

LATAM group increased capacity by 10% in July and achieved a solid load factor of 86.7%

Operating statistics for July 2025

Santiago, August 11, 2025 - During July, LATAM group increased its consolidated capacity, measured in available seat-kilometers (ASK), by 10%, while also improving its consolidated load factor, both compared to the same period of 2024. In terms of capacity, this growth was mainly driven by a 12.2% increase in the group's international operations, as well as an 11.8% increase in the domestic operations of LATAM Airlines Brazil.

Consolidated traffic, measured in revenue passenger-kilometers (RPK), rose by 10.4%. As a result, the consolidated load factor in July 2025 reached a solid 86.7%, representing a 0.4 percentage point increase compared to the same month of the previous year.

Throughout the month, LATAM group transported nearly 8 million passengers, which represents an increase of 7.9% compared to July 2024. Year-to-date, the group has transported 49.5 million passengers.

In terms of cargo, LATAM group's capacity, measured in available ton-kilometers (ATK), increased by 5.1% compared to the same period last year, reaching 703 million ATKs.

The following table summarizes the main operating statistics for the month and year-to-date as of July for the main LATAM group business segments:
