In connection with the negotiation of the RSA, the Plan provided for the full settlement and release for Qatar and Delta of all potential claims described in the Standing Motions upon the effective date of the Plan. As the Plan became effective on November 3, 2022, such claims have been released.

#### Statements and Schedules

On September 8, 2020, each of the Debtors filed Schedules of Assets and Liabilities ("Schedules") and Statements of Financial Affairs ("Statements") that described the Debtors' financial circumstances as of their respective Petition Date. On August 13, 2021 and December 3, 2021, certain Debtors filed amended Schedules that supplemented and amended the initial Schedules.

From the Petition Date through the Plan Effective Date (as defined in the Plan), the Company was also required to file "Monthly Operating Reports" (MORs) to disclose the receipt, administration and disposition of property by the Debtors during the pendency of the Chapter 11 Cases. After the Effective Date, the Company will be required to file a more streamlined "Post-confirmation Report" (PCR) each calendar quarter until the Chapter 11 Cases of LATAM Parent are closed.

While the Reorganized Debtors believe that these materials provide the information required by the Bankruptcy Code and Bankruptcy Court, they are nonetheless unaudited documents that are prepared in a format different from the consolidated financial reports historically prepared by LATAM in accordance with IFRS (International Financial Reporting Standards). For example, certain of the debtor-specific information contained in the Statements and Schedules may normally be prepared on an unconsolidated basis in the ordinary course. Accordingly, the Reorganized Debtors believe that the substance and format of these materials may not allow meaningful comparison with their regularly publicly-disclosed consolidated financial statements. Moreover, the materials filed with the Bankruptcy Court are not prepared for the purpose of providing a basis for an investment decision relating to the Reorganized Debtors' securities, or claims against the Reorganized Debtors, or for comparison with other financial information required to be reported under applicable securities law.

Bearing in mind that November 3, 2022 was the Effective Date of the reorganization plan approved and confirmed in the main proceeding, on November 10, 2022, the representative of the foreign proceeding submitted to the court his last monthly report in accordance with the Protocol of Cross Border Communications.

#### Intercompany and Affiliate Transactions

On January 10, 2022, the Committee filed an objection with respect to an intercompany claim asserted by LATAM Finance Ltd. against Peuco Finance Ltd. The Bankruptcy Court held a hearing on the objection on March 10, 2022. Post-hearing briefs were submitted by the parties on March 17, 2022, and closing arguments were held on March 18, 2022. On April 29, 2022, the Court entered a decision and order overruling the objection (the "Intercompany Claim Decision"). On May 13, 2022, the Committee appealed the Intercompany Claim Decision to the District Court. On May 26, 2022 the District Court granted a joint motion of the Debtors and the Committee to stay such appeal until the effective date of the Plan. Following the Effective Date, the Committee sought to dismiss the appeal, and the District Court entered an order dismissing the appeal on November 7, 2022.

#### Debtor-in-Possession Financing and Exit Financing

As previously reported, on June 10, 2022 the Debtors entered into debt commitment letters (the "Exit Financing Commitment Letters") providing commitments from various lenders for (i) an approximately US\$1.170 billion of junior debtor-in-possession term loan facility (the "Junior DIP Facility"); (ii) a US\$500 million debtor-in-possession and exit revolving credit facility (the "Revolving Facility"), (iii) a US\$750 million debtor-in-possession and exit term loan B credit facility (the "Term Loan B Facility"; together with the Revolving Facility, the "Credit Facilities"), (iv) a US\$750 million debtor-in-possession and exit bridge loan facility (the "Bridge to 5Y Notes Facility") and (v) US\$750 million debtor-in-possession and exit bridge loan facility (the "Bridge to 7Y Notes Facility" and together with the Bridge to 5Y Notes Facility, and the Credit Facilities, the "Debt Facilities"). According to the terms of the Exit Financing Commitment Letters, the committed amounts under the Term Loan B Facility and the Bridge Facilities could be reallocated amount such facilities. The Debt Facilities were structured to remain in place after the emergence of the Reorganized Debtors from the Chapter 11, subject to the satisfaction of certain conditions at emergence (the "Conversion Date").

In the context of the Company's exit from Chapter 11, on October 12, the Consolidated and Amended DIP Financing Agreement was paid in full. The repayment has been made entirely with funds from (i) a Junior DIP Financing of approximately US\$1,146 million; (ii) a US\$500 million Revolving Credit Line; (iii) a Term B Loan of US\$750 million; (iv) a 5-year Bond Bridge Loan of US\$750 million.

On October 18, 2022, the Bridge Loans were partially repaid by: i) a bond issue exempt from registration under U.S. Securities Act of 1933, as amended (the "Securities Act"), pursuant to Rule 144A and Regulation S, both under the Securities Act, due 2027 (the "5-Year Bonds"), by a total principal amount of US\$450 million and ii) a bond issue exempt from registration under the Securities Law pursuant to Rule 144A and Regulation S, both under the Securities Law, due 2029 (the "Bonds to 7 Years"), for a total principal amount of US\$700 million.

Additionally, on November 3, the repayment of the Bridge Loans and the junior DIP was completed with the proceeds from the Exit Financing, which was made up of: US\$450 million in senior guaranteed bonds maturing in 2027, US\$700 million in senior secured notes due 2029 and an incremental "Term Loan B" loan for US\$350 million

#### Establishment of Bar Dates and Claims Reconciliation

On September 24, 2020, the Bankruptcy Court entered an order (the "Bar Date Order") establishing December 18, 2020, as the general deadline (the "General Bar Date") by which persons or entities (other than governmental units) who believe they hold any claims (other than certain damages claims arising out of the rejection of executory contracts or unexpired leases) against any Debtor that arose prior to the Petition Date, as applicable to each Debtor, must have submitted written documentation of such claims (a "Proof of Claim"). On December 17, 2020, the Court entered an order (the "Supplemental Bar Date Order") establishing a supplemental bar date of February 5, 2021 (the "Supplemental Bar Date"), for certain non-U.S. claimants not otherwise subject to the General Bar Date. Any person or entity that failed to timely file its Proof of Claim by the applicable Bar Date will be forever barred from asserting their claim and will not receive any distributions made as part of the ultimate plan of reorganization. On the Effective Date, the Reorganized Debtors established December 3, 2022 as the deadline (the "Administrative Expense

Bar Date") by which persons or entities (other than those exempted under the Plan) must submit a Proof of Claim establishing their claim against the Reorganized Debtors for costs and expenses of administration of the Chapter 11 proceedings.

Following the close of the General Bar Date, the Supplemental Bar Date, and the Administrative Expense Bar Date, the Reorganized Debtors have continued the process of reconciling approximately 6,575 submitted claims. As of December 31, 2022, the Reorganized Debtors have objected to or have resolved through claims withdrawals, stipulations and court orders approximately 5,030 claims with a total value of approximately US\$ 163.5 billion. As the Reorganized Debtors continue to reconcile claims against the Company's books and records, they will object to and contest such claims that they determine are not valid or are not asserted in the proper amount or classification and will resolve other claims disputes in and outside of the Bankruptcy Court.

A Claim is recorded as a liability when it has a present obligation, whether legal or constructive, as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the obligation amount can be made. Under the Plan, a further 1,352 litigation claims will ride through. As of December 31, 2022, approximately 64 of the Claims filed against the Debtors are still being reconciled with an estimated total value of approximately US\$ 354.7 million.

- 2.2. Basis of Consolidation
- (a) Subsidiaries

Subsidiaries are all the entities (including special-purpose entities) over which the Company has the power to control the financial and operating policies, which are generally accompanied by a holding of more than half of the voting rights. In evaluating whether the Company controls another entity, the existence and effect of potential voting rights that are currently exercisable or convertible at the date of the consolidated financial statements are considered. The subsidiaries are consolidated from the date on which control is passed to the Company and they are excluded from the consolidation on the date they cease to be so controlled. The results and cash are incorporated from the date of acquisition.

Balances, transactions and unrealized gains on transactions between the Company's entities are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment loss of the asset transferred. When necessary, in order to ensure uniformity with the policies adopted by the Company, the accounting policies of the subsidiaries are modified.

To account for and identify the financial information to be disclosed when carrying out a business combination, such as the acquisition of an entity by the Company, the acquisition method provided for in IFRS 3: Business combinations is used.

(b) Transactions with non-controlling interests

The Group applies the policy of considering transactions with non-controlling interests, when not related to the loss of control, as equity transactions without an effect on income.

#### (c) Sales of subsidiaries

When a subsidiary is sold and a percentage of participation is not retained, the Company derecognizes the assets and liabilities of the subsidiary, the non-controlling interest and other components of equity related to the subsidiary. Any gain or loss resulting from the loss of control is recognized in the consolidated income statement by function within Other gains (losses).

If LATAM Airlines Group S.A. and Subsidiaries retain an ownership of participation in the disposed subsidiary which does not represent control, this is recognized at fair value on the date that control is lost and the amounts previously recognized in Other comprehensive income are accounted as if the Company had disposed directly the assets and related liabilities, which can cause these amounts to be reclassified to profit or loss. The percentage retained valued at fair value is subsequently accounted using the equity method.

## (d) Investees or associates

Investees or associates are all entities over which LATAM Airlines Group S.A. and Subsidiaries have significant influence but have no control. This usually arises from holding between 20% and 50% of the voting rights. Investments in associates are booked using the equity method and are initially recognized at their cost.

- 2.3. Foreign currency transactions
- (a) Presentation and functional currencies

The items included in the financial statements of each of the entities of LATAM Airlines Group S.A. and Subsidiaries are valued using the currency of the main economic environment in which the entity operates (the functional currency). The functional currency of LATAM Airlines Group S.A. is the United States dollar which is also the presentation currency of the consolidated financial statements of LATAM Airlines Group S.A. and Subsidiaries.

(b) Transactions and balances

Foreign currency transactions are translated to the functional currency using the exchange rates on the transaction dates. Foreign currency gains and losses resulting from the liquidation of these transactions and from the translation at the closing exchange rates of the monetary assets and liabilities denominated in foreign currency are shown in the consolidated statement of income by function except when deferred in Other comprehensive income as qualifying cash flow hedges.

(c) Adjustment due to hyperinflation

After July 1, 2018, the Argentine economy was considered, for purposes of IFRS, hyperinflationary. The consolidated financial statements of the subsidiaries whose functional currency is the Argentine Peso have been restated.

The non-monetary items of the statement of financial position as well as the income statement, comprehensive income and cash flows of the group's entities, whose functional currency corresponds to a hyperinflationary economy, are adjusted for inflation and re-expressed in accordance with the variation of the consumer price index ("CPI"), at each presentation date of its

financial statements. The re-expression of non-monetary items is made from the date of initial recognition in the statements of financial position and considering that the financial statements are prepared under the historical cost criterion.

Net losses or gains arising from the re-expression of non-monetary items and income and costs are recognized in the consolidated income statement under "Result of indexation units".

Net gains and losses on the re-expression of opening balances due to the initial application of IAS 29 are recognized in consolidated retained earnings.

Re-expression due to hyperinflation will be recorded until the period or exercise in which the economy of the entity ceases to be considered as a hyperinflationary economy. At that time, the adjustments made by hyperinflation will be part of the cost of non-monetary assets and liabilities. The comparative amounts in the consolidated financial statements of the Company are presented in a stable currency and are not adjusted for subsequent changes in the price level or exchange rates.

## (d) Group entities

The results and the financial situation of the Group's entities, whose functional currency is different from the presentation currency of the consolidated financial statements, of LATAM Airlines Group S.A., which does not correspond to the currency of a hyperinflationary economy, are converted into the currency of presentation as follows:

(i) Assets and liabilities of each consolidated statement of financial position presented are translated at the closing exchange rate on the consolidated statement of financial position date;

(ii) The revenues and expenses of each income statement account are translated at the exchange rates prevailing on the transaction dates, and

(iii) All the resultant exchange differences by conversion are shown as a separate component in other comprehensive income, within "Gain (losses) from exchange rate difference, before tax".

For those subsidiaries of the group whose functional currency is different from the presentation currency and, moreover, corresponds to the currency of a hyperinflationary economy; its restated results, cash flow and financial situation are converted to the presentation currency at the closing exchange rate on the date of the consolidated financial statements.

The exchange rates used correspond to those fixed in the country where the subsidiary is located, whose functional currency is different to the U.S. dollar.

## 2.4. Property, plant and equipment

The land of LATAM Airlines Group S.A. and Subsidiaries, are recognized at cost less any accumulated impairment loss. The rest of the Properties, plants and equipment are recorded, both in their initial recognition and in their subsequent measurement, at their historical cost, restated for inflation when appropriate, less the corresponding depreciation and any loss due to impairment.

The amounts of advances paid to the aircraft manufacturers are capitalized by the Company under Construction in progress until they are received.

Subsequent costs (replacement of components, improvements, extensions, etc.) are included in the value of the initial asset or are recognized as a separate asset, only when it is probable that the future economic benefits associated with the elements of property, plant and equipment, will flow to the Company and the cost of the item can be determined reliably. The value of the replaced component is written off. The rest of the repairs and maintenance are charged to income when they are incurred.

The depreciation of the properties, plants and equipment is calculated using the linear method over their estimated technical useful lives; except in the case of certain technical components which are depreciated on the basis of cycles and hours flown. This charge is recognized in the captions "Cost of sale" and "Administrative expenses".

The residual value and the useful life of the assets are reviewed and adjusted, if necessary, once a year. Useful lives are detailed in Note 16 (d).

When the value of an asset exceeds its estimated recoverable amount, its value is immediately reduced to its recoverable amount.

Losses and gains from the sale of property, plant and equipment are calculated by comparing the consideration with the book value and are included in the consolidated statement of income.

- 2.5. Intangible assets other than goodwill
- (a) Airport slots and Loyalty program

Airport slots and the Loyalty program correspond to intangible assets with indefinite useful lives and are annually tested for impairment as an integral part of the CGU Air Transport.

Airport Slots correspond to an administrative authorization to carry out operations of arrival and departure of aircraft, at a specific airport, within a certain period of time.

The Loyalty program corresponds to the system of accumulation and exchange of points that is part of TAM Linhas Aereas S.A.

The airport slots and Loyalty program were recognized at fair value under IFRS 3, as a consequence of the business combination with TAM S.A. and Subsidiaries.

(b) Computer software

Licenses for computer software acquired are capitalized on the basis of the costs incurred in acquiring them and preparing them for using the specific software. These costs are amortized over their estimated useful lives, for which the Company has defined useful lives between 3 and 10 years.

Expenses related to the development or maintenance of computer software which do not qualify for capitalization, are shown as an expense when incurred. The personnel costs and other costs directly related to the production of unique and identifiable computer software controlled by the Company, are shown as intangible Assets other than Goodwill when they have met all the criteria for capitalization.

#### (c) Brands

The Brands were acquired in the business combination with TAM S.A. and Subsidiaries and, recognized at fair value under IFRS 3. The Company has defined a useful life of five years, period in which the value of the brands will be amortized (see note 15).

#### 2.6. Borrowing costs

Interest costs incurred for the construction of any qualified asset are capitalized over the time necessary for completing and preparing the asset for its intended use. Other interest costs are recognized in the consolidated statement of income by function when accrued.

#### 2.7. Losses for impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Assets subject to amortization are tested for impairment losses whenever any event or change in circumstances indicates that the carrying amount may not be recoverable. An impairment loss is recognized for the excess of the carrying amount of the asset over its recoverable amount. The recoverable amount is the fair value of an asset less the costs of sale or the value in use, whichever is greater. For the purpose of evaluating impairment losses, assets are grouped at the lowest level for which there are largely independent cash inflows (cash generating unit. Non-financial assets, other than goodwill, that would have suffered an impairment loss are reviewed if there are indicators of reversal of losses. Impairment losses are recognized in the consolidated statement of income by function under "Other gains (losses)".

#### 2.8. Financial assets

The Company classifies its financial assets in the following categories: at fair value (either through other comprehensive income, or through gains or losses), and at amortized cost. The classification depends on the business model of the entity to manage the financial assets and the contractual terms of the cash flows.

The group reclassifies debt investments when, and only when, it changes its business model to manage those assets.

In the initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset classified at amortized cost, the transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets accounted for at fair value through profit or loss are recorded as expenses in the consolidated statement of income by function.

#### (a) Debt instruments

The subsequent measurement of debt instruments depends on the group's business model to manage the asset and cash flow characteristics of the asset. The Company has two measurement categories in which the group classifies its debt instruments:

Amortized cost: the assets held for the collection of contractual cash flows where those cash flows represent only payments of principal and interest are measured at amortized cost. A gain or loss on

a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in income when the asset is derecognized or impaired. Interest income from these financial assets is included in financial income using the effective interest rate method.

Fair value through profit or loss: assets that do not meet the criteria of amortized cost or fair value through other comprehensive income are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and is presented net in the consolidated statement of income by function within other gains / (losses) in the period or exercise in which it arises.

(b) Equity instruments

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other gains / (losses) in the consolidated statement of income by function as appropriate.

The Company evaluates in advance the expected credit losses associated with its debt instruments recorded at amortized cost. The applied impairment methodology depends on whether there has been a significant increase in credit risk.

2.9. Derivative financial instruments and embedded derivatives

Derivative financial instruments and hedging activities

Initially at fair value on the date on which the derivative contract was made and are subsequently valued at their fair value. The method to recognize the resulting loss or gain depends on whether the derivative designated as a hedging instrument and, if so, the nature of the item being hedged.

The Company designates certain derivatives as:

- (a) Hedge of an identified risk associated with a recognized liability or an expected highly- probable transaction (cash-flow hedge), or
- (b) Derivatives that do not qualify for hedge accounting.

At the beginning of the transaction, the Company documents the economic relationship between the hedged items existing between the hedging instruments and the hedged items, as well as its objectives for risk management and the strategy to carry out various hedging operations. The Company also documents its assessment, both at the beginning and on an ongoing basis, as to whether the derivatives used in the hedging transactions are highly effective in offsetting the changes in the fair value or cash flows of the items being hedged.

The total fair value of the hedging derivatives is booked as Other non-current financial asset or liability if the remaining maturity of the item hedged is over 12 months, and as an Other current financial asset or liability if the remaining term of the item hedged is less than 12 months. Derivatives not booked as hedges are classified as Other financial assets or liabilities.

#### (a) Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is shown in the statement of other comprehensive income. The loss or gain relating to the ineffective portion is recognized immediately in the consolidated statement of income by function under other gains (losses). Amounts accumulated in equity are reclassified to profit or loss in the periods or exercise when the hedged item affects profit or loss. When these amounts correspond to hedging derivatives of highly probable items that give rise to non-financial assets or liabilities, in which case, they are recorded as part of the non-financial assets or liabilities.

For fuel price hedges, the amounts shown in the statement of other comprehensive income are reclassified to results under the line item Cost of sales to the extent that the fuel subject to the hedge is used.

Gains or losses related to the effective part of the change in the intrinsic value of the options are recognized in the cash flow hedge reserve within equity. Changes in the time value of the options related to the part are recognized within Other Consolidated Comprehensive Income in the costs of the hedge reserve within equity.

When a hedging instrument mature, is sold or fails to meet the requirements to be accounted for as a hedges, any gain or loss accumulated in the statement of Other comprehensive income until that moment, remains in the statement of other comprehensive income and is reclassified to the consolidated statement of income when the hedged transaction is finally recognized.

When it is expected that the hedged transaction is no longer going to occur, the gain or loss accumulated in the statement of other comprehensive income is taken immediately to the consolidated statement of income by function as "Other gains (losses)".

(b) Derivatives not booked as a hedge

The changes in fair value of any derivative instrument that is not booked as a hedge are shown immediately in the consolidated statement of income in "Other gains (losses)".

#### Embedded derivatives

The Company assesses the existence of embedded derivatives in financial instrument contracts. Derivatives embedded in non-derivative host contracts are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the contracts are not measured at FVTPL as a whole. LATAM Airlines Group S.A. has determined that no embedded derivatives currently exist.

## 2.10. Inventories

Inventories, are shown at the lower of cost and their net realizable value. The cost is determined on the basis of the weighted average cost method (WAC). The net realizable value is the estimated selling price in the normal course of business, less estimated costs necessary to make the sale.

#### 2.11. Trade and other accounts receivable

Commercial accounts receivable are initially recognized at their fair value and subsequently at their amortized cost in accordance with the effective rate method, less the provision for impairment according to the model of the expected credit losses. The Company applies the simplified approach permitted by IFRS 9, which requires that expected lifetime losses be recognized upon initial recognition of accounts receivable.

In the event that the Company transfers its rights to any financial asset (generally accounts receivable) to a third party in exchange for a cash payment, the Company evaluates whether all risks and rewards have been transferred, in which case the account receivable is derecognized.

The existence of significant financial difficulties on the part of the debtor, the probability that the debtor goes bankrupt or financial reorganization are considered indicators of a significant increase in credit risk.

The carrying amount of the asset is reduced as the provision account is used and the loss is recognized in the consolidated income statement under "Cost of sales". When an account receivable is written off, it is regularized against the provision account for the account receivable.

#### 2.12. Cash and cash equivalents

Cash and cash equivalents include cash and bank balances, time deposits in financial institutions, and other short-term and highly liquid investments and a low risk of loss of value.

#### 2.13. Capital

The common shares are classified as net equity.

Incremental costs directly attributable to the issuance of new shares or options are shown in net equity as a deduction from the proceeds received from the placement of shares.

#### 2.14. Trade and other accounts payables

Trade payables and other accounts payable are initially recognized at fair value and subsequently at amortized cost.

#### 2.15. Interest-bearing loans

Financial liabilities are shown initially at their fair value, net of the costs incurred in the transaction. Later, these financial liabilities are valued at their amortized cost; any difference between the proceeds obtained (net of the necessary arrangement costs) and the repayment value, is shown in the consolidated statement of income during the term of the debt, according to the effective interest rate method.

Financial liabilities are classified in current and non-current liabilities according to the contractual payment dates of the nominal principal.

#### Convertible Notes

The component parts of the convertible notes issued by LATAM are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortized cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date. The conversion option classified as equity is determined by the deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognized and included in other equity, net of income tax effects. and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in other equity until the conversion option is exercised, in which case, the balance recognized in other equity will be transferred to share capital. Where the conversion option remains unexercised at maturity date of the convertible bond, the balance recognized in other equity will be transferred to retained earnings. No gain or loss is recognized in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are charged directly to equity.

#### 2.16. Current and deferred taxes

The tax expense for the period or exercise comprises income and deferred taxes.

The current income tax expense is calculated based on tax laws enacted at the date of the statement of financial position, in the countries in which the subsidiaries and associates operate and generate taxable income.

Deferred taxes are recognized on the temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from the initial recognition of an asset or a liability in a transaction other than a business combination that at the time of the transaction does not affect the accounting or the taxable profit or loss. Deferred tax is determined using the tax rates (and laws) that have been enacted or substantially enacted at the date of the consolidated statements of financial position and are expected to apply when the related deferred tax asset is realized or the deferred tax liability discharged.

Deferred tax assets are recognized only to the extent it is probable that the future taxable profit will be available against which the temporary differences can be utilized.

The tax (current and deferred) is recognized in the statement of income by function, unless it relates to an item recognized in other comprehensive income, directly in equity. In this case the tax is also recognized in other comprehensive income or, directly in the statement of income by function, respectively.

Deferred tax assets and liabilities are offset if, and only if:

(a) there is a legally enforceable right to set off current tax assets and liabilities, and

(b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either: (i) the same taxable entity, or (ii) different taxable entities which intend to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

- 2.17. Employee benefits
- (a) Personnel vacations

The Company recognizes the expense for personnel vacations on an accrual basis.

(b) Share-based compensation

The compensation plans implemented based on the value of the shares of the Company are recognized in the consolidated financial statements in accordance with IFRS 2: Share-based payments. For equity settled plans the fair value is recorded in equity with a charge to remuneration in a linear manner between the grant of said options and the date on which they become vested. For cash settled awards the fair value, updated as of the closing date of each reporting period or exercise, is recorded as a liability with charge to remuneration.

(c) Post-employment and other long-term benefits

Provisions are made for these obligations by applying the method of the projected unit credit method, and considering estimates of future permanence, mortality rates and future wage increases determined on the basis of actuarial calculations. The discount rates are determined by reference to market interest-rate curves. Actuarial gains or losses are shown in other comprehensive income.

(d) Incentives

The Company has an annual incentives plan for its personnel for compliance with objectives and individual contribution to the results. The incentives eventually granted consist of a given number or portion of monthly remuneration and the provision is made on the basis of the amount estimated for distribution.

## (e) Termination benefits

The group recognizes termination benefits at the earlier of the following dates: (a) when the group terminates the employee relationship; and (b) when the entity recognizes costs for a restructuring that is within the scope of IAS 37 and involves the payment of terminations benefits.

## 2.18. Provisions

Provisions are recognized when:

(i) The Company has a present legal or constructive obligation as a result of a past event;

- (ii) It is probable that payment is going to be required to settle an obligation; and
- (iii) A reliable estimate of the obligation amount can be made.
- 2.19. Revenue from contracts with customers

## (a) Transportation of passengers and cargo

The Company recognizes the sale for the transportation service as a deferred income liability, which is recognized as income when the transportation service has been provided or expired. In the case of air transport services sold by the Company and that will be made by other airlines, the liability is reduced when they are remitted to said airlines. The Company periodically reviews whether it is necessary to make an adjustment to deferred income liabilities, mainly related to returns, changes, among others.

Compensations granted to clients for changes in the levels of services or billing of additional services such as additional baggage, change of seat, among others, are considered modifications of the initial contract, therefore, they are deferred until the corresponding service is provided.

## (b) Expiration of air tickets

The Company estimates on a monthly basis the probability of expiration of air tickets, with refund clauses, based on their history of use. Air tickets without a refund clause expire on the date of the flight in case the passenger does not show up.

(c) Costs associated with the contract

The costs related to the sale of air tickets are capitalized and deferred until the moment of providing the corresponding service. These assets are included under the heading "Other current non-financial assets" in the Consolidated Classified Statement of Financial Position.

(d) Frequent passenger program

The Company maintains the following loyalty programs: LATAM Pass and LATAM Pass Brasil, whose objective is building customer loyalty through the delivery of miles or points.

These programs give their frequent passengers the possibility of earning LATAMPASS's miles or points, which grant the right to a selection of both air and non-air awards. Additionally, the Company sells the LATAMPASS miles or points to financial and non-financial partners through commercial alliances to award miles or points to their customers.

To reflect the miles and points earned, the loyalty program mainly includes two types of transactions that are considered revenue arrangements with multiple performance obligations: (1) Passenger Ticket Sales Earning miles or points (2) miles or points sold to financial and non-financial partner

## (1) Passenger Ticket Sales Earning Miles or Points.

In this case, the miles or points are awarded to customers at the time that the company performs the flight.

To value the miles or points earned with travel, we consider the quantitative value a passenger receives by redeeming miles for a ticket rather than paying cash, which is referred to as Equivalent Ticket Value ("ETV"). Our estimate of ETV is adjusted for miles and points that are not likely to be redeemed ("breakage").

The balance of miles and points that are pending to redeem are included within deferred revenue.

(2) Miles sold to financial and non-financial partners

To value the miles or points earned through financial and non-financial partners, the performance obligations with the client are estimated separately. To calculate these performance obligations, different components that add value in the commercial contract must be considered, such as marketing, advertising and other benefits, and finally the value of the points awarded to customers based on our ETV. The value of each of these components is finally allocated in proportion to their relative prices. The performance obligations associated with the valuation of the points or miles earned become part of the Deferred Revenue, and the remaining performance obligations are recorded as revenue when the miles or points are delivered to the client.

When the miles and points are exchanged for products and services other than the services provided by the Company, the income is recognized immediately; when the exchange is made for air tickets of any airline of LATAM Airlines Group S.A. and subsidiaries, the income is deferred until the air transport service is provided.

The miles and points that the Company estimates will not be exchanged are recognized in the results based on the consumption pattern of the miles or points effectively exchanged by customers. The Company uses statistical models to estimate the probability of exchange, which is based on historical patterns and projections.

### (e) Dividend income

Dividend income is recognized when the right to receive payment is established.

### 2.20. Leases

The Company recognizes contracts that meet the definition of a lease as a right of use asset and a lease liability on the date when the underlying asset is available for use.

Right of use assets are measured at cost including the following:

- The amount of the initial measurement of the lease liability;
- Lease payment made at or before commencement date;
- Initial direct costs, and
- Restoration costs.

The right of use assets are recognized in the statement of financial position in Property, plant and equipment.

Lease liabilities include the net present value of the following payments:

- Fixed payments including in substance fixed payment.

- Variable lease payments that depend on an index or a rate;
- The exercise price of a purchase option, if it is reasonably certain that the option will be exercised.

The discount rate that LATAM uses is the interest rate implicit in the lease, if that rate can be readily determined. This is the rate of interest that causes the present value of (a) lease payments and (b) the unguaranteed residual value to equal the sum of (i) the fair value of the underlying asset and (ii) any initial direct costs of the lessor.

LATAM uses its incremental borrowing rate if the interest rate implicit in the lease cannot be readily determined.

Lease liabilities are recognized in the statement of financial position under Other financial liabilities, current or non-current.

Interest accrued on financial liabilities is recognized in the consolidated statement of income in "Financial costs".

Principal and interest are present in the consolidated cash flow as "Payments of lease liability" and "Interest paid", respectively, within financing cash flows.

Payments associated with short-term leases without purchase options and leases of low-value assets are recognized on a straight-line basis in profit or loss at the time of accrual. Those payments are presented within operating cash flows.

The Company analyzes the financing agreements of aircraft, mainly considering characteristics such as:

(a) That the Company initially acquired the aircraft or took an important part in the process of direct acquisition with the manufacturers.

(b) Due to the contractual conditions, it is virtually certain that the Company will execute the purchase option of the aircraft at the end of the lease term.

Since these financing agreements are "substantially purchases" and not leases, the related liability is considered as a financial debt classified under IFRS 9 and continues to be presented within the "Other financial liabilities" described in Note 18. On the other hand, the aircraft are presented in Property, Plant and Equipment, as described in Note 16, as "own aircraft".

The Group qualifies as sale and lease transactions, operations that lead to a sale according to IFRS 15. More specifically, a sale is considered as such if there is no option to purchase the goods at the end of the lease term.

If the sale by the seller-lessee is classified as a sale in accordance with IFRS 15, the underlying asset is derecognized, and a right-of-use asset equal to the portion retained proportionally of the amount of the asset is recognized.

If the sale by the seller-lessee is not classified as a sale in accordance with IFRS 15, the transferred assets are kept in the financial statements and a financial liability equal to the sale price is recognized (received from the buyer-lessor).

The Company has applied the practical solution allowed by IFRS 16 for those contracts that meet the established requirements and that allows a lessee to choose not to evaluate if the concessions that it obtains derived from COVID-19 are a modification of the lease.

### 2.21. Non-current assets or disposal groups classified as held for sale

Non-current assets (or disposal groups) classified as assets held for sale are shown at the lesser of their book value and the fair value less costs to sell.

### 2.22. Maintenance

The costs incurred for scheduled heavy maintenance of the aircraft's fuselage and engines are capitalized and depreciated until the next maintenance. The depreciation rate is determined on technical grounds, according to the use of the aircraft expressed in terms of cycles and flight hours.

In case of aircraft include in property, plant and equipment, these maintenance cost are capitalized as Property, plant and equipment, while in the case of aircraft on right of use, a liability is accrued based on the use of the main components is recognized, since a contractual obligation with the lessor to return the aircraft on agreed terms of maintenance levels exists. These are recognized as Cost of sales.

Additionally, some contracts that comply with the definition of lease establish the obligation of the lessee to make deposits to the lessor as a guarantee of compliance with maintenance and return conditions. These deposits, often called maintenance reserves, accumulate until a major maintenance is performed. Once made, the recovery is requested to the lessor. At the end of the contract period, there is comparison between the reserves that have been paid and required return conditions, and compensation between the parties are made if applicable.

The unscheduled maintenance of aircraft and engines, as well as minor maintenance, are charged to results as incurred.

### 2.23. Environmental costs

Disbursements related to environmental protection are charged to results when incurred or accrue.

### NOTE 3 - FINANCIAL RISK MANAGEMENT

### 3.1. Financial risk factors

The Company is exposed to different financial risks: (a) market risk, (b) credit risk, and (c) liquidity risk. The risk management of the Company aims to minimize the adverse effects of financial risks affecting the company.

### (a) Market risk

Due to the nature of its operations, the Company has exposure to market factors such as: (i) fuelprice risk, (ii) exchange -rate risk (FX), and (iii) interest -rate risk.

The Company has developed policies and procedures to manage the market risk, which goal is to identify, quantify, monitor and mitigate the adverse effects of changes in market factors mentioned above.

For the foregoing, Management monitors the evolution of fuel price levels, exchange rates and interest rates, quantifies their exposures and their risk, and develops and executes hedging strategies.

### (i) Fuel-price risk

### Exposure:

For the execution of its operations, the Company purchases a fuel called Jet Fuel grade 54 USGC, which is subject to the fluctuations of international fuel prices.

### Mitigation:

To hedge the fuel-price risk exposure, the Company operates with derivative instruments (swaps and options) whose underlying assets may be different from Jet Fuel, such as West Texas Intermediate ("WTI") crude, Brent ("BRENT") crude and distillate Heating Oil ("HO"), which may have a high correlation with Jet Fuel and greater liquidity.

### Fuel Hedging Results:

During the period ended December 31, 2022, the Company recognized gains of US\$ 18.8 million for fuel hedging net of premiums in the costs of sales for the year. During the period ended December 31, 2021, the Company recognized gains of US\$ 10.1 million for fuel hedging net of premiums in the costs of sales for the year.

As of December 31, 2022, the market value of the fuel positions amounted to US\$12.6 million (positive). At the end of December 2021, this market value was US\$ 17.6 million (positive).

The following tables show the level of hedge for different periods:

| Positions as of December 31, 2022 (*)                          | Maturities |      |      |      |       |  |  |
|--|------------|------|------|------|-------|--|--|
|  | Q123       | Q223 | Q323 | Q423 | Total |  |  |
| Percentage of coverage over the expected volume of consumption | 24%        | 24%  | 15%  | 5%   | 17%   |  |  |

(\*) The percentage shown in the table considers all the hedging instruments (swaps and options).

| Positions as of December 31, 2021 (*)                          |      | Maturities |      |      |       |  |  |  |
|--|------|------------|------|------|-------|--|--|--|
|  | Q122 | Q222       | Q322 | Q422 | Total |  |  |  |
| Percentage of coverage over the expected volume of consumption | 25%  | 30%        | 17%  | 14%  | 21%   |  |  |  |

(\*) The volume shown in the table considers all the hedging instruments (swaps and options).

### Sensitivity analysis

A drop in fuel price positively affects the Company through a reduction in costs. However, also negatively affects contracted positions as these are acquired to protect the Company against the risk of a rise in price. Therefore, the policy is to maintain a hedge-free percentage in order to be competitive in the event of a drop in price.

The current hedge positions are booked as cash flow hedge contracts, so a variation in the fuel price has an impact on the Company's net equity.

The following table shows the sensitivity of financial instruments according to reasonable changes in the price of fuel and their effect on equity.

The calculations were made considering a parallel movement of US\$ 5 per barrel in the underlying reference price curve at the end of December 2022 and the end of December 2021. The projection period was defined until the end date of the last contract in force, corresponding to the last business day of the fourth quarter 2023.

|                   | Positions as of December 31, 2022 | Positions as of December 31, 2021 |
|-------------------|-----------------------------------|-----------------------------------|
| Benchmark price   | effect on Equity                  | effect on Equity                  |
| (US\$ per barrel) | (MUS\$)                           | (MUS\$)                           |
| +5                | +2.2                              | +2.7                              |
| -5                | -2.3                              | -3.3                              |

Given the fuel coverage structure for the year 2022, which considers a portion free of hedges, a vertical drop of 5 dollars in the JET reference price (considered as the monthly daily average), would have meant an impact of approximately US\$ 123 million lower fuel cost. For the same period, a vertical rise of 5 dollars in the JET reference price (considered as the monthly daily average), would have meant an approximate impact of US\$ 122.1 million in higher fuel costs.

### (ii) Foreign exchange rate risk:

### Exposure:

The functional currency of the financial statements of the Parent Company is the US dollar, so that the risk of the Transactional and Conversion exchange rate arises mainly from the Company's business, strategic and accounting operating activities that are expressed in a monetary unit other than the functional currency.

The subsidiaries of LATAM are also exposed to foreign exchange risk whose impact affects the Company's Consolidated Income.

The largest operational exposure to LATAM's exchange risk comes from the concentration of businesses in Brazil, which are mostly denominated in Brazilian Real (BRL), and are actively managed by the Company.

At a lower concentration, the Company is also exposed to the fluctuation of other currencies, such as: Euro, Pound sterling, Australian dollar, Colombian peso, Chilean peso, Argentine peso, Paraguayan guarani, Mexican peso, Peruvian Sol and New Zealand dollar.

### Mitigation:

The Company mitigates currency risk exposures by contracting hedging or non-hedging derivative instruments or through natural hedges or execution of internal operations.

### Exchange Rate Hedging Results (FX):

As of December 31, 2022, the Company recognized gains of US\$ 5,2 million for FX hedging derivatives net of premiums in sales revenue for the year. At the end of December 2021, the Company did not recognize gains or losses for FX hedging derivatives.

As of December 31, 2022, the market value of hedging FX derivative positions is US\$ 0,2 million (positive). As of December 31, 2022, the Company has current hedging FX derivatives for MUS\$ 108. As of December 31, 2021, the Company has no current hedging FX derivatives.

During the period ended December 31, 2022, the Company recognized losses of US\$ 1,8 million for FX non-hedging derivatives, net of premiums in the costs of sales for the year. As of December 31, 2022, the Company does not maintain current non-hedged FX derivatives. At the end of December 2021, the Company did not recognize gains or losses for FX non-hedging derivatives.

### Sensitivity analysis:

A depreciation of the R\$/US\$ exchange rate, negatively affects the Company's operating cash flows, however, also positively affects the value of the positions of derivatives contracted.

The following table shows the sensitivity of current hedging FX derivative instruments according to reasonable changes in the exchange rate and its effect on equity.

Impact of Exchange rate variation in the Consolidated Income Statements (Foreign exchange gains/losses)

In the case of TAM S.A., whose functional currency is the Brazilian real, a large part of its liabilities is expressed in US dollars. Therefore, when converting financial assets and liabilities, from dollar to real, they have an impact on the result of TAM S.A., which is consolidated in the Company's Income Statement.

In order to reduce the impact on the Company's result caused by appreciations or depreciations of  $R\$ , the Company carries out internal operations to reduce the net exposure in US\$ for TAM S.A.

The following table shows the impact of the Exchange Rate variation on the Consolidated Income Statement when the R\$/US\$ exchange rate appreciates or depreciates by 10%:

|                             | Effect on Income Statement             | Effect on Income Statement             |  |  |  |  |  |

Impact of the exchange rate variation in the Equity, from translate the subsidiaries financial statements into US Dollars (Cumulative Translate Adjustment)

Since the functional currency of TAM S.A. and Subsidiaries is the Brazilian real, the Company presents the effects of the exchange rate fluctuations in Other comprehensive income (Cumulative Translation Adjustment) by converting the Statement of financial position and Income statement of TAM S.A. and Subsidiaries from their functional currency to the U.S. dollar, which is the presentation currency of the consolidated financial statement of LATAM Airlines Group S.A. and Subsidiaries.

The following table shows the impact on the Cumulative Translation Adjustment included in Other comprehensive income recognized in Total equity in the case of an appreciation or depreciation 10% the exchange rate R\$/US\$:

### (iii) Interest -rate risk:

### Exposure:

The Company has exposure to fluctuations in interest rates affecting the markets future cash flows of the assets, and current and future financial liabilities.

The Company is mainly exposed to the Secured Overnight Financing Rate ("SOFR"), also to the London InterBank Offered Rate ("LIBOR") and other less relevant interest rates such as Brazilian Interbank Certificates of Deposit ("CDI"). As the publication of LIBOR will cease by June 2023, the company has begun to migrate to the adoption of SOFR as an alternative rate, which will fully materialize with the cessation of LIBOR.

Regarding rate exposure, a portion of the company's variable financial debt maintains exposure to the LIBOR rate. However, all these contracts will have definitive migration to the SOFR rate. This migration has been redacted within each of the existing financial debt contracts benchmarked to the LIBOR rate.

Currently, 31% of the financial debt contracts subject to variable rates maintain exposure to the LIBOR rate, and 69% of them have exposure to the SOFR rate. All of these contracts will migrate to SOFR rate since mid 2023.

### Mitigation:

Currently, 52% (40% as of December 31, 2021) of the debt is fixed against fluctuations in interest rates. Of the variable debt, most of it is indexed to the reference rate based on SOFR.

To mitigate the effect of those derivatives that will be affected by the transition from LIBOR to SOFR, the Company is following the recommendations of the relevant authorities, including the Alternative Reference Rates Committee ("ARRC") and the International Standard Derivatives Association in line with the measures generally adopted by the market for the replacement of LIBOR in debt and derivative contracts.

### Rate Hedging Results:

During the period ended December 31, 2022, the Company recognized losses of US\$ 7 million (negative) corresponding to the recognition for premiums paid.

As of December 31, 2022, the value of interest rate derivative positions amounted to MUS\$ 8.8 (positive) corresponding to operating lease hedges in order to fix the rents upon delivery of the aircraft. As of December 31, 2021, the Company did not maintain interest rate derivative positions in force.

As of December 31, 2022, the Company recognized a decrease in the right-of-use asset upon settlement of a derivative of US\$ 8.1 million associated with leased aircraft. On this same date, a lower expense for depreciation of the right-of-use asset for US\$ 0,1 million (positive) is recognized. At the end of December 2021, the Company did not earn profits or losses for this same concept.

### Sensitivity analysis:

The following table shows the sensitivity of changes in financial obligations that are not hedged against interest-rate variations. These changes are considered reasonably possible, based on current market conditions each date.

| Increase (decrease) | Positions as of December 31, 2022   | Positions as of December 31, 2021   |
|---------------------|-------------------------------------|-------------------------------------|
| futures curve       | effect on profit or loss before tax | effect on profit or loss before tax |
| in libor 3 months   | (MUS\$)                             | (MUS\$)                             |
| + 100 basis points  | -22.64                              | -46.31                              |
| - 100 basis points  | +22.64                              | +46.31                              |

A large part of the derivatives of current rates are recorded as cash flow hedge contracts, therefore, a variation in interest rates has an impact on the market value of the derivatives, whose changes affect the equity of the entity. Society.

The calculations were made by vertically increasing (decreasing) 100 base points of the interest rate curve, both scenarios being reasonably possible according to historical market conditions.

| Increase (decrease)<br>interest rate curve | Positions as of December 31, 2022<br>effect on equity<br>(MUS\$) | Positions as of December 31, 2021<br>effect on equity<br>(MUS\$) |
|--|--|--|
| +100 basis points<br>- 100 basis points    | +6.9<br>-8.2   | -  |

The sensitivity calculation hypothesis must assume that the forward curves of interest rates will not necessarily reflect the real value of the compensation of the flows. In addition, the interest rate structure is dynamic over time.

During the periods presented, the Company has not recorded amounts for ineffectiveness in the consolidated income statement for this type of coverage.

### (b) Credit risk

Credit risk occurs when the counterparty does not meet its obligations to the Company under a specific contract or financial instrument, resulting in a loss in the market value of a financial instrument (only financial assets, not liabilities). The client portfolio as of December 31, 2022 increased by 25% when compared to the balance as of December 31, 2021, mainly due to an increase in passenger transport operations (travel agencies and corporate) that increased by 53% in its sales, mainly affecting the forms of payment credit card 58%, and cash sales 54%. In relation to the cargo business, it presented an increase in its operations of 1% compared to December 2021. In the case of clients with debt that management considered risky, the corresponding measures were taken to consider their expected credit loss. The provision at the end of December 2022 had a decrease of 17% compared to the end of December 2021, as a result of the decrease in the portfolio due to recoveries, application of write-offs and updates of the risk matrix factors.

The Company is exposed to credit risk due to its operational activities and its financial activities, including deposits with banks and financial institutions, investments in other types of instruments, exchange rate transactions and derivatives contracts.

To reduce the credit risk related to operational activities, the Company has implemented limits to the exposure of its debtors, which are permanently monitored for the LATAM network, when deemed necessary, agencies have been blocked for cargo and passenger businesses.

(i) Financial activities

Cash surpluses that remain after the financing of assets necessary for the operation are invested according to credit limits approved by the Company's Board, mainly in time deposits with different financial institutions, private investment funds, short-term mutual funds, and easily-liquidated corporate and sovereign bonds with short remaining maturities. These investments are booked as Cash and cash equivalents and other current financial assets.

In order to reduce counterparty risk and to ensure that the risk assumed is known and managed by the Company, investments are diversified among different banking institutions (both local and international). The Company evaluates the credit standing of each counterparty and the levels of investment, based on (i) its credit rating, (ii) the equity size of the counterparty, and (iii) investment limits according to the Company's level of liquidity. According to these three parameters, the Company chooses the most restrictive parameter of the previous three and based on this, establishes limits for operations with each counterparty.

The Company has no guarantees to mitigate this exposure.

(ii) Operational activities

The Company has four large sales "clusters": travel agencies, cargo agents, airlines and credit-card administrators. The first three are governed by International Air Transport Association ("IATA"), international organization comprising most of the airlines that represent over 90% of scheduled commercial traffic and one of its main objectives is to regulate the financial transactions between airlines and travel agents and cargo. When an agency or airline does not pay their debt, it is excluded from operating with IATA's member airlines. In the case of credit-card administrators, they are fully guaranteed by 100% by the issuing institutions.

Under certain of the Company's credit card processing agreements, the financial institutions have the right to require that the Company maintain a reserve equal to a portion of advance ticket sales that have been processed by that financial institution, but for which the Company has not yet provided the air transportation. Additionally, the financial institutions have the ability to require additional collateral reserves or withhold payments related to receivables to be collected if increased risk is perceived related to liquidity covenants in these agreements or negative balances occur.

The exposure consists of the term granted, which fluctuates between 1 and 45 days.

One of the tools the Company uses for reducing credit risk is to participate in global entities related to the industry, such as IATA, Business Sales Processing ("BSP"), Cargo Account Settlement Systems ("CASS"), IATA Clearing House ("ICH") and banks (credit cards). These institutions fulfill the role of collectors and distributors between airlines and travel and cargo agencies. In the case of the Clearing House, it acts as an offsetting entity between airlines for the services provided between them. A reduction in term and implementation of guarantees has been achieved through these entities.

Currently the sales invoicing of TAM Linhas Aéreas S.A. related with travel agents and cargo agents for domestic transportation in Brazil is done directly by TAM Linhas Aéreas S.A.

### Credit quality of financial assets

The external credit evaluation system used by the Company is provided by IATA. Internal systems are also used for particular evaluations or specific markets based on trade reports available on the local market. The internal classification system is complementary to the external one, i.e. for agencies or airlines not members of IATA, the internal demands are greater.

To reduce the credit risk associated with operational activities, the Company has established credit limits to abridge the exposure of their debtors which are monitored permanently (mainly in case of operational activities of TAM Linhas Aéreas S.A. with travel agents). The bad-debt rate in the principal countries where the Company has a presence is insignificant.

### (c) Liquidity risk

Liquidity risk represents the risk that the Company does not have sufficient funds to pay its obligations.

Due to the cyclical nature of its business, the operation and investment needs, along with the need for financing, the Company requires liquid funds, defined as Cash and cash equivalents plus other short-term financial assets, to meet its payment obligations.

The balance of liquid funds, future cash generation and the ability to obtain financing, provide the Company with alternatives to meet future investment and financing commitments.

As of December 31, 2022, the balance of liquid funds is US\$ 1,216 million (US \$ 1,047 million as of December 31, 2021), which are invested in short-term instruments through financial entities with a high credit rating classification.

As of December 31, 2022, LATAM maintains two engaged Revolving Credit Facility for a total of US\$ 1,100 million, one for an amount of US\$600 million and another for an amount of US\$500 million, which are fully available. These lines are secured by and subject to the availability of collateral (i.e. aircraft, engines and spare parts).

After voluntary petition for amparo of Chapter 11 Proceedings, the Company received authorization from the Bankruptcy Court for the "debtors in possession" (DIP) financing, in the form of a multidraw term loan facility in an aggregate principal amount of up to US\$ 3.2 billion divided in Tranche A, B and C (hereinafter the contract that documented such financing, the Original DIP Credit Agreement"). Initially, Tranches A and C were committed for a total of US\$2.450 billion. To date, these three tranches are fully committed after the approval on October 18, 2021, of a proposal to grant financing under Tranche B of the DIP for a total of US\$750 million, thus allowing LATAM to access lower financing costs in the next disbursements of the DIP financing.

On April 8, 2022, a consolidated and modified text (the "Reconsolidated and Modified DIP Credit Agreement") of the Existing Original DIP Credit Agreement was signed, which modifies and recasts said agreement and repays the pending payment obligations under it. (that is, under its Tranches A, B and C). The total amount of the Consolidated and Modified DIP Credit Agreement was US\$3.7 billion. The Revised and Amended DIP Credit Agreement included certain reductions in fees and interest compared to the DIP Credit Agreement; and contemplated an expiration date in accordance with the calendar that LATAM anticipated to emerge from the Chapter 11 Procedure.

In the context of the Company's exit from Chapter 11, on October 12, 2022, the Amended and Restated DIP Financing Contract was repaid in full. The repayment was fully made with funds from (i) a Junior DIP Financing of approximately US\$1,146Mn; (ii) a Revolving Credit Facility of US\$500 million; (iii) a Term Loan B of US\$ 750 million; (iv) a Bridge Loan of 5Y Notes of US\$750 million; (v) a Bridge Loan of 7Y Notes of US\$750 million.

On October 18, 2022, the Bridge Loans were partially repaid by; (i) a Note issued from registration under U.S. Securities Act of 1933, as amended ("the "Securities Act"), pursuant to Rule 144A and Regulation S, both under the Securities Act, due in 2027 (the "5 Year Note"), with a total principal amount of US\$ 450 million, and (ii) a Note issued from registration under the Securities Act pursuant to Rule 144A and Regulation A, both under the Securities Act, due in 2029 (the "7 Year Note"), with a total principal amount of US\$ 700 million.

Additionally, on November 3, 2022, the repayments of outstanding balances of the Bridge Loan and the Junior DIP were finished with the funds obtained under from the Exit Financing. Starting in November 2022, the exit financing was composed of: (i) a Revolving Credit Line for an amount of US\$500 million; (ii) a tranche B term loan for an amount of US\$1,100 million (this is the original US\$750 million, plus an incremental loan under it obtained on November 3, 2022 for an amount of US\$350 million), US\$450 million in senior secured notes due in 2027 and US\$700 million in senior secured notes due in 2029.

(\*) Trade and other accounts payables include claims resulting from Chapter 11 negotiation and are subject to settlement in accordance with the Reorganization plan.

The Company has fuel, interest rate and exchange rate hedging strategies involving derivatives contracts with different financial institutions.

As of December 31, 2022, the Company maintains guarantees for US\$7.5 million corresponding to derivative transactions. The increase is due to: i) Increase in the number of hedging contracts and ii) changes in fuel prices, exchange rates and interest rates. At the end of 2021, the Company had guarantees for US\$ 5.5 million corresponding to derivative transactions.

3.2. Capital risk management

The objectives of the Company, in relation to capital management are: (i) to meet the minimum equity requirements and (ii) to maintain an optimal capital structure.

The Company monitors contractual obligations and regulatory requirements in the different countries where the group's companies are domiciled to ensure faithful compliance with the minimum equity requirement, the most restrictive limit of which is to maintain positive liquid equity.

Additionally, the Company periodically monitors the short and long term cash flow projections to ensure that it has sufficient cash generation alternatives to meet future investment and financing commitments.

The international credit rating of the Company is the result of the ability to meet long-term financial commitments. As of December 31, 2022, The Company has a national rating of BBB- by Fitch, a rating of B- by Standard & Poor's, and a preliminary rating at the exit of the Chapter 11 process of B2 with a stable outlook by Moody's.

3.3. Estimates of fair value.

At December 31, 2022, the Company maintained financial instruments that should be recorded at fair value. These are grouped into two categories:

1. Derivative financial instruments:

This category includes the following instruments:

- Interest rate derivative contracts,
- Fuel derivative contracts,
- Currency derivative contracts.
- 2. Financial Investments:

This category includes the following instruments:

- Investments in short-term Mutual Funds (cash equivalent)
- Private investment funds.

The Company has classified the fair value measurement using a hierarchy that reflects the level of information used in the assessment. This hierarchy consists of 3 levels (I) fair value based on quoted prices in active markets for identical assets or liabilities, (II) fair value calculated through valuation methods based on inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) and (III) fair value based on inputs for the asset or liability that are not based on observable market data.

The fair value of financial instruments traded in active markets, such as investments acquired for trading, is based on quoted market prices at the close of the period using the current price of the buyer. The fair value of financial assets not traded in active markets (derivative contracts) is determined using valuation techniques that maximize use of available market information. Valuation techniques generally used by the Company are quoted market prices of similar instruments and / or estimating the present value of future cash flows using forward price curves of the market at period end.

The following table shows the classification of financial instruments at fair value, depending on the level of information used in the assessment:

The book values of accounts receivable and payable are assumed to approximate their fair values, due to their short-term nature. In the case of cash on hand, bank balances, overnight, time deposits and accounts payable, non-current, fair value approximates their carrying values.

The fair value of other financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate for similar financial instruments (Level II). In the case of Other financial assets, the valuation was performed according to market prices at period end. The book value of Other financial liabilities, current or non-current, do not include lease liabilities.

### NOTE 4 - ACCOUNTING ESTIMATES AND JUDGMENTS

The Company has used estimates to value and record some of the assets, liabilities, income, expenses and commitments. Basically, these estimates refer to:

(a) Evaluation of possible losses due to impairment of intangible assets with indefinite useful life

Management conducts an impairment test annually or more frequently if events or changes in circumstances indicate potential impairment. An impairment loss is recognized for the amount by which the carrying amount of the cash generating unit (CGU) exceeds its recoverable amount.

Management's value-in-use calculations included significant judgments and assumptions relating to revenue growth rates, exchange rates, discount rates, inflation rates, fuel price. The estimation of these assumptions requires significant judgment by management as these variables are inherently uncertain; however, the assumptions used are consistent with the Company's forecasts approved by management. Therefore, management evaluates and updates the estimates as necessary in light of conditions that affect these variables. The main assumptions used as well as the corresponding sensitivity analyses are shown in Note 15.

(b) Useful life, residual value, and impairment of property, plant, and equipment

The depreciation of assets is calculated based on a straight-line basis, except for certain technical components depreciated on cycles and hours flown. These useful lives are reviewed on an annual basis according to the Company's future economic benefits associated with them.

Changes in circumstances such as: technological advances, business model, planned use of assets or capital strategy may result in a useful life different from what has been estimated. When it is determined that the useful life of property, plant, and equipment must be reduced, as may occur in line with changes in planned usage of assets, the difference between the net book value and estimated recoverable value is depreciated, in accordance with the revised remaining useful life.

The residual values are estimated according to the market value that the assets will have at the end of their life. The residual value and useful life of the assets are reviewed, and adjusted if necessary, once a year. When the value of an asset is greater than its estimated recoverable amount, its value is immediately reduced to its recoverable amount.

The Company has concluded that the Properties, Plant and Equipment cannot generate cash inflows to a large extent independent of other assets, therefore the impairment assessment is made as an integral part of the only Cash Generating Unit maintained by the Company, Air Transport. The Company checks when there are signs of impairment, whether the assets have suffered any impairment losses at the Cash Generated Unit level.

(c) Recoverability of deferred tax assets

Management records deferred taxes on the temporary differences that arise between the tax bases of assets and liabilities and their amounts in the financial statements. Deferred tax assets on tax losses are recognized to the extent that it is probable that future tax benefits will be available to offset temporary differences.

The Company applies significant judgment in evaluating the recoverability of deferred tax assets. In determining the amounts of the deferred tax asset to be accounted for, management considers tax planning strategies, historical profitability, projected future taxable income (considering assumptions such as: growth rate, exchange rate, discount rate and fuel price consistent with those used in the impairment analysis of the group's cash-generating unit) and the expected timing of reversals of existing temporary differences.

(d) Air tickets sold that will not be finally used.

The Company records the sale of airline tickets as deferred income. Ordinary revenue from the sale of tickets is recognized in the income statement when the passenger transport service is provided or expires due to non-use. The Company evaluates on a monthly basis the probability of expiration of the air tickets, with return clauses, based on the history of use of the air tickets. A change in this probability could have an impact on revenue in the year in which the change occurs and in future years.

As of December 31, 2022, deferred income associated with air tickets sold amounts to ThUS\$1,574,145 (ThUS\$1,126,371 as of December 31, 2021). A hypothetical change of one percentage point in the behavior of the passenger regarding the use would translate into an impact of up to ThUS\$7,453 per month.

(e) Valuation of miles and points awarded to holders of loyalty programs, pending use.

As of December 31, 2022, the deferred income associated with the LATAM Pass loyalty program amounts to ThUS\$1,120,565 (ThUS\$1,285,732 as of December 31, 2021). A hypothetical change of one percentage point in the exchange probability would translate into a cumulative impact of ThUS\$29,571 in the results of 2022 (ThUS\$27,151 in 2021). Deferred income associated with the LATAM Pass Brasil loyalty program (See Note 21) amounts to ThUS\$140,486 as of December 31, 2022 (ThUS\$192,381 as of December 31, 2021). A hypothetical change of two percentage points in the probability of exchange would translate into a cumulative impact of ThUS\$7,453 in the results of 2022 (ThUS\$5,100 in 2021).

Management used statistical models to estimate the miles and points awarded that will not be redeemed by the program's members (breakage) which involved significant judgments and assumptions relating to the historical redemption and expiration activity and forecasted redemption and expiration patterns.

The management in conjunction with an external specialist developed a predictive model of nonuse miles or points, which allows to generate non-use rates on the basis of historical information, based on behavior of the accumulation, use and expiration of the miles or points.

(f) The need to establish a provision and its valuation

In the case of known contingencies, the Company records a provision when it has a present obligation, whether legal or constructive, as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the obligation amount can be made. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events, the likelihood of loss being incurred and when determining whether a reliable estimate of the loss can be made. The Company assesses its liabilities and contingencies based upon the best information available, uses the knowledge,

experience and professional judgment to the specific characteristics of the known risks. This process facilitates the early assessment and quantification of potential risks in individual cases or in the development of contingent matters. If we are unable to reliably estimate the obligation or conclude no loss is probable but it is reasonably possible that a loss may be incurred, no provision is recorded but the contingency is disclosed in the notes to the consolidated financial statements.

The Company recognizes the present obligation under an onerous contract as a provision when a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from it.

(g) Leases

During 2022, as a result of the arrival of new aircraft and the significant change in the flows of many current contracts, the Company evaluated the relevance in the current scenario of continuing to use the implicit rate, a methodology used in recent years, or whether it should in instead use a different approximation for calculating the rate. It was concluded that the implicit rate was not being able to reflect the economic environment in which the company operates, therefore it was not accurately representing the Company's indebtedness conditions. Because of this, all new contracts entered into during 2022 and all contracts that were modified during 2022 used the incremental rate. Existing contracts that remained unchanged continued using the original implicit discount rate.

### (i) Discount rate

The discount rates used to calculate the aircraft lease debt correspond to: (i) For aircraft that did not have contractual changes associated with the exit from Chapter 11, the rate used was the implicit rate of the contract, this is the discount rate that results from the aggregate present value of the minimum lease payments and the unguaranteed residual value, and (ii) For aircraft that had contractual changes associated with exit from Chapter 11, the rate used was the incremental rate, this discount rate was calculated considering our recent aircraft debt negotiations, as well as publicly available data for instruments with similar characteristics when calculating our incremental borrowing rates.

For assets other than aircraft, the estimated lessee's incremental borrowing rate, which is derived from information available at the lease inception date, was used to determine the present value of the lease payments. We consider our recent debt issuances as well as publicly available data for instruments with similar characteristics when calculating our incremental borrowing ratios.

A decrease of one percentage point in our estimate of the rates used to determine the lease liabilities of new and modified fleet contracts booked as of December 31, 2022 would increase the lease liability by approximately US\$82 million.

### (ii) Lease term

In determining the lease term, all facts and circumstances that create an economic incentive to exercise an extension option are considered. Extension options (or periods after termination options) are only included in the lease term if it is reasonably certain that the lease will be extended (or not terminated). This is reviewed if a significant event or significant change in circumstances occurs that affects this assessment and is within the lessee's control.

These estimates are made based on the best information available on the events analyzed.

In any case, it is possible that events that may take place in the future make it necessary to modify them in future periods, which would be done prospectively.

### NOTE 5 - SEGMENT INFORMATION

As of December 31, 2022, the Company considers that it has a single operating segment, Air Transport. This segment corresponds to the route network for air transport and is based on the way in which the business is managed, according to the centralized nature of its operations, the ability to open and close routes, as well as reassignment (airplanes, crew, personnel, etc.) within the network, which implies a functional interrelation between all of them, making them inseparable. This segment definition is one of the most common in the worldwide airline industry.

The Company's revenues by geographic area are as follows:

|  | For the year ended |           |  |  |
|--|--------------------|-----------|--|--|

| Other operating income                 | 154.286            | 227.331   |  |  |

The Company allocates revenues by geographic area based on the point of sale of the passenger ticket or cargo. Assets are composed primarily of aircraft and aeronautical equipment, which are used throughout the different countries, so it is not possible to assign a geographic area.

The Company has no customers that individually represent more than 10% of sales.

The fair value of trade and other accounts receivable does not differ significantly from the book value.

To determine the expected credit losses, the Company groups accounts receivable for passenger and cargo transportation depending on the characteristics of shared credit risk and maturity.

Once pre-judicial and judicial collection efforts are exhausted, the assets are written off against the allowance. The Company only uses the allowance method rather than direct write-off, to ensure control.

The historical and current renegotiations are not significant, and the policy is to analyze case by case to classify them according to the existence of risk, determining they need to be reclassified to pre-judicial collection accounts.

The maximum credit-risk exposure at the date of presentation of the information is the fair value of each one of the categories of accounts receivable indicated above.

| Total                | 86,416   | 146,792  |  |

The balances are presented at the lower of book value and fair value less cost to sell. The fair value of these assets was determined based on quoted prices in active markets for similar assets or liabilities. This is a level II measurement as per the fair value hierarchy set out in Note 3.3 (2). There were no transfers between levels for recurring fair value measurements during the year.

Assets reclassified from Property, plant and equipment to Non-current assets or groups of assets for disposal classified as held for sale.

During 2020, eleven Boeing 767 aircraft were transferred from the Property, plant and equipment, to Non-current assets item or groups of assets for disposal classified as held for sale. During 2021, the sale of five aircraft was completed. Additionally, during the year 2022 the sale of three aircraft was finalized.

During 2021, associated with the fleet restructuring plan, 3 engines of the A350 fleet were transferred from the Property, plant and equipment to Non-current assets or groups of assets for disposal classified as held for sale, of which during the same year the sale of an engine was finalized. Additionally, during the year 2022, the sale of an engine was finalized and some materials and spare parts of this same fleet were transferred to Non-current assets or groups of assets for disposal classified as held for sale.

During 2022, 28 A319 family aircraft were transferred from Property, plant and equipment to Noncurrent assets or asset groups for disposal classified as held for sale. Additionally, adjustments for US\$ 345 million of expenses were recognized within results as part of Other gains (losses) to record these assets at their net realizable value.

During the year 2022, 6 aircraft and 8 engines of the A320 family were transferred from Property, plant and equipment to Non-current assets or asset groups for disposal classified as held for sale, of which during the year 2022 the sale of three aircraft was finalized. Additionally, adjustments for US\$ 25 million of expenses were recognized to record these assets at their net realizable value, and since the fleet restructuring process had already been completed, these adjustments were recorded in results as part of Other expenses by function.

During the year ended December 31, 2021, adjustments for US\$ 85 million (US\$ 332 million at December 31, 2020) of expenses were recognized to record these assets at their net realizable value, which were recorded as restructuring activity expenses.

(1) In 2016, the Company decided to adopt a unique name and identity and announced that the group's brand will be LATAM, which united all the companies under a single image.

The estimate of the new useful life is 5 years, equivalent to the period necessary to complete the change of image.

As of December, 31, 2022, the TAM brand is fully amortized.

See Note 2.5

The amortization of each period is recognized in the consolidated income statement within administrative expenses.

The cumulative amortization of computer programs, brands and other assets as of December 31, 2022 amounts to ThUS \$ 414,614 (ThUS \$ 366,053 as of December 31, 2021).

b) Impairment Test Intangible Assets with an indefinite useful life

As of December 31, 2022, the Company maintains only the CGU "Air Transport".

The CGU "Air transport" considers the transport of passengers and cargo, both in the domestic markets of Chile, Peru, Argentina, Colombia, Ecuador and Brazil, as well as in a series of regional and international routes in America, Europe, Africa and Oceania.

As of December 31, 2022, in accordance with the accounting policy, the Company performed the annual impairment test.

The recoverable amount of the CGU was determined based on calculations of the value in use. These calculations use projections of 5 years of cash flows after taxes from the financial budgets approved by management. Cash flows beyond the budgeted period are extrapolated using growth rates and estimated average volumes, which do not exceed long-term average growth rates.

Management's cash flow projections included significant judgements and assumptions related to annual revenue growth rates, discount rate, inflation rates, the exchange rate and the price of fuel. The annual revenue growth rate is based on past performance and management's expectations of market development in each of the countries in which it operates. The discount rates used for the CGU "Air transport" are determined in US dollars, after taxes, and reflect specific risks related to the relevant countries of each of the operations. Inflation rates and exchange rates are based on the data available from the countries and the information provided by the Central Banks of the various countries where it operates, and the price of fuel is determined based on estimated levels of production, the competitive environment of the market in which they operate and their commercial strategy.

The recoverable values were determined using the following assumptions:

|  | _           | CGU<br>Air transport |
|--|-------------|----------------------|
| Annual growth rate (Terminal)  | %           | 0.0 - 3.5            |
| Exchange rate (1)  | R\$/US\$    | 5.40 - 5.63          |
| Discount rate based don the Weighted Average<br>Cost of Capital (WACC) | %           | 8.40-12.40           |
| Fuel Price from future prices curves                                   |             |                      |
| Commodities markets  | US\$/barrel | 100 - 130            |

(1) In line with expectations of the Central Bank of Brazil.

The result of the impairment test, which includes a sensitivity analysis of its main variables, showed that the recoverable amount exceeded the book value of the cash-generating unit, and therefore no impairment was identified.

The CGU is sensitive to annual growth rates, discounts and exchange rates and fuel price. The sensitivity analysis included the individual impact of changes in critical estimates in determining recoverable amounts, namely:

|                        | Increase | Decrease rate   | Increase    |
|------------------------|----------|-----------------|-------------|
|                        | WACC     | Terminal growth | fuel price  |
|                        | Maximum  | Minimal         | Maximum     |
|                        | %        | %               | US\$/barrel |
| Air Transportation CGU | 12.4     | 0               | 130         |

In none of the above scenarios an impairment of the cash-generating unit was identified.

# (d) Method used for the depreciation of Property, plant and equipment:

(\*) Except in the case of the Boeing 767 300ER, Airbus 320 Family and Boeing 767 300F fleets that consider a lower residual value, due to the extension of their useful life to 22, 25 and 30 years respectively. Additionally, certain technical components are depreciated based on cycles and hours flown.

## (f) Assumption, Amendment & Rejection of Executory Contracts & Leases

On June 28, 2020, the Bankruptcy Court authorized the Debtors to establish procedures for the rejection of certain executory contracts and unexpired leases and on September 24, 2020, the Bankruptcy Court authorized the Debtors to establish procedures for the rejection of certain unexpired aircraft lease agreements, aircraft engine agreements and the abandonment of certain related assets. In accordance with these rejection procedures, the Bankruptcy Code and the

Bankruptcy Rules the Debtors have or will reject certain contracts and leases (see notes 18 and 26). Relatedly, the Bankruptcy Court approved the Debtors' request to extend the date by which the Debtors may assume or reject unexpired non-residential, real property leases until December 22, 2020. Pursuant to the Disclosure Statement Order, the Debtors have until the Effective Date of the Plan (as defined in the Plan) to assume or reject executory contracts and unexpired leases.

Further, the Debtors have filed motions to reject certain aircraft and engine leases and related agreements:

As of December 31, 2021, and as a result of these contract rejections, performance obligations with the lenders and lessors were extinguished and the Company lost control over the related assets resulting in the derecognition of the assets and the liabilities associated with these aircraft. See Note 18 and 26.

Contracts rejected during 2022 in the previous table do not result in changes in the asset or liabilities structure of the Company, since these were general terms of agreement for purchases, engine maintenance contracts and short term leases which according to the accounting policies (see Note 2) should not be registered as right of use assets.

## NOTE 17 - CURRENT AND DEFERRED TAXES

The Company calculated and booked its income tax provision for the period ended December 31, 2022 using the partially integrated system with a tax rate of 27%, in accordance with the Law No. 21,210, published in the Journal of the Republic of Chile, dated February 24, 2020, which update the Tax Legislation.

The net result for deferred tax corresponds to the variation of the year, of the assets and liabilities for deferred taxes generated by temporary differences and tax losses.

For the permanent differences that give rise to a book value of assets and liabilities other than their tax value, no deferred tax has been recorded since they are caused by transactions that are recorded in the financial statements and that will have no effect on income tax expense.

Unrecognized deferred tax assets:

Deferred tax assets are recognized to the extent that it is probable that sufficient taxable profits will be generated in the future. In total the Company has not recognized deferred tax assets for ThUS\$ 3,651,023 at December 31, 2022 (ThUS\$ 2,638,473 as of December 31, 2021) which include deferred tax assets related to negative tax results of ThUS\$ 14,930,487 at December 31, 2022 (ThUS\$ 9,030,059 at December 31, 2021).

(\*) As stated in note 2c), on November 26th, 2021 the Company filed a Reorganization Plan and Disclosure Statement in which, among other items, financial forecasts were included together with the proposed issuance of new shares and convertible notes. With that information the Company's management updated its analysis on the recoverability of deferred tax assets and determined that during the time covered by the financial forecast it will not be probable that part of such deferred tax assets may be offset by future taxable profits. Therefore, the Company during the fourth quarter of 2021 derecognized deferred tax assets not considered recoverable in the amount of ThUS\$1,251,912. On the other hand, on December 31, 2022 the Company management of subsidiary Lan Cargo S.A determined that considering financial forecast it will not be probable that part of the deferred tax assets may be offset with future taxable profits. Therefore, the Company management of subsidiary Lan Cargo S.A determined that considering financial forecast it will not be probable that part of the deferred tax assets may be offset with future taxable profits. Therefore, the Company derecognized deferred tax assets mot considered recoverable in the amount of ThUS\$6,173.

(1) During March and April 2020, LATAM Airlines Group S.A. drew the entirety (US\$ 600 million) of the committed credit line "Revolving Credit Facility (RCF)". The line is guaranteed with collateral made up of aircraft, engines and spare parts, which was fully drawn until November 3, 2022. Once emerged from Chapter 11, this line was fully repaid and is available to be drawn.

(2) On May 26, 2020 LATAM Airlines Group S.A. and its subsidiaries in Chile, Peru, Colombia and Ecuador filed for protection under Chapter 11 of the United States bankruptcy law in the Court for the Southern District of New York. Under Section 362 of the Bankruptcy Code. The same occurred for TAM LINHAS AÉREAS S.A and its affiliates (all LATAM affiliates in Brazil), dated July 9, 2020. Filing for Chapter 11 automatically suspends most actions against LATAM and its affiliates, including most of actions to collect financial obligations incurred before the Chapter 11 filing date or to exercise control over the property of LATAM and its affiliates. Consequently, although the bankruptcy filing may have caused defaults for some of the obligations of LATAM and its affiliates, the counterparties cannot take any action as a result of such defaults.

Then, on November 3, 2022, the Company and all of its subsidiaries successfully emerged from Chapter 11.

(3) On September 29, 2020, LATAM Airlines Group S.A. obtained Debtor-in-Possession ("DIP") financing for a total of US\$2,450 million, composed of US\$1,300 million of a tranche A ("Tranche A") and US\$1,150 million of a tranche C ("Tranche C"), of which US\$750 million were provided by related parties. Obligations under the DIP were secured by assets owned by LATAM and certain of its subsidiaries, including, but not limited to, shares, certain engines and spare parts.

On October 8, 2020, LATAM made a partial withdrawal for US\$1,150 million from Tranche A and Tranche C, and then, on or around June 22, 2021, LATAM made an additional withdrawal for US\$500 million from Tranche A and Tranche C.

On October 18, 2021, LATAM Airlines Group S.A. obtained court approval for a Tranche B ("Tranche B") of the DIP Financing for up to a total of US\$750 million. The obligations of this Tranche B, like the previous tranches, were guaranteed with the same guarantees granted by LATAM and its subsidiaries subject to the Chapter 11 Procedure, included without limitation, by pledges on shares, certain engines and spare parts. The following draws on the DIP must be done from Tranche B until the proportion drawn is equal to the proportion drawn on the other tranches. When the proportions were the same, new draws are done on a pro-rata basis on all tranches.

On November 10, 2021, the Company made a partial transfer for US\$200 million from Tranche B and later on December 28, 2021, LATAM made a new transfer for MUS\$ 100. After these transfers, LATAM still It had US\$1,250 million of line available for future transfers.

On March 14, 2022, LATAM made a transfer for MUS\$ 38.6 from Tranche A, US\$227.3 million from Tranche B and US\$34.1 million from Tranche C.

The DIP had an expiration date of April 8, 2022, subject to a potential extension, at LATAM's decision, for an additional 60 days in the event that LATAM's reorganization plan has been confirmed by a United States Court order. for the Southern District of New York, but the plan is not yet effective. Finally, it should be noted that this extension was not carried out and that this DIP financing was paid in full on April 8, 2022, being replaced by a new consolidated and modified DIP Credit Agreement.

On February 17, 2022, LATAM submitted an initial proposal (the "Consolidated and Modified Initial DIP Financing Proposal") of a consolidated and modified text of the contract called Super-Priority Debtor-In-Possession Term Loan Agreement before the Court of Bankruptcies of the Southern District of New York.

On March 14, 2022, the Board of Directors of the Company, unanimously, approved the Amended and Restated DIP Financing Proposal, subject to the approval of the Court. On March 14, 2022, a new consolidated and modified contract of the Existing DIP Credit Agreement (the "Amended and Restated DIP Credit Agreement") was submitted to the Court for its approval. The NewDIP Credit Agreement (i) refinances and fully replaces the existing Tranches A, B and C in the Existing DIP Credit Agreement; (ii) contemplates a maturity date in accordance with the calendar that the Debtors foresee to emerge from the Chapter 11 Procedure; and (iii) includes certain reductions in fees and interest compared to the Existing DIP Credit Agreement and the Recast and Amended DIP Initial Financing Proposal. Obligations under the DIP were secured by assets owned by LATAM and certain of its subsidiaries, including, but not limited to, shares, certain engines and spare parts.

On April 8, 2022, a consolidated and modified text was signed (the "Amended and restated DIP Credit Agreement") of the Original DIP Credit Agreement, which modifies and recasts said agreement and repays the obligations pending payment under it. (that is, under its Tranches A, B and C). The total amount of the Consolidated and Modified DIP Credit Agreement is US\$3.700 million. The Consolidated and Amended DIP Credit Agreement (i) includes certain reductions in fees and interest compared to the Existing DIP Credit Agreement; and (ii) contemplates an expiration date in accordance with the calendar that LATAM foresees to emerge from the Chapter 11 Procedure. Regarding the latter, the scheduled expiration date of the initial DIP Credit Agreement was August 8, 2022, subject to to possible extensions that, in certain cases, had a deadline of November 30, 2022.

Likewise, on April 8, 2022, the initial disbursement took place under the Amended and Restated DIP Credit Agreement for the amount of US\$2,750 million. On April 28, 2022, an amendment to this contract was signed, extending the expiration date from August 8, 2022 to October 14, 2022.

On October 12, 2022, this Amended and Restated DIP Credit Agreement was fully repaid with the DIP-to-Exit financing, which contemplated US\$750 million of a bridge financing for senior secured notes maturing in 2027, US\$750 million of another bridge financing for senior secured notes due 2029, US\$750 Mn of a Term Financing, US\$1,146 million of a Junior DIP financing, and US\$ 500 million of an undrawn Revolving Credit Facility. The DIP-to-exit financing was collateralized by assets owned by LATAM and by certain of its subsidiaries. The Junior DIP contemplated a subordinate priority to the rest of the credits.

On October 18, 2022, the Bridge Loans were partially repaid by; (i) a Note issued from registration under U.S. Securities Act of 1933, as amended ("the "Securities Act"), pursuant to Rule 144A and Regulation S, both under the Securities Act, due in 2027 (the "5 Year Note"), with a total principal amount of US\$ 450 million, and (ii) a Note issued from registration under the Securities Act pursuant to Rule 144A and Regulation A, both under the Securities Act, due in 2029 (the "7 Year Note"), with a total principal amount of US\$ 700 million.

In the context of the Company's exit from the Chapter 11 proceedings on November 3, 2022, the DIP-to-Exit financing was fully repaid with the funds from the exit financing issued by the Company, which included US\$350 million corresponding to an incremental loan Term B; US\$450 million in senior secured notes due 2027, US\$700 million in senior secured notes due 2029 and a Term Financing of US\$1,1 billion, with part of the proceeds from the capital increase implemented in the context of the reorganization process for a total of approximately US\$10,3 billion, through the issuance of new payment shares and convertible notes.

On March 31, 2021, the United States Court for the Southern District of New York approved and, subsequently, on April 13, 2021, issued an order approving the motion presented by the Company to extend certain leases of 3 aircraft.

(4) On June 17, 2021, the United States Court for the Southern District of New York approved the motion presented by the Company to reject the lease of an aircraft financed under a financial lease in the amount of US\$130.7 million.

(5) On June 30, 2021, the United States Court for the Southern District of New York approved the motion filed by the Company to reject the lease contract for 3 aircraft financed under a financial lease in the amount of US\$ 307.4 million.

(6) On November 1, 2021, the United States Court for the Southern District of New York approved the motion filed by the Company to reject the lease contract for 1 engine financed under a financial lease in the amount of US\$ 19.5 million.

## Hedging operation

The fair values of net assets/ (liabilities), by type of derivative, of the contracts held as hedging instruments are presented below:

|  | As of<br>December 31,<br>$\frac{2022}{\text{ThUS}}$ | As of<br>December 31,<br>$\frac{2021}{\text{ThUS}}$ |
|--|---|---|

| Foreign currency derivative R\$/US\$ (3) | 191   | -   |

- (1) They cover the significant variations in the cash flows associated with the market risk implicit in the increases in the 3-month LIBOR interest rate, SOFR, among others, for long-term loans originated by the acquisition or rental of aircraft and Bank credits. These contracts are recorded as cash flow hedge contracts.
- (2) Hedge significant variations in cash flows associated with market risk implicit in the changes in the price of future fuel purchases. These contracts are recorded as cash flow hedges.
- (3) Hedge significant variations in expected cash flows associated with the market risk implicit in changes in exchange rates, particularly the BRL/R\$. These contracts are recorded as cash flow hedge contracts.

The Company only maintains cash flow hedges. In the case of fuel hedges, the cash flows subject to such hedges will occur and will impact results in the next 12 months from the date of the consolidated statement of financial position.

All hedging operations have been performed for highly probable transactions, except for fuel hedge. See Note 3.

See Note 24 (h) for reclassification to profit or loss for each hedging operation and Note 17 (b) for deferred taxes related.

(1) Accumulated balances include a judicial deposit delivered in guarantee, with respect to the "Fundo Aeroviario" (FA), for MUS\$ 74, made in order to suspend the collection and the application of a fine. The Company is discussing in Court the constitutionality of the requirement made by FA calculated at the ratio of 2.5% on the payroll in a legal claim. Initially the payment of said contribution was suspended by a preliminary judicial decision and about 10 years later, this same decision was reversed. As the decision is not final, the Company has deposited the amounts until that date, in order to avoid collection processing and the application of the fine.

Finally, if the final decision is favorable to the Company, the deposit made and payments made later will return to TAM. On the other hand, if the court confirms the first decision, said deposit will become a final payment in favor of the Government of Brazil. The procedural stage as of December 31, 2022 is described in Note 30 under in the Role of the case 2001.51.01.012530-0.

## (2) European Commission Provision

Provision constituted on the occasion of the process initiated in December 2007 by the General Competition Directorate of the European Commission against more than 25 cargo airlines, among which is Lan Cargo SA, which forms part of the global investigation initiated in 2006 for possible infractions of free competition in the air cargo market, which was carried out jointly by the European and United States authorities.

With respect to Europe, the General Directorate of Competition imposed fines totaling € 799,445,000 (seven hundred and ninety-nine million four hundred and forty-five thousand Euros) for infractions of European Union regulations on free competition against eleven (11) airlines, among which are LATAM Airlines Group SA and its subsidiary Lan Cargo S.A .,For its part, LATAM Airlines Group S.A. and Lan Cargo S.A., jointly and severally, have been fined for the amount of € 8,220,000 (eight million two hundred twenty thousand euros), for these infractions, an amount that was provisioned in the financial statements of LATAM. On January 24, 2011, LATAM Airlines Group S.A. and Lan Cargo S.A. They appealed the decision before the Court of Justice of the European Union. On December 16, 2015, the European Court resolved the appeal and annulled the Commission's Decision. The European Commission did not appeal the judgment, but on March 17, 2017, the European Commission again adopted its original decision to impose on the eleven lines original areas, the same fine previously imposed, amounting to a total of € 776,465,000 Euros. In the case of LAN Cargo and its parent, LATAM Airlines Group S.A. imposed the same fine mentioned above. On May 31, 2017 Lan Cargo S.A. and LATAM Airlines Group S.A. requested the annulment of this Decision to the General Court of the European Union. We presented our defense in December 2017. On July 12, 2019, we participated in a hearing before the European Court of Justice in which we confirmed our request for annulment of the decision or a reduction in the amount of the fine instead. On March 30, 2022, the European Court issued its ruling and reduced the amount of our fine from € 8,220,000 Euros to € 2,240,000 Euros. This ruling can be appealed by both parties before June 15, 2022. Likewise, on December 17, 2020, the European Commission had presented a proof of claim for the total amount of the fine of  $\notin$  8,220,000 Euros before the Court of New York dealing with the financial reorganization procedure requested by LATAM Airlines Group, S.A. and LAN Cargo, S.A. (Chapter 11) in May 2020. The amount of this claim could be modified subject to the eventual appeal of the ruling of the European Court. The procedural stage as of December 31, 2022 is described in Note 30 in section 2 lawsuits received by LATAM Airlines Group S.A. and Subsidiaries.

(1) The balance includes mainly, deferred income for services not provided as of December 31, 2022 and December 31, 2021 and for the frequent flyer LATAM Pass program.

LATAM Pass is LATAM's frequent flyer program that allows rewarding the preference and loyalty of its customers with multiple benefits and privileges, through the accumulation of miles or points that can be exchanged for tickets or for a varied range of products and services. Clients accumulate miles or LATAM Pass points every time they fly in LATAM and other airlines associated with the program, as well as by buying in stores or use the services of a vast network of companies that have agreements with the program around the world.

(2) As of December 31, 2022, Deferred Income includes ThUS\$ 41,318 related to the compensation from Delta Air Lines, Inc., which is recognized in the income statement based on the estimation of income differentials until the implementation of the strategic alliance. During the period, the Company has recognized ThUS \$ 30,408 within the income statement related with this compensation.

Additionally, as of December 31, 2021, the Company maintains a balance of ThUS \$ 29,507 in Trade accounts payable of the Statement of Financial Position, corresponding to the compensation of costs to be incurred.

The discount rate is based on the bonds issued by the Central Bank of Chile with a maturity of 20 years. The RV-2014 mortality tables correspond to those established by the Commission for the Financial Market of Chile. The inflation rates are based on the yield curves of the long term nominal and inflation adjusted bonds issued by the Central Bank of Chile.

The calculation of the present value of the defined benefit obligation is sensitive to the variation of some actuarial assumptions such as discount rate, salary increase, rotation and inflation.

The sensitivity analysis for these variables is presented below:

## NOTE 24 - EQUITY

## (a) Capital

The Company's objective is to maintain an appropriate level of capitalization that enables it to ensure access to the financial markets for carrying out its medium and long-term objectives, optimizing the return for its shareholders and maintaining a solid financial position.

The paid capital of the Company at December 31, 2022 amounts to ThUS\$ 13,298,486 divided into 605,231,854,725 common stock of a same series (ThUS\$ 3,146,265 divided into 606,407,693 shares as of December 31, 2021), a single series nominative, ordinary character with no par value. The total number of authorized shares of the Company December, 31, 2022, corresponds to 606.407.693.000 shares. There are no special series of shares and no privileges. The form of its stock certificates and their issuance, exchange, disablement, loss, replacement and other similar circumstances, as well as the transfer of the shares, is governed by the provisions of the Corporate Law and its regulations.

At the Company's Extraordinary Shareholders' Meeting held on July 5, 2022, it was agreed to increase the Company's capital by US\$ 10,293,269,524 through the issuance of 73,809,875,794 paid shares and 531,991,409,513 backup shares, all ordinary, of the same and single series, without par value, of which: (a) US\$ 9,493,269,524 represented by 531,991,409,513 new shares, to be used to respond to the conversion of the Convertible Notes, according to this term is defined below (the "Support Shares"); and (b) US\$800,000,000 represented by 73,809,875,794 new paid shares (the "New Paid Shares"), to be offered preferentially to shareholders. On September 12, 2022, the preferential placement of the convertible notes and, in turn, of the new paid shares began, ending on the following dates, as explained below:

On October 12, 2022 expired the 30-day preemptive rights offering period (the "POP") of

 (i) the 73,809,875,794 new paid shares, issued and registered in the Securities Registry of
 the Comisión para el Mercado Financiero ("CMF") (the "ERO"); and (ii)
 US\$1,257,002,540 notes convertible into shares Serie G, the US\$1,372,839,695 notes
 convertible into shares Serie H, and the US\$6,863,427,289 notes convertible into shares
 Serie I, all registered in the Securities Registry of the CMF (jointly, the "Convertible
 Notes").

- 2. On October 13, 2022, the second round (the "Second Round") of subscription of the ERO has taken place, in which had the right to participate, the shareholders (or their assignees) that subscribed ERO in the POP and expressed to LATAM, at the time of the subscription, their intention to participate in the Second Round.
- 3. As previously reported, the Remainder will be placed, in compliance with the applicable laws and regulations, according to the rules governing the offering of the ERO and the Convertible Notes, as provided in Article 10 of the Regulations of the Corporations Law. Such placement includes, among other things, the placement of a portion of the Remainder with (i) a group of unsecured creditors of LATAM represented by Evercore and certain holders of Chilean notes issued by LATAM (collectively, the "Backstop Creditors"); and (ii) Delta Air Lines, Inc., Qatar Airways Investments (UK) Ltd. and the Cueto group (collectively, the "Backstop Shareholders"; and them jointly with the Backstop Creditors, the "Backstop Parties") according to the rules of their respective backstop commitment agreements (the "Backstop Agreements").
- 4. For purposes of the above, the Company will exercise its rights under the Backstop Agreements and will therefore require the Backstop Parties to subscribe and pay their respective portion of the Remainder, as provided in such agreements. Given the funding period contemplated in the Backstop Agreements, the Company managed to exit the Chapter 11on November 3, 2022. Consequently, on this same date the Company, together with its various subsidiaries that were part of the Chapter 11 Procedure, have emerged from bankruptcy. (See Note 2, c).
- 5. As part of the implementation of its Reorganization Plan within the framework of the exit from Chapter 11, LATAM issued US\$800 million in new paid shares and US\$9,493 million through the issue of three classes of notes convertible into Company shares, equivalent to a total of 605,801,285,307 paid shares. As of December 31, 2022, from the aforementioned capital increase, 604,625,447,032 shares were subscribed and paid, equivalent to ThUS\$ 10,152,221 and issuance and placement costs of ThUS\$ 810,279 were incurred, which are currently presented under other reserve and will be reclassified to "share capital" upon approval for such transfer during the next Extraordinary Shareholders' Meeting.

- (1) It only includes Convertible Notes issued in exchange for the settlement of Chapter 11 claims.
- (2) Part of the Convertible Notes received in cash and the rest in exchange for the settlement of Chapter 11 claims.

### (d) Treasury stock

At December 31, 2022, the Company held no treasury stock. The remaining of ThUS\$ (178) corresponds to the difference between the amount paid for the shares and their book value, at the time of the full right decrease of the shares which held in its portfolio.

### (e) Other equity- Value of conversion right - Convertible Notes

(e.1) Notes subscription

The Convertible Notes were issued to be place in exchange for a cash contribution, in exchange for settlement of Chapter 11 Proceeding or a combination of both. Convertible Notes issued in exchange for cash were valued at fair value (the cash received). Notes issued in exchange for settlement of Chapter 11 claims were valued considering the discount that each group of liabilities settled on at the emergence date. The table below shows the 3 Convertible Notes at their nominal values, the adjustment, if any, to arrive at their fair values and the amount of transaction costs. The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. The equity portion is recognized under Other equity at the time the Convertible Notes are issued.

The conversion option from the issuance of convertible notes classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument (i.e. convertible notes) as a whole. This is recognized and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognized

in equity will be transferred to share capital. As of December 31, 2022, the portion not converted into equity corresponds to ThUS\$39.

### (e.3) The Convertible Notes

The contractual conditions of the G, H and I Convertible Notes consider the delivery of a fixed number of shares of LATAM Airlines Group S.A. at the time of settlement of the conversion option of each of them. The foregoing determined the classification of convertible notes as equity instruments, with the exception of Bond H, which considers, in addition to the delivery of a fixed number of shares, the payment of 1% annual interest with certain conditions for its payment and its accrual from 60 days after the exit Date. The payment of this interest gives rise to the recognition of a liability component for the class H convertible notes.

At the date of issue, the fair value of the liability component in the amount of ThUS\$ 102,031 was estimated using the prevailing market interest rate for similar non-convertible instruments.

Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortized over the period of the convertible notes using the effective interest method. At December 31, 2022, the debt portion was converted into equity. Transaction costs relating to the equity component are recognised as part of Other reserves within Equity.

Balance of Other sundry reserves comprise the following:

(1) Corresponds to the difference between the value of the shares of TAM S.A., acquired by Sister Holdco S.A. (under the Subscriptions) and by Holdco II S.A. (by virtue of the Exchange Offer), which is recorded in the declaration of completion of the merger by absorption, and the fair value of the shares exchanged by LATAM Airlines Group S.A. as of June 22, 2012.

(2) Corresponds to the technical revaluation of the fixed assets authorized by the Commission for the Financial Market in the year 1979, in Circular No. 1529. The revaluation was optional and could be made only once; the originated reserve is not distributable and can only be capitalized.

(3) The balance as of December 31, 2022 corresponds to the loss generated by: Lan Pax Group S.A. e Inversiones Lan S.A. in the acquisition of shares of Aerovías de Integración Regional Aires S.A. for ThUS \$ (3,480) and ThUS \$ (20), respectively; the acquisition of TAM S.A. of the minority interest in Aerolinhas Brasileiras S.A. for ThUS \$ (885), the acquisition of Inversiones Lan S.A. of the minority participation in Aires Integra Regional Airlines S.A. for an amount of ThUS \$ (2) and the acquisition of a minority stake in Aerolane S.A. by Lan Pax Group S.A. for an amount of ThUS \$ (21,526) through Holdco Ecuador S.A. (3) The loss due to the acquisition of the minority interest of Multiplus S.A. for ThUS \$ (184,135) (see Note 1), (4) and the acquisition of a minority interest in LATAM Airlines Perú S.A through LATAM Airlines Group S.A. and Inversora Cordillera through Transportes Aéreos del Mercosur S.A. for an amount of ThUS \$ (3,383).

(4) The adjustment to the fair value of the Convertible Notes issued in exchange for settlement of Chapter 11 claims was valued considering the discount that each group of liabilities settled on at the emergence date. These relate to: gain on the haircut for the accounts payable and other accounts payable for ThUS\$2,550,306 (see note 26d), gain on the haircut for the financial liabilities for ThUS\$420,436 (see note 26e) and gain on the haircut of lease liabilities which is booked against the right of use asset for THUS\$639,728.

(5) Corresponds to 20% of the sum of the commitment of new funds of the Backstop Parties under the Series I Convertible Bonds and the New Paid Shares, plus additional costs for extension of the Backstop agreement.

### (h.1) Cumulative translate difference

These are originated from exchange differences arising from the translation of any investment in foreign entities (or Chilean investments with a functional currency different to that of the parent), and from loans and other instruments in foreign currency designated as hedges for such investments. When the investment (all or part) is sold or disposed and a loss of control occurs, these reserves are shown in the consolidated statement of income as part of the loss or gain on the sale or disposal. If the sale does not involve loss of control, these reserves are transferred to non-controlling interests

### (h.2) Cash flow hedging reserve

These are originated from the fair value valuation at the end of each period of the outstanding derivative contracts that have been defined as cash flow hedges. When these contracts expire, these reserves should be adjusted, and the corresponding results recognized.

(h.3) Reserves of actuarial gains or losses on defined benefit plans

Correspond to the increase or decrease in the present value obligation for defined benefit plans due to changes in actuarial assumptions, and experience adjustments, which are the effects of differences between the previous actuarial assumptions and the actual events that have occurred.

(\*) During 2021, the Company amended its Aircraft Lease Contracts to include lease payments based on Power by the Hour (PBH) at the beginning of the contract and fixed-rent payments later on. For these contracts that contain an initial period based on PBH and then a fixed amount, a right of use asset and a lease liability was recognized at the date of modification of the contract. These amounts continue to be amortized over the contract term on a straight-line basis starting from the modification date of the contract. Therefore, as a result of the application of the lease accounting policy, the expenses for the year include both the lease expense for variable payments (Aircraft Rentals) as well as the expenses resulting from the amortization of the right of use assets (included in the Depreciation line included in b) below) and interest from the lease liability (included in Lease Liabilities letter c) below)

(\*) As of December 31, 2022, the weighted average number of shares considers 606,407,693 shares outstanding from January 1, 2022 until November 2, 2022. From November 3, 2022 until December 31, 2022 the number of shares outstanding increases due to the equity rights offering and then increases daily as the holders of the convertible notes convert them into shares (See movement of shares in Note 24).

(\*\*) As of December 31, 2022, the weighted average number of fully diluted shares considers 606,407,693 shares outstanding from January 1, 2022 until November 2, 2022, and 605,801,285,307 shares outstanding from November 3, 2022 until December 31, 2022 which includes the equity rights offering and assumes the conversion of all convertible notes that were issued upon emergence from Chapter 11 (See movement of shares in Note 24).

(\*\*\*) Profit (Loss) attributable to holders of equity instruments of the parent company is unchanged when calculating diluted EPS because only Convertible Note H accrued interest. However, this Note was converted into shares immediately after issuance and therefore did not accrue interest during the year.

Reorganization Plan filed by the Debtors (the "Confirmation Order"). On July 5, 2022, a Special Shareholders Meeting of LATAM approved implementing the Restructuring Plan and issuing the required instruments to be able to exit the Chapter 11 Procedure. On November 3, 2022, LATAM Airlines Group S.A. and its various subsidiaries (the "Debtors") that were parties to the Chapter 11 Procedure exited that Procedure. The effective date of the exit (the "Effective Date") of LATAM's reorganization and financing plan (the "Reorganization Plan") was approved and confirmed in the U.S. reorganization procedure (the "Chapter 11 Procedure") according to the rules of Chapter 11 in Title 11 of the U.S. Code. On November 17, 2022, the 37 subsidiaries of LATAM Airlines Group S.A. filed a petition to close the Chapter 11 Proceeding. On December 14, 2022, the Bankruptcy Court approved the petition. The process remains open with respect to LATAM Airlines Group S.A. Limited claims pending in the Chapter 11

proceedings continue to be reconciled.

leadline by VAS judge's chambers since March 11, 2019 to decide on replacing the damage estimation expert as requested by LATAM AIRLINES COLOMBIA. The one previously appointed did not take office. A petition has also been made by VAS objecting to the translation of the documents in English into Spanish due to serious mistakes, which was served to the parties in October 2018. The 45th Civil Circuit Court issued an order on August 13, 2019 that did not decide on the pending matters but rather voided all actions since September 14, 2018 and ordered the case to be referred to the 46th Civil Circuit Court according to article 121 of the General Code of Procedure. Said article says that court decisions must be rendered in no more than one (1) year as from the service of the court order admitting the claim. If that period expires without any ruling being issued, the Judge will automatically forfeit competence over the proceedings and must give the Administrative Room of the Superior Council of the Judiciary notice of that fact the next day, in addition to referring the case file to the next sitting judge in line, who will have competence and will issue a ruling in no more than 6 months. The case was sent to the 46th Civil Circuit Court on September 4, 2019, which claims that there was a competence conflict and then sent the case to the Superior Court of Bogotá to decide which court, the 45th or 46th, had to continue with the case. The Court decided that 45<sup>th</sup> Civil Circuit Court should continue with the case, so this Court on 01/15/2020 has reactivated the procedural process ordering the transfer to the parties of the objection presented by VAS for serious error of the translation to Spanish of documents provided in English. On 02/24/2020 it declares that the parties did not rule on the objection presented by VAS and requires the plaintiff to submit an expert opinion of damages corresponding to the claims of the lawsuit through its channel. Since 03/16/20 a suspension of terms is filed in Courts due to the pandemic. Judicial terms were reactivated on July 1, 2020. On September 18, 2020, an expert opinion on damages was submitted that had been requested by the Court. The Court ordered service of the ruling to the parties on December 14, 2020. The defendants, REGIONAL ONE and VAS, filed a motion for reconsideration of this decision, petitioning that the evidence of the expert opinion be eliminated because it was presented late. The motion was denied by the Court. On April 30, 2021, they petitioned for a clarification and supplement to the opinion, to which the Court agreed in a decision on May 19, 2021, giving the expert 10 business days to respond. The brief of clarification was filed June 2, 2021 and the docket was presented to the Judge on June 3, 2021. The parties were given notice of the objection on July 21, 2021 based on a serious mistake in the opinion presented by Regional One. The case entered the judgment phase on August 5, 2021. On October 7, 2021, the Court set a date for the instruction and judgment hearing, which will be February 3, 2022. Regional One, the defendant, filed a petition for reconsideration on October 13, 2021 that had not been decided on the date of this report. The claim was withdrawn on January 11, 2022 because the matter had been settled before the Bankruptcy Court hearing the Chapter 11 claim. The Court decreed the end of the proceedings because the claims were withdrawn in a ruling issued January 19, 2022. On January 21, 2022, VAS submitted a remedy of reconsideration and, alternatively, an appeal against the interim decision because it did not order costs to be paid to it. The parties were given notice to present a response between February 2 and 4, 2022. The proceedings continue with the judge while they decide on costs. These costs will not be enforced under the settlement made in the USA by VAS and LATAM Airlines Colombia.

Florida. On June 4, 2019, the State Court of Florida allowed REGIONAL ONE to add a new claim against LATAM AIRLINES COLOMBIA for default on a verbal contract. Given the new claim, LATAM AIRLINES COLOMBIA petitioned that the Court postpone the trial to August 2019 to have the time to investigate the facts alleged by REGIONAL ONE to prove a verbal contract. The facts discovery phase continued, including the verbal statements of the experts of both sides, which have been taking place since March 2020. Given the Covid-19 pandemic and the suspension of trials in the County of Miami-Dade, the Court canceled the trial scheduled for June 2020. In addition, the claims against Aires have been suspended given the request for reorganization filed by LATAM AIRLINES GROUP SA and some of its subsidiaries, including Aires, on May 26, 2020, under Chapter 11 of the United States Bankruptcy Code. Dash, Regional One and VAS filed unsecured claims with the U.S. Bankruptcy Court by the deadline that creditors have according to Chapter 11. On October 18, 2021, Regional One, Dash and LATAM AIRLINES COLOMBIA participated in a third mediation where they agreed on the terms of a global settlement. On December 16, 2021, the Bankruptcy Court for the Southern District of New York approved the global agreement and release. Therefore, Dash and Regional withdrew their claims against Aires in Florida on December 21, 2021. VAS and Regional One informed the Court of a settlement agreement between them. VAS has informally presented a modified Chapter 11 claim to LATAM AIRLINES COLOMBIA in the intent to claim an indemnity of USD\$1,197,539. LATAM AIRLINES COLOMBIA has not yet responded. VAS withdrew the damage indemnity claim against LATAM Airlines Colombia.

| LATAM Airlines<br>Group S.A. | 22° Civil Court of<br>Santiago        | C-29.945-2016             | The Company received notice of a civil liability<br>claim by Inversiones Ranco Tres S.A. on January<br>18, 2017. It is represented by Mr. Jorge Enrique<br>Said Yarur. It was filed against LATAM<br>Airlines Group S.A. for an alleged contractual<br>default by the Company and against Ramon<br>Eblen Kadiz, Jorge Awad Mehech, Juan Jose<br>Cueto Plaza, Enrique Cueto Plaza and Ignacio<br>Cueto Plaza, directors and officers, for alleged<br>breaches of their duties. In the case of Juan Jose<br>Cueto Plaza, Enrique Cueto Plaza and Ignacio<br>Cueto Plaza, it alleges a breach, as controllers of<br>the Company, of their duties under the<br>incorporation agreement. LATAM has retained<br>legal counsel specializing in this area to defend<br>it. | The claim was answered on March 22, 2017 and the plaintiff filed its replication on April 4, 2017. LATAM filed its rejoinder on April 13, 2017, which concluded the argument stage of the lawsuit. A reconciliation hearing was held on May 2, 2017, but the parties did not reach an agreement. The Court issued the evidentiary decree on May 12, 2017. We filed a petition for reconsideration because we disagreed with certain points of evidence. That petition was partially sustained by the Court on June 27, 2017. The evidentiary stage commenced and then concluded on July 20, 2017. Observations to the evidence must now be presented. That period expires August 1, 2017. We filed our observations to the evidence on August 1, 2017. We were served the decision on December 13, 2017 that dismissed the claim since LATAM was in no way liable. The plaintiff filed an appeal on December 26, 2017. Arguments were pled before the Santiago Court of Appeals on April 23, 2019, and on April 30, 2019, this Court confirmed the ruling of the trial court absolving LATAM. The losing party was ordered to pay costs in both cases. On May 18, 2019, Inversiones Ranco Tres S.A. filed a remedy of vacation of judgment based on technicalities and on substance against the Appellate Court admitted both appeals on May 29, 2019 and the appeals are pending a hearing by the Supreme Court. On August 11, 2021 Inversiones Ranco Tres S.A. requested the suspension of the hearing of the Appeal, after the recognition by the 2nd Civil Court of Santiago of the foreign reorganization procedure lasts, a request that was accepted by the Supreme Court. In December 2022 LATAM requested the end of the suspension. | 15,488   |

LATAM Airlines Group filed a motion to dismiss on November 26, 2019. In response, a motion to suspend discovery was filed on December 23, 2019 while the Court was deciding on the motion to dismiss. The process was under a temporary Suspension Order from April 6, 2020 to September 2021 because of the inability to proceed regularly as a result of the indefinite duration and restrictions imposed by the world pandemic. Jose Ramon Lopez Regueiro filed a Second Amendment to the Claim on September 27, 2021 of undetermined amount. This case was dismissed by the Court on June 30, 2022 because the property was not confiscated by a U.S. national and the plaintiff was not a U.S. citizen when they acquired the alleged claim to the property or at least not before the enactment of the Helms-Burton Act (March 12, 1996). The suspension of claims against LATAM remained in effect until the Chapter 11 proceedings concluded. Since the plaintiff did not present a proof of claim against LATAM. Consequently, the plaintiff agreed to withdraw their claim. A status report was presented to the Court that confirmed this. The provision is undetermined. | -0-  |

  - II. Governmental Investigations.

1) On April 6, 2019, LATAM Airlines Group S.A. received the resolution issued by the National Economic Prosecutor's Office (FNE), which begins an investigation Role No. 2530-19 into the LATAM Pass frequent passenger program. The last activity in this investigation corresponds to request for information received in May 2019.

2) On July 9, 2019, LATAM Airlines Group S.A. received the resolution issued by the National Economic Prosecutor's Office (FNE) which begins an investigation Role No. 2565-19 into the Alliance Agreement between LATAM Airlines Group S.A. and American Airlines INC. The National Economic Prosecutor's Office archived the investigation on November 29, 2022.

3) On July 26, 2019, the National Consumer Service of Chile (SERNAC) issued the Ordinary Resolution No. 12,711 which proposed to initiate a collective voluntary mediation procedure on effectively informing passengers of their rights in cases of cancellation of flights or no show to boarding, as well as the obligation to return the respective boarding fees as provided by art. 133 C of the Aeronautical Code. The Company has voluntarily decided to participate in this proceeding, in which an agreement was reached on March 18, 2020, which implies the return of shipping fees from September 1, 2021, with an initial amount of ThUS\$ 5,165, plus ThUS\$ 565, as well as information to each passenger who has not flown since March 18, 2020, that their boarding fees are available. On January 18, 2021, the 14th Civil Court of Santiago approved the aforesaid agreement. LATAM published an abstract of the decision in nationwide newspapers in compliance with the law. LATAM began performance of the agreement on September 3, 2021. In April and October 2022, the external auditors presented preliminary reports agreed upon with the National Consumer Service (SERNAC).

4) On October 15, 2019, LATAM Airlines Group S.A. received the resolution issued by the National Economic Prosecuting Authority (FNE) which begins an investigation Role N°2585-19 into the agreement between LATAM Airlines Group S.A. and Delta Airlines, Inc. On August 13, 2021 FNE, Delta and LATAM reached an out-of-court agreement that put an end to this investigation. On August 25, 2022, the Tribunal de Defensa de la Libre Competencia approved the out-of-court agreement reached by LATAM and Delta Air Lines with the National Economic Prosecuting Authority.

5) LATAM Airlines Group S.A. received a resolution by the National Economic Prosecutor (FNE) on February 1, 2018 beginning Investigation 2484-18 on air cargo carriage. On August 25, 2022,

LATAM sent a letter to the FNE accompanying information related to the LATAM Cargo website, complying with the request of the National Economic Prosecutor. The last activity in this investigation corresponds to an official letter from the FNE received on 10/24/2022 that must be answered on 11/08/2022.

6) LATAM Airlines Group S.A. received a resolution by the National Economic Prosecutor (FNE) on August 12, 2021 beginning Investigation N° 2669-21 on compliance with condition VII Res. N° 37/2011 H. TDLC related to restrictions as to certain codeshare agreements. The most recent activity in this investigation was an official letter received in June of this year, which was answered on July 21, 2022.

7) On September 16, 2021, the National Consumer Service of Chile (SERNAC) issued the Ordinary Resolution No. 721 which proposed to LATAM Airlines Group S.A. a collective voluntary mediation procedure regarding the execution of solutions offered by the Company to customers during the COVID-19 pandemic. The Company decided to voluntary participate in the mediation procedure, which resulted an agreement on April 20, 2022. Pursuant the agreement, an external auditor will review the fulfillment, by the Company, of the solutions offered to customers between July 17, 2020, and September 16, 2021. Additionally, the external auditor must report to SERNAC any measure aiming to enhance customer service and implemented by the Company between the July 17, 2020, and October 13, 2022, timeframe. The implementation of the agreement begun on May 13, 2022. The external auditors presented the preliminary report agreed upon with the National Consumer Service (SERNAC) on August 19, 2022. On December 27, 2022 SERNAC issued the resolution that concluded the procedures related to this agreement, terminating it.

8) On May 21, 2022, Agunsa filed a petition for a preliminary preparatory measure of exhibition of documents in respect of Aerosan, Depocargo, Sociedad Concesionaria Nuevo Pudahuel and Fast Air in which Agunsa claimed that it was impacted by alleged anti-competition practices on the import cargo warehousing market at the Arturo Merino Benitez International Airport. Fast Air was served on June 9, 2022 and on June 13, 2022, it lodged opposition against this petition, which was partially sustained by the Antitrust Court (TDLC) on July 19, 2022, in which the new exhibition date was set as August 22nd (the original date set by the court was July 1, 2022). On July 25, 2022, Fast Air requested a reconsideration of this latter court decision and petitioned that the temporary scope of the exhibition be reduced. Fast Air's petition was sustained and the scope of the documents to be revealed was limited even further. On August 12th, Fast Air petitioned that a new date and time be set for the exhibition hearing. The court granted this latter request on August 17th and set the exhibition date as August 31st. Fast Air appeared with 368 files and asked for confidentiality and/or secrecy of all of the information presented.

9) On October 27, 2021, LATAM Airlines Group S.A. received an official letter from the Office of Aviation Consumer Protection of the U.S. Department of Transportation (DOT) asking about the delay in making and/or refusal to make reimbursements to passengers potentially impacted by flight cancellations during the pandemic (March 20, 2020 to July 31, 2021), a potential violation of requirements under 14 CFR Part 259 and 49 U.S.C. § 41712. The most recent activity in this investigation is a response sent by LATAM Airlines Group on July 19, 2022 to a request by the DOT to explain related information provided by LATAM Airlines Group S.A. in December 2021 and March 2022.

#### NOTE 31 - COMMITMENTS

#### (a) Commitments arising from loans

In relation to certain contracts committed by the Company for the financing of the Boeing 777 aircraft, which are guaranteed by the Export – Import Bank of the United States of America, commencing on January 1, 2023, limits have been established for some financial indicators of LATAM Airlines Group S.A. on a consolidated basis. Under no circumstance does non-compliance with these limits generate loan acceleration.

The Company and its subsidiaries do not have credit agreements that impose limits on financial indicators of the Company or its subsidiaries, with the exception of those detailed below:

On October 12, 2022, LATAM Airlines Group S.A., acting through its subsidiary Professional Airline Services Inc, closed a new four-year revolving credit facility ("Exit RCF") of US\$ 500 million with a consortium of five banks led by Goldman Sachs. As of December 31, 2022, this credit facility is undrawn and fully available. In addition, on October 18, 2022, LATAM Airlines Group S.A., together with Professional Airline Services, Inc., a Florida corporation and a wholly owned subsidiary of LATAM Airlines Group S.A., issued (i) a five-year term loan facility ("Term Loan B Facility") of US\$ 1,100 million (US\$1,100 million outstanding as of December 31, 2022), (ii) 13.375% senior secured notes due 2027 ("2027 Notes") for an aggregate principal amount of US\$ 450 million and (iii) 13.375% senior secured notes due 2029 ("2029 Notes", together with the 2027 Notes, the "Notes") for and aggregate principal amount of US\$ 700 million. The Exit RCF, the Term Loan B Facility and the Notes (together, the "Exit Financing") share the same intangible collateral composed mainly of the FFP (LATAM Pass loyalty program) business receivables, Cargo business receivables, certain slots, gates and routes and LATAM's intellectual property and brands. The Exit Financing contains certain covenants limiting us and our restricted subsidiaries' ability to, among other things, make certain types of restricted payments, incur debt or liens, merge or consolidate with others, dispose of assets, enter into certain transactions with affiliates, engage in certain business activities or make certain investments. In addition, the agreements include a minimum liquidity restriction, requiring us to maintain a minimum liquidity, measured at the consolidated Company (LATAM Airlines Group S.A.) level, of US\$ 750 million.

On November 3, 2022, LATAM Airlines Group S.A., acting through its subsidiary Professional Airline Services Inc, amended and extended the 2016 revolving credit facility ("RCF") with a consortium of thirteen financial institutions led by Citibank, N.A., guaranteed by aircraft, engines and spare parts for a total committed amount of US\$ 600 million. The RCF includes restrictions of minimum liquidity measured at the consolidated Company level (with a minimum level of US\$ 750 million) and measured individually for LATAM Airlines Group S.A. and TAM Linhas Aéreas S.A. (with a minimum level of US\$ 400 million). Compliance with these restrictions is a prerequisite for drawing under the line; if the line is used, compliance with said restrictions must be reported periodically, and non-compliance with these restrictions may trigger an acceleration of the loan. As of December 31, 2022, this line of credit is undrawn and fully available.

On November 3, 2022, LATAM Airlines Group S.A., acting through subsidiary its Professional Airline Services Inc, executed a five-year credit facility ("Spare Engine Facility") with, among others, Crédit Agricole Corporate and Investment Bank, acting through its New York branch, as facility agent and arranger and guaranteed by spare engines for a principal amount of US\$ 275 million. As of December 31, 2022, the outstanding amount under the Spare Engine Facility is US\$ 275 million. The facility includes restrictions of minimum liquidity measured at the consolidated

Company level (with a minimum level of US\$ 750 million) and measured individually for LATAM Airlines Group S.A. and TAM Linhas Aéreas S.A. (with a minimum level of US \$ 400 million).

As of December 31, 2022, the Company complies with the aforementioned minimum liquidity covenants.

# NOTE 33 - SHARE-BASED PAYMENTS

#### LP3 compensation plans (2020-2023)

The Company implemented a program for a group of executives, which runs from October 2020 and lasts until March 2023, where the percentage that is collected is annual and cumulative. The methodology is based on the allocation of a quantity of units where the goal is the achievement of a specified share price.

The benefit is vested if the target of the share price defined in each year is met. In case the benefit accumulates up to the last year the total benefit is doubled (in case the share price is achieved).

This Compensation Plan has not yet been provisioned due to the fact that the share price required for collection is below the initial target.

### NOTE 34 - STATEMENT OF CASH FLOWS

(a) The Company has carried out the following non-monetary transactions mainly related for:

a.1.) Proceeds from the issuance of shares:

| Detail             | THUS\$    |
|--------------------|-----------|
| Issuance of shares | 800,000   |
| Issuance costs     | (80,000)  |
| DIP Junior offset  | (170,962) |
| Total cash flow    | 549,038   |

From the total capital increase for ThUS\$800,000, ThUS\$549,038 were cash Inflows presented in Financing Activities. ThUS\$170,962 were offset against a portion of the Junior DIP maintained with the shareholder Inversiones Costa Verde Ltda. y CPA Additionally, there were ThUS\$80,000 deducted related to equity issuance cost, that are presented within Other sundry reserves of equity.

a.2.) Amount from the issuance of other equity instruments:

# NOTE 35 - THE ENVIRONMENT

LATAM Airlines Group S.A is dedicated to sustainable development, seeking to generate social, economic, and environmental value for the countries where it operates and for all its stakeholders. The company manages socio-environmental issues at a corporate level, centralized in the Corporate Affairs and Sustainability Department. The company is committed to monitoring and mitigating its impact on the environment in all its ground and air operations, being a key element in the solution, and searching for alternatives to the challenges of the company and its environment.

The main functions of Corporate Affairs and Sustainability Department in environmental issues, in conjunction with the various areas of the company, are to ensure that environmental legal compliance is maintained in all the countries where it is present, to implement and maintain corporate environmental management, the efficient use of non-renewable resources such as aircraft fuel, the responsible disposal of its waste, and the development of programs and actions that allow it to reduce its greenhouse gas emissions, seeking to generate environmental benefits, social and economic for the company and the countries where it operates.

LATAM's sustainability strategy launched in 2021 is based on 4 action fronts: Environmental Management System, Climate Change Management, Circular Economy and Shared Value, and from these, it manages different areas related to the environment. With these pillars, the company seeks to generate social, environmental, and economic value for society and business, anticipating the risks inherent in the sustainability challenges posed by the current and future scenarios.

The aspects addressed in from each pillar of the strategy are presented below:

# Environmental Management System

The company is working to standardize its environmental management system at a cross-cutting level and under the same structure, it seeks to certify its operation under stage II of the IATA Environmental Assessment Program (IEnvA), which is designed to evaluate and improve, independently, the environmental management of airlines, given that in addition to being based on the ISO 14001 standard, it involves the best practices of the industry.

### Climate Change Management

To manage its carbon footprint and contribute to the protection of strategic ecosystems in the region, LATAM has set a goal to offset the equivalent of 50% of domestic emissions by 2030 and be carbon-neutral by 2050, for this it has focused its strategy in:

- 1. Efficient operation: with the implementation of LATAM Fuel Efficiency, a corporate program for the efficient use of fuel that considers initiatives in all areas of the company that have an impact on fuel consumption.
- 2. Sustainable Alternative Fuels (SAF): Given the importance of Sustainable Aviation Fuel (SAF) to combat climate change in the long term, LATAM is developing a work plan focused on Brazil and Colombia, which has recognized and long-standing experience in biofuels; and Chile, a country with high development potential in green hydrogen.

3. Emission compensation: LATAM has assumed a total commitment to the environment and has established different alliances that will allow it not only to acquire carbon credits for its compensation needs but also to contribute to the conservation of strategic ecosystems in the region.

# Circular Economy

LATAM aims to eliminate single-use plastics by 2023 and be a zero waste to landfill group by 2027. To achieve these goals, it has reviewed the materiality used in its process and its waste management to promote the circular economy within its processes, acting from materiality.

# Shared Value

In creating shared value, the Solidarity Plane program stands out, created in 2011 and with which LATAM makes its structure, connectivity, and passenger and cargo transport capacity available to society for free in South America. The program acts in three areas of action: it supports health needs, promotes the conservation of natural resources, and provides support in the event of natural disasters.

Within the framework of the implementation of the strategy, during 2023, the company has been working on the following initiatives:

- Implementation and Certification of all LATAM operations under the IATA Environmental Assessment Program IEnvA in stage 2.
- Support for conservation projects and compensation of emissions.
- Measurement and management of the corporate carbon footprint.
- Neutralization of domestic air operations in Colombia.
- Verification of the company's emissions under the EU-ETS and CORSIA schemes.
- Structuring of the baseline in waste management to advance in the fulfillment of its circular economy goals.
- Implementing processes for the elimination of single-use plastic in the operation and reduction of waste to landfills.
- Strengthening of the Solidarity Plane program.

The group was part of the Dow Jones Sustainability Index for six consecutive years, being classified as one of the most sustainable in the world. Today, LATAM does not participate in the selection because it is in the process of financial reorganization, but it continues to use the analysis as benchmarking and as a guide to implementing improvements in its processes.

In 2023, according to the S&P Corporate Sustainability Assessment, LATAM was recognized as the most sustainable airline in the region and the fourth worldwide, according to this assessment,

LATAM was included in the 2022 Yearbook in the Bronze category, maintaining its position as one of the best-performing companies in sustainability in the industry.
